Rosenberger,2019-01-31 In *Dilemmas of Adulthood* Nancy Rosenberger investigates the nature of long term resistance in a longitudinal study of more than fifty Japanese women over two decades Between 25 and 35 years of age when first interviewed in 1993 the women represent a generation straddling the stable roles of post war modernity and the risky but exciting possibilities of late modernity By exploring the challenges they pose to cultural codes Rosenberger builds a conceptual framework of long term resistance that undergirds the struggles and successes of modern Japanese women Her findings resonate with broader anthropological questions about how change happens in our global local era and suggests a useful model with which to analyze ordinary lives in the late modern world Rosenberger s analysis establishes long term resistance as a vital type of social change in late modernity where the sway of media global ideas and friends vies strongly with the influence of family school and work Women are at the nexus of these contradictions dissatisfied with post war normative roles in family work and leisure and yet in Japan as elsewhere committed to a search for self that shifts uneasily between self actualization and selfishness The women s rich narratives and conversations recount their ambivalent defiance of social norms and attempts to live diverse lives as acceptable adults In an epilogue their experiences are framed by the aftermath of the 2011 earthquake and tsunami which is already shaping the future of their long term resistance Drawing on such theorists as Ortner Ueno the Comaroffs Melucci and Bourdieu Rosenberger posits that long term resistance is a process of tense irregular but insistent change that is characteristic of our era hammered out in the in between of local and global past and future the old virtues of womanhood and the new virtues of self actualization Her book is essential for anyone wishing to understand how Japanese women have maneuvered their lives in the economic decline and pushed for individuation in the 1990s and 2000s *Adult Development, Therapy, and Culture* Gerald D. Young,2013-06-29 This volume proposes a theoretical integration of several major streams in contemporary psychological theory about adult development and therapy It adopts the perspective that there are steps in development throughout the adult period and that they are characterized by a union of the cognitive and affective the self

and the other and idea with idea in second order collective abstractions That is they are at once postformal in terms of Piaget's theory sociocultural in terms of Vygotsky's theory and postmodern with the latter perspective providing an integrating theme The affirmative multivoiced contextual relational other sensitive side of postmodernism is emphasized Levinas's philosophy of responsibility for the other is seen as congruent with this ethos The neopiagetian model of development on which the current approach is based proposes that the last stage in development concerns collective intelligence or postmodern postformal thought Kegan 1994 has attempted independently to describe adult development from the same perspective His work on the development of the postmodern mind of the adult is groundbreaking and impressive in its depth However I analyze the limitations as well as the contributions of his approach underscoring the advantages of my particular model

Encyclopedia of Human Development Neil J. Salkind, 2006 Publisher description *Beyond Reason and Tolerance* Robert J. Thompson Jr., 2014-01-10 The major challenges facing higher education are often framed in terms of preparing students for life long learning Society's 21st century needs require civic minded individuals who have the intellectual and personal capabilities to constructively engage political ethnic and religious differences work effectively and live together with many different kinds of people in a more global society In this volume Robert J Thompson aims to influence the current conversation about the purposes and practices of higher education *Beyond Reason and Tolerance* adopts a developmental science basis to inform the transformations in undergraduate educational practices that are necessary to empower students to act globally and constructively engage difference It synthesizes current scholarship regarding the nature and development of three core capacities deemed essential A personal epistemology that reflects a sophisticated understanding of knowledge beliefs and ways of thinking empathy and the capacity to understand the mental states of others and an integrated identity that includes values commitments and a sense of agency for civic and social responsibility *Beyond Reason and Tolerance* argues that to foster the development of these capabilities colleges and universities must recommit to providing a formative liberal education and adopt a developmental model of undergraduate education as a process of intellectual and personal growth involving empathy as well as reasoning values as well as knowledge and identity as well as competencies Thompson focuses on emerging adulthood as an especially dynamic time of reorganization and development of the brain that both influences and is influenced by the undergraduate experience Advances in our understanding of human development and learning are synthesized with regard to the direct implications for undergraduate education practices

The Oxford Handbook of Identity Development Kate C. McLean, Moin U. Syed, 2015 Identity is defined in many different ways in various disciplines in the social sciences and sub disciplines within psychology The developmental psychological approach to identity is characterized by a focus on developing a sense of the self that is temporally continuous and unified across the different life spaces that individuals inhabit Erikson proposed that the task of adolescence and young adulthood was to define the self by answering the question Who Am I There have been many advances in theory and research

on identity development since Erikson's writing over fifty years ago and the time has come to consolidate our knowledge and set an agenda for future research. The Oxford Handbook of Identity Development represents a turning point in the field of identity development research. Various and disparate groups of researchers are brought together to debate, extend, and apply Erikson's theory to contemporary problems and empirical issues. The result is a comprehensive and state-of-the-art examination of identity development that pushes the field in provocative new directions. Scholars of identity development, adolescent and adult development, and related fields, as well as graduate students, advanced undergraduates, and practitioners will find this to be an innovative, unique, and exciting look at identity development. *Progress in Behavioral Health*

Interventions for Children and Adolescents, An Issue of Pediatric Clinics of North America, E-Book Xiaoming Li, Sayward Harrison, 2022-08-12. In this issue of *Pediatric Clinics of North America*, guest editors Drs. Xiaoming Li and Sayward Harrison bring their considerable expertise to the topic of *Progress in Behavioral Health Interventions for Children and Adolescents*. Nearly three quarters of adult mental health disorders have their onset during childhood, where treatment becomes more difficult and has greater social, educational, and economic consequences over time. This issue provides the information and resources needed to identify and treat mental health and clinical issues in children, with the goal of improving outcomes. Contains 16 relevant, practice-oriented topics, including leveraging technology in novel interventions for autism spectrum disorder, childhood obesity prevention and treatment, parental rules, parental routines, and children's 0-12 years sleep and screen time, family-based preventions and interventions for child emotional and behavioral functioning in families facing stress/trauma, integrating behavioral health in primary care, and more. Provides in-depth clinical reviews on behavioral health interventions for children and adolescents, offering actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews. **Heart of Development, V. 2** Mark McConville, Gordon Wheeler, 2013-04-15. In these groundbreaking new collections, the reader will find an exciting, broad-ranging selection of work showing an array of applications of the Gestalt model to working with children, adolescents, and their families and worlds. From the theoretical to the hands-on, and from the clinical office or playroom to family settings, schools, institutions, and the community, these chapters take us on a rewarding tour of the vibrant, productive range of Gestalt work today, always focusing on the first two decades of life. With each new topic and setting, fresh and creative ideas and interventions are offered and described for use by practitioners of every school and method.
