shares his findings from leading language scholars teachers sociolinguists app creators and bilinguals of all stripes that he
discovered during his dozen years of research Then he topples 12 myths about Americans and languages that no longer hold
in this century Like thinking the whole world speaks English it doesn t that being monolingual is natural it isn t and that
Americans suck at language quite the opposite as he demonstrates Here and now in the 21st century America is embracing
its many ethnic and cultural heritages How natural then that we enfold the many languages that these heritages thrive on as
part of that quintessentially American pursuit of happiness If you ve never thought of bilingualism as being a patriotic act
America s Bilingual Century may persuade you otherwise Knowing a second language changes the way we perceive the world
and the way the world perceives us English is what unites us Steve says Our other languages are what define and strengthen
