Ecological Feelings Joshua Trey Barnett,2025-03-01 These days earthly coexistence often feels bad As environmental crises amass they cast a shadow over an imagined future and the promises of better or at least predictable days to come In times of climate chaos mass extinction and rampant environmental injustice it is easy to despair But here and there a glimmer of joy or optimism shines forth and reminds us that it is possible even necessary to love and to hope amid the ruins The contributors to this volume grapple with a plurality of interrelated ecological feelings care concern contempt empathy fear grief hope joy numbness optimism possessiveness regret and saudades Informed by a rhetorical perspective the essays collected here reveal what sets our ecological feelings into motion Crucially they also uncover some of the rhetorical

practices through which we might collectively feel our way into a more harmonious earthly coexistence *Technical Report*, 2005
