Makers Of The Modern Theological Mind Teilhard De Chardin:

Teilhard De Chardin (Makers of the Modern Theological Mind) Doran McCarty, 1976 Pierre Teilhard de Chardin is one of those unusual men who fit no mold and cannot be easily labeled A complex and brilliant thinker he had a simple and mystical faith A Frenchman who loved his homeland he spent most of his life in China because he was not allowed by his superiors to teach in French As a Jesuit priest he held views on creation and evolution considered highly suspect and unorthodox yet he submitted humbly to his order's prohibition against teaching or publishing during his lifetime His profession palaeontology called on him to study the past but the greater portion of his thinking and writing has to do with the future the future of man and society Teilhard de Chardin is one of the few modern thinkers who have tried to integrate all phenomena into one system His first book *The Phenomenon of Man* published after his death took the reading public by storm because of its vast sweep and bold attempt to create a complex and cosmic system from both a scientific and a Christian point of view Doran McCarty's treatment of Teilhard covers all the important aspects of his life and thought Here you will find discussions of Teilhard's views on the nature of God the nature of man the structure of reality creation and evolution democracy and totalitarianism Here too are explanations of his unique terminology including centreism withinness Christogenesis Christophere noosphere the Omega Point Dr McCarty presents Teilhard's ideas in more traditional terms while still remaining faithful to the original complexity and terminology This is especially important since Teilhard never had a chance to refine his thought against the reaction and criticism of the scholarly world Dr McCarty's treatment is an excellent introduction for the person who wants to know more about Teilhard as well as being a useful and important study of this unique and influential thinker Publisher *Teilhard de Chardin* Doran MacCarty, 1976 *Teilhard de Chardin* Doran McCarty, 1991 20th-Century Theology Stanley J. McClymond, 2018-06-05 2018 Book Award Winner The Gospel Coalition Academic Theology A Choice Outstanding Academic Title for 2019 Will all evil finally turn to good or does some evil remain stubbornly opposed to God and God's goodness Will even the devil be redeemed Addressing a theological issue of perennial interest this comprehensive book in two volumes surveys the history of Christian universalism from the second to the twenty first century and offers an interpretation of how and why universalist belief arose The author explores what the church has taught about universal salvation and hell and critiques universalism from a biblical philosophical and theological standpoint He shows that the effort to extend grace to everyone undermines the principle of grace for anyone **On the Origin of Consciousness** Scott D. G.

Ventureyra, 2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration
