

A silhouette of a person stands in a field of tall grass, with their arms outstretched horizontally. The person is positioned in the center of the frame, facing away from the viewer towards a bright sunset. The sun is a large, glowing orb in the upper center, casting a warm, golden light across the sky and the landscape. In the background, a range of mountains is visible, their peaks softened by a light atmospheric haze. The overall mood is one of peace, openness, and connection with nature.

The Complete Opera Book Gustav Kobbé, 1919 The Dark Side of Relationship Pursuit Brian H. Spitzberg, William R. Cupach, 2004-04-12

Authors William R. Cupach and Brian H. Spitzberg synthesize the expanding multidisciplinary base of knowledge about obsessive relational intrusion (ORI) and stalking, presenting a comprehensive scholarly consideration of these behaviors. Their inclusive approach is reflected in the breadth of research represented, including social, clinical, and forensic psychology, psychiatry, counseling, communication, criminal justice, law enforcement, sociology, social work, threat assessment and management, and family studies. The work also draws upon the multidisciplinary scholarship on social and personal relationships. The chapters in this volume provide historical and definitional frames for studying unwanted relationship pursuit and consider the role of such sources as the media, law, and social science research in shaping the contemporary multifaceted and multifarious conceptualizations of stalking. The authors assume that much unwanted relationship pursuit owes to complications inherent in the processes of constructing and dismantling relationships. They examine the factors that conspire to create slippage between two persons' conceptions of their shared relationship and explore the cultural practices associated with relationship dissolution that tend to reinforce persistence in unwanted pursuit. They chart the topography of unwanted pursuit, offering a unique and comprehensive synthesis of relevant research bearing on several issues and a review of the temporal stages and characteristics of stalking. They consider promising theories and variables for explaining the occurrence of unwanted pursuit and discuss the issues pertinent to threat assessment, managing unwanted pursuit, and offering a comprehensive typology of victim consequences of pursuit. The volume concludes with thoughts about correcting courtship. Drawing on the interpersonal competence literature, Cupach and Spitzberg speculate on ways in which enhancing relationship management skills could help diminish the incidence and debilitating consequences of ORI and stalking. With this work, the authors provide a clearer picture of the current state of knowledge about stalking and, in so doing, identify productive paths for scholarly inquiry and ultimately bolster the effectiveness of prevention and intervention efforts. The volume is destined to promote and publicize the multidisciplinary
