The Behavior of Federal Judges Lee Epstein,William M. Landes,Richard A. Posner,2013-01-07 Federal judges are not just robots or politicians in robes yet their behavior is not well understood even among themselves Using statistical methods a political scientist an economist and a judge construct a unified theory of judicial decision making to dispel the mystery of how decisions from district courts to the Supreme Court are made *United States Courts of Appeals Reports* United States. Courts of Appeals,Samuel Appleton Blatchford,1893 How Judges Think Richard A. Posner,2010-05-01 A distinguished and experienced appellate court judge Richard A Posner offers in this new book a unique and to orthodox legal thinkers a startling perspective on how judges and justices decide cases When conventional legal materials enable judges to ascertain the true facts of a case and apply clear pre existing legal rules to them Posner argues they do so straightforwardly that is the domain of legalist reasoning However in non routine cases the conventional materials run out and judges are on their own navigating uncharted seas with equipment consisting of experience emotions and often unconscious beliefs In doing so they take on a legislative role though one that is confined by internal and external constraints such as professional ethics opinions of respected colleagues and limitations imposed by other branches of government on freewheeling judicial discretion Occasional legislators judges are motivated by political considerations in a broad and sometimes a narrow sense of that term In that open area most American judges are legal pragmatists Legal pragmatism is forward looking and policy based It focuses on the consequences of a decision in both the short and the long term rather than on its antecedent logic Legal pragmatism so understood is really just a form of ordinary practical reasoning rather than some special kind of legal reasoning Supreme Court justices are uniquely free from the constraints on ordinary judges and uniquely tempted to engage in legislative forms of adjudication More than any other court the Supreme Court is best understood as a political court
