**A Critical History and Philosophy of Psychology** Richard T. G. Walsh, Thomas Teo, Angelina Baydala, 2014-03-20 In line with the British Psychological Society's recent recommendations for teaching the history of psychology this comprehensive undergraduate textbook emphasizes the philosophical cultural and social elements that influenced psychology's development The authors demonstrate that psychology is both a human i e psychoanalytic or phenomenological and natural i e cognitive science exploring broad social historical and philosophical themes such as the role of diverse cultures and women in psychology and the complex relationship between objectivity and subjectivity in the development of psychological knowledge The result is a fresh and balanced perspective on what has traditionally been viewed as the collected achievements of a few great men With a variety of learning features including case studies study questions thought experiments and a glossary this new textbook encourages students to critically engage with chapter material and analyze themes and topics within a social historical and philosophical framework

*Evolution's Empress* Maryanne L. Fisher, Justin R. Garcia, Rosemarie Sokol Chang, 2013-01-30 Over the last decade there has been increasing debate as to whether feminism and evolutionary psychology can co exist Such debates often conclude with a resounding no often on the grounds that the former is a political movement while the latter is a field of scientific inquiry In the midst of these debates there has been growing dissatisfaction within the field of evolutionary psychology about the way the discipline and others have repeatedly shown women to be in passive roles when it comes to survival and reproduction Evolutionary behavioral research has made significant strides in the past few decades but continues to take for granted many theoretical assumption that are perhaps in light of the most recent evidence misguided As a result the research community has missed important areas of research and in some cases will likely come to inaccurate conclusions based on existing dogma rather than rigorous theoretically driven research Bias in the field of evolutionary psychology echoes the complaints against the political movement attached to academic feminisms This is an intellectual squabble where much is at stake including a fundamental understanding of the evolutionary significance of women's roles in culture mothering reproductive health and physiology mating female alliances female aggression and female intrasexual competition Evolution's Empress identifies women as active agents within the evolutionary process The chapters in this volume focus on topics as diverse as female social interactions mate competition and mating strategies motherhood women's health sex differences in communication and motivation sex discrimination and women in literature The volume editors bring together a diverse range of perspectives to demonstrate ways in which evolutionary approaches to human behavior have thus far been too limited By reconsidering the role of women in evolution this volume furthers the goal of generating dialogue between the realms of women's studies and evolutionary psychology

*The Social Behavior of Older Animals* Anne Innis Dagg, 2009-02-02 A groundbreaking study on the lives of senior mammals and birds from the aging of alphas to the role of

grandmothers by the author of *Animal Friendships* How do young and old social animals view each other Are aged animals perceived by others as weaker Or wiser What is the relationship between age and power among social animals Taking a cue from Frans de Waal's seminal work examining the lives of chimpanzees Anne Innis Dagg in this pioneering study probes the lives of older mammals and birds Synthesizing the available scientific research and anecdotal evidence she explores how aging affects the lives and behavior of animals ranging from elk to elephants and gulls to gorillas examining such topics as longevity how others in a group view senior members in regard to leadership wisdom and teaching mating success interactions with mates and offspring how aging affects dominance changes in aggressive behavior and adaptability and death and dying At once instructive and compelling this theme spanning book reveals the complex nature of maturity in scores of social species and shows that animal behavior often displays the same diversity we find in ourselves Dagg's book should be a corrective to us all species that lose or ignore the contributions of their older members do so at their peril

Literary Review of Canada Humans and chimps it turns out value age in sexual partners very differently In our species youth is prized but among chimps the reverse is the case The New York Review of Books **Liars and Outliers** Bruce Schneier, 2012-01-27 In today's hyper connected society understanding the mechanisms of trust is crucial Issues of trust are critical to solving problems as diverse as corporate responsibility global warming and the political system In this insightful and entertaining book Schneier weaves together ideas from across the social and biological sciences to explain how society induces trust He shows the unique role of trust in facilitating and stabilizing human society He discusses why and how trust has evolved why it works the way it does and the ways the information society is changing everything **The Nature-Nurture Debates** Dale Goldhaber, 2012-07-09 How is it possible that in more than one hundred years the nature nurture debate has not come to a satisfactory resolution The problem Dale Goldhaber argues lies not with the proposed answers but with the question itself In *The Nature Nurture Debate* Goldhaber reviews the four major perspectives on the issue behavior genetics environment evolutionary psychology and developmental systems theory and shows that the classic reductionist strategies behavior genetics and environmental approaches are incapable of resolving the issue because they each offer a false perspective on the process of human development It is only through a synthesis of the two holistic perspectives of evolutionary psychology and developmental systems theory that we will be able to understand the nature of human behavior **Darwinism, Democracy, and Race** John Jackson, David Depew, 2017-07-06 Cover Half Title Title Page Copyright Page Dedication Table of Contents Acknowledgments 1 Introduction in the footsteps of Franz Boas 2 Franz Boas and the argument from presumption 3 Demarcating anthropology the boundary work of Alfred Kroeber 4 Theodosius Dobzhansky and the argument from definition 5 Unifying science by creating community the epideictic rhetoric of Sherwood Washburn 6 A kairos moment unmet and met the controversy over Carleton Coon's *The Origin of Races* 7 Epilogue the roots of the Sociobiology controversy the infirmities of Evolutionary Psychology and the unity of anthropology Index **EBOOK:**
