## **Make My Day:**

**Make My Day** J. *My Revelations of Love* Fabian D. Falls, 2007-10 As indicated in the title this is a study in the historical evolution of the major faiths of mankind and their religious beliefs It is not a study to prove who is right and who is wrong As such it certainly has a different approach to the subject The layout of the subject may not depict the usual traditional approach observed in religious works but it certainly preserves its true historical background This work therefore is mainly historical in its essence The subject matter of this discourse is not only interesting but it is also informative and educational When we talk about the history of mankind we also talk about the origin and the development of their religious beliefs their culture and the social values of their life Theology a critical study of religious ideas a dogmatic approach has often in past

been a source of divisions among the people of diverse beliefs and cultures This planet would have been a much better place to live in for all human beings if man had learned to appreciate and respect the religious and cultural beliefs of the people different than those in which he had been brought up Rather than finding differences and keeping alive hatred and dislike for other faiths and beliefs he would have done better if he had understood the common purpose that exists behind all faiths Much has been said and written about the conduct of people who in the name of religion have destabilized the world peace The dangers of such religious polemics are evident in many areas of our planet In the pluralistic world of today no one faith has the monopoly of the Truth People are Christians Jews Hindus Buddhists or Muslims out of their sincere convictions Endowed with the gift of intellect and historical inheritance people have chosen different paths and ways in their search for the Truth We all eat the food grown in the same soil drink water from the same springs and breathe the air from the same atmosphere Even while holding to our own religious views there is no reason why we can not respect and appreciate the beliefs of the others An old Japanese saying goes like this There are many paths at the foot of a mountain but the view of the moon is the same at the top I would consider myself rewarded if through this work I can arouse enough interest in the minds of my readers to know and appreciate the fundamental teachings of all religions namely the understanding of God the Creator of this Universe and Man's relationship with Him

Few people know the price of everything and yet value of nothing. I know that's not you because if it were the case you won't be flickering here to make things better and take your life to the next level. Today a lot of people know what to do yet a very few do what they know. The reason being is they just don't know how. This book is all about how. This book will help you to enhance and optimize each and every area of your life and will empower you how to crush it all. It is not what the book will cost you; it is what it will cost if you don't read it. Successful is a man who is healthy, wealthy, wise. We all have dreams, a fascinating, enchanting imagination and a blueprint of how our life is supposed to be. We all want to believe deep down in our souls that we have a special gift that we can make a difference that we can touch others in a special and pretty unique way and that we can make this world a better place to live. At one time in our lives we all had a vision for the quality of life that we desire and deserve. Yet for many of us those dreams have become shrouded in the frustrations and routines of daily life that we no longer even make an effort to accomplish them. For too many the dream has dissipated and with it so has the will to design an extraordinary quality of life filled with grace and abundance. Many have lost that sense of certainty that creates winners' edge. After all, what's the difference that makes the difference? What makes the difference in the quality of people's lives? Why few achieve what they want and succeed in their lives up to no limits and rest just keep dreaming and never reach to their dreamland? What is it that makes successful people successful and the rest mere dreamers? After all, what's the difference between incredibly successful legends and happily mediocre crowd? How is it that so often people from such humble beginnings, devastating backgrounds, miserable circumstances, poor conditions and innumerable disappointments in spite of it all manage to create lives that inspire us? Conversely, why do many of those born into privileged environments with every resource for success at their fingertips end up ill, fat, broke, stupid, embarrassed, miserable, often chemically addicted, technically screwed? What makes some people's lives example while others a warning? For my entire life I have been obsessed with like questions. And to quench my quest of figuring out the difference that made the difference I stumbled upon an never ending journey, the road to personal excellence. The road which is always under construction. I'm not here to claim that I have figured it all out. But the great news is I'm yet evolving. Honor those who seek the truth, beware of those who have found it. For me it's a reminder that the path to personal excellence never ends and that absolutely nobody has this SHIT figured out. *Be Successful: Thrive Exponentially Beyond Excellence* is my open invitation for you to join me on this uniquely phenomenal journey, the way to thrive exponentially beyond excellence. **IS THIS INVITATION REALLY FOR YOU?** Oh, I must say that's a pretty good question. Knowledge is having the right answer while intelligence is asking the right question. Anyways, let's come back to the point. Is this book really for you? Now I can answer it in two ways.
