*Makers of Nineteenth Century Culture, 1800-1914* Justin Wintle, 1982      *Makers of Nineteenth Century Culture* Justin Wintle Esq, Justin Wintle, 2021-12-24 This volume provides a critical examination of the lives and works of the leading novelists poets dramatists artists philosophers social thinkers mathematicians and scientists of the period The subjects are assessed in the light of their cultural importance and each entry is deliberately interpretative making this work both an essential reference tool and an engaging collection of essays Figures covered include Marx Wagner Darwin Malthus Balzac Jane Austen Nietzsche Babbage Edgar Allan Poe Ruskin Schleiermacher Herbert Spencer Harriet Martineau and Oscar Wilde

*Themes in Modern European History 1830-1890* Bruce Waller, 2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent's standing was at its highest and its influence spanned the globe

**Neo-/Victorian Biographilia and James Miranda Barry** Ann Heilmann, 2018-06-27 Senior colonial officer from 1813 to 1859 Inspector General James Barry was a pioneering medical reformer who after his death in 1865 became the object of intense speculation when rumours arose about his sex This cultural history of Barry's afterlives in Victorian to contemporary neo Victorian life writing biographilia examines the textual and performative strategies of biography biofiction and biodrama of the last one and a half centuries In exploring the varied reconstructions and re imaginations of the historical personality across time the book illustrates not least with its cover image that the real James Barry does not exist any more than does the faithful biographical biofictional or biodramatic rendering of a life in a generically stable and discrete form What Barry represents and how he is represented invariably pinpoints the imaginative the speculative and the performative reflections and refractions in the looking glass of genre Just as James Miranda Barry as a subject of cultural inquiry comes into being and remains in view in the act of crossing gender so neo Victorian life writing constitutes itself through similar acts of boundary transgression Transgender thus finds its most typical expression in transgenre      *The Nihilism of Thomas Bernhard* Charles W. Martin, 2023-12-18 This study examines the nihilistic basis of Bernhard's writing and traces developments in the author's nihilistic stance throughout his career In the first period of his prose fiction 1963 1975 nihilism is reluctantly accepted by Bernhard's fictional characters as a necessary response to a world perceived as meaningless Various possible sources of transcendence are explored and rejected The autobiographical texts 1975 1982 then represent a sustained attempt by the author himself to transcend his own essentially nihilistic state The apparent success of this attempt is quickly revealed to be illusory in the prose fiction of the second period 1978 1986 and it becomes apparent that nihilism is

a no less necessary response to Austrian social reality than to the more purely personal problems which first motivated Bernhard's writing

**Managing Our Margins** Kimberly A. Reed, 2013-10-31 Many women seek to achieve greater control over their working lives by making a transition to entrepreneurship and as a result must negotiate gender norms and gender related expectations in both business and personal relationships Based on interviews with women in the New Jersey suburbs this book explores the range of uncertainties and practical dilemmas independent businesswomen face today

**The Transformation of Theology, 1830-1890** Charles D. Cashdollar, 2014-07-14 Charles Cashdollar reinterprets nineteenth century British and American Protestant thought by identifying positivism as the central intellectual issue of the era Positivism meant at first the ideas of the French thinker Auguste Comte later in the century the term indicated a more general opposition to supernatural religion Cashdollar shows that contemporary thinkers recognized positivism at each of these stages as the most fundamental of the proliferating challenges to religious belief He further reveals how the encounter with positivism altered Protestant orthodoxy in both subtle and radical ways Positivists denied that humans could know anything other than physical phenomena Declaring many orthodox beliefs archaic they proposed a new ethically based vision of service to humanity After portraying the dissemination of these positions among British and American Protestants the author explains how each of several groups reacted A few theologians rejected positivism outright but many more responded by recasting their own beliefs The implications of this story of change extend to such topics as Darwinism Biblical criticism the rise of the social sciences theological liberalism and the Social Gospel the beginnings of fundamentalism and the twentieth century debate about creationism and science Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

R. Mackintosh* David Brett, 2004-04-02 Between 1896 and 1906 Charles Rennie Mackintosh 1868 1928 produced a series of buildings and interiors in and around Glasgow of such startling invention that he immediately established himself as one of the truly great figures in early twentieth century architecture and design David Brett argues that Mackintosh s originality was grounded in a highly subjective poetics of workmanship in which the structure features interiors and furnishings of each individual building became subject to a unifying system of forms metaphors and unconscious associations The system Mackintosh evolved allowing for the formulation of an almost infinite series of ensembles After focusing on the various decorative details and interior spaces of Mackintosh s buildings the author reaches to the heart of Mackintosh s poetic system the suffused eroticism of the sleek feminine and intensely private white interiors A notable feature of this persuasive reappraisal of Mackintosh s work is the

wealth of photographs by the author showing rarely featured details of buildings interiors and furnishings *The Selected Works of Margaret Oliphant, Part III Volume 14* Valerie R Sanders, Joanne Wilkes, 2024-05-17 Margaret Oliphant 1828-97 had a prolific literary career that spanned almost fifty years. International Women in Science Catherine M.C. Haines, 2001-11-20 A comprehensive biographical guide to the scientific achievements, personal lives and struggles of women scientists from around the globe. *International Women in Science: A Bibliographical Dictionary to 1950* presents the enormous contributions of women outside North America in fields ranging from aviation to computer science to zoology. It provides fascinating profiles of nearly 400 women scientists, both renowned figures like Florence Nightingale and Marie Curie and women we should know better like Rosalind Franklin who along with James Watson and Francis Crick uncovered the structure of DNA. Students and researchers will see how the lives of these remarkable women unfolded and how they made their place in fields often stubbornly guarded by men, overcoming everything from limited education and professional opportunities to indifference, ridicule and cultural prejudice to outright hostility and discrimination. Included are a number of living scientists, many of whom provide insights into their lives and scientific times. Those contributions plus additional previously unavailable material make this a volume of unprecedented scope and richness. **F. C. Baur's Synthesis of Böhme and Hegel** Corneliu Simut, 2014-10-16 In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th-century scholar F. C. Baur. Although Baur was seen traditionally as a theologian and biblical exegete, Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations. Specifically, Baur's perspective on Christian theology was heavily influenced by Jakob Böhme's esoteric theosophy and Hegel's religious philosophy in some key issues such as creation.

Lucifer dualism and the connection between spirit and matter coupled with that between philosophy and religion     Themes in Modern European History 1890-1945 Paul Hayes,1992     *J.M. Robertson* Odin Dekkers,2018-10-26 Published in 1998 J M Robertson *Rationalist and Literary Critic* is a study of the life of one of the most erudite and prolific critics of the late nineteenth and early twentieth centuries The Scotsman John MacKinnon Robertson 1856 1933 rationalist and enemy of religion to the core published over one hundred books and thousands of articles in fields as diverse as sociology economics history anthropology biblical criticism and literary criticism This once widely known and feared author was all too quickly forgotten after his death and his work is now seldom read The aim of this book is to demonstrate that Robertson s writings and in particular his acute and powerful literary criticism much respected by T S Eliot have not lost their relevance for late twentieth century readers Moreover through the examinations of Robertson s work in its contextual framework this study provides a wide ranging perspective on the late Victorian literary scene which perhaps present day literary historians have not given the detailed attention it deserves
