Making Of Eu Foreign Policy The Case Of Eastern Europe:

Making of EU Foreign Policy Karen E. Smith, 1999 *The Making of EU Foreign Policy* K. Smith, 2004-01-13 The Making of EU Foreign Policy argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyzes why the EU has agreed to the policy The objective of the EU s policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement

European Foreign Policy and the Challenges of Balkan Accession Gergana Noutcheva, 2012-07-26 The Balkan countries have responded differently to the EU s conditional offer of membership This book examines the diverging compliance patterns of the Balkan accession states and asks why some of them have complied substantially some only partially and others have defied the EU The book examines the compliance of the Balkan states with the EU accession conditionality arguing that the variation in the compliance behavior of Balkan governments hinges on three main factors the legitimacy of the EU conditions as seen domestically in the accession states the costs of compliance and the EU s ability and willingness to use its superior power resources to impose compliance when faced with domestic defiance Placing important events from the most recent political history of the Balkans in a broader historical perspective the author evaluates the successes and failures of the EU s state building policies in the Balkans a geographical area of the highest priority for the EU s foreign policy and a test case for the EU s capacity and willingness for foreign policy action Based on detailed empirical data European Foreign Policy and the Challenges of Balkan Accession will be of interest to scholars and students of EU and comparative politics and those focusing on policy impact in EU integration *New Approaches to EU Foreign Policy* Maciej Wilga, Ireneusz Pawel Karolewski, 2014-06-05 EU foreign policy once existed in the form of the European Political Cooperation with only a limited political leverage and symbolic institutional underpinnings In recent years rapid changes have occurred including an expanding institutional apparatus increased responsibility and growing demand for action This book examines new approaches to the EU s foreign policy that address its rapidly changing character presenting the newest theoretical perspectives and dealing with novel empirical developments Rather than simply considering structural variations and changes in the agency of the EU it explores the new complexity in EU foreign policy The authors offer new theoretical perspectives and new empirical studies dealing among others with issues such as Power delegation to the Commission EU diplomacy Parliamentarisation and constitutionalisation Committees involvement in foreign policy process This book will be of interest to students and scholars of European politics European foreign policy and European integration *The Formulation of EU Foreign Policy* Nicola Chelotti, 2016-01-22 EU foreign and defence policy is largely formulated in the working parties and committees of the Council of the EU and the vast majority of decisions in this field are made by the national diplomats working in the around 35 groups of the CFSP CSDP Although the importance of these committees and

their participants has been increasingly recognised we still know relatively little about them Using an original database of 138 questionnaires and 37 interviews this book addresses this lack of knowledge studying what these committees do and how they negotiate and resolve issues It explores three key areas the formulation of the national position the identity of CFSP CSDP policy makers negotiation practices and outputs In doing so it provides an innovative observation point from which EU foreign policy can be analysed This book will be of key interest to scholars and students of EU foreign and defence policy external relations of the EU European integration and politics diplomacy and more broadly international relations

Turkey's European Future Nathalie Tocci, 2011-09-01 A rapidly changing nation and a key player in the Middle East Turkey has long been centrally important to both the United States and the European Union A

major partner both of the EU and Turkey the US has also been the most ardent and committed supporter of closer ties between them Yet while Turkey's relations with the US and the EU have been intimately linked they have not proceeded along two parallel planes Nathalie Tocci tells the story of this dynamic triangular relationship exploring how and why the US has shaped the course of relations among its allies An empirical study with strong policy relevance this volume draws on in depth interviews and official documents to provide a succinct overview of the issues and stakeholders Tocci argues that the Turkish situation can be viewed as a quintessential case study tackling broader questions about US foreign policy in the region as a whole

Civilian or Military Power? Helene Sjursen, 2013-09-13 This text critically examines the belief that the EU not only has an impact on the international system but also a normative civilian and civilizing power The contributors question whether this assertion fits with the empirical record or is merely based on anecdotal evidence and whether there is a theoretical basis for the expectation of a normative or civilizing power Moving the research agenda forward the book establishes criteria and assessment standards for examining the EU's international role and its putative normative dimension Such an endeavour is particularly important against the backdrop of recent developments in European security and defence The acquisition of military means or the EU's ambition to acquire such means might weaken at least the argument that the EU is a civilian power and could provoke a shift towards a policy more akin to traditional great powers This book was previously published as a special issue of the Journal of European Public Policy

European Union Enlargement Conditionality Eli Gateva, 2016-04-29 The book provides the first comprehensive comparative analysis of the development of EU enlargement conditionality across four different enlargement waves the first 2004 and the second 2007 phase of the Eastern enlargement the EU enlargement to Croatia 2013 and the ongoing enlargement round involving Turkey and the Western Balkans

The EU-Russia Strategic Partnership Hiski Haukkala, 2010-02-25 Why have the European Union and the Russian Federation encountered severe difficulties in developing their relationship Why haven't the parties lived up to the initial promise and enthusiasm of the early 1990s Beginning with the immediate aftermath of the dissolution of the Soviet Union this book

provides a practical answer to these questions whilst linking the issues to International Relations theorizing Taking into account both the role of ideas and power the book links the topic with three variants of mainstream theorizing the English School neoliberal institutionalism and constructivism In the process a multi causal framework that looks for points of convergence between different paradigms in the study of IR is developed Providing an overview history and explanation of the problems of institutionalization in EU Russia relations during the post Cold War era this book is vital reading for students and scholars of the EU and Russia European studies European security and Russian foreign policy It will also be of major interest to scholars of International Relations theory

European Union Foreign Policy Hazel Smith, 2002-03-20 As the European Union is not a nation state it is not generally perceived to have a foreign policy However this book argues that quite the reverse is true that an overemphasis on procedure and structures has disguised the fact that the EU has a clear foreign policy that can be analysed in much the same way as that of the sovereign state Conventional assessments of the EU focus on the mechanisms institutions and treaties through which policies are implemented Smith shows how this can lead to a massive underestimation of the capacities of the EU Rather than concentrating on how the policy of the EU is made Smith investigates the action that it has engaged in abroad and the nature of its diverse global interventions in relation to the United States and the industrialised North the various regions of the South and most recently its huge involvement in east and central Europe and the entire European continent Developing a pathbreaking analysis of the nature of EU foreign policy this comprehensive account shows how the EU can be very effective indeed in promoting its own domestic interests abroad

The Reuniting of Europe José I. Torreblanca, 2017-09-20 This title was first published in 2001 In 1989 central and Eastern European countries broke free from the Soviet Union and looked upon the European Community to support their return to Europe Some years later leaders of the European Community meeting in Copenhagen in June 1993 endorsed for the first time the membership aspirations of the recently democratized countries of Central and Eastern Europe This insightful text examines the negotiations debates tensions and contradictions behind the process of approximation between the two halves of Europe both within the EC itself as well as between the EC and the countries of Central and Eastern Europe The extensive consultation of unpublished internal documents and a theoretically relevant and well written analysis ensures that this book is an indispensable resource for students and researchers of EC EU relations with Central and Eastern Europe

Poland's EU Accession Sergiusz Trzeciak, 2018-01-12 This book examines the process of Poland's accession negotiations to the European Union between 1998-2003 An empirical study based on Robert Putnam's two level game model it charts the influence and role of key domestic actors and groups on the negotiations especially in three critical controversial areas areas where EU accession threatened to bring about a profound transformation to Polish life agriculture with particular emphasis on direct payments and production quotas the purchase of real estate by foreigners and the free movement of labour This book demonstrates the complex interaction between the domestic and international level of negotiations and furthermore

shows how critical this link can be to negotiation outcomes at the international level It reveals how susceptible Poland's negotiation process was to domestic pressure particularly public opinion and interest groups Drawing heavily on qualitative analysis such as press releases news wires policy documents as well as quantitative analyses such as the use of opinion polls and supported by in depth unrestricted interviews with key Polish decision makers this book examines the dynamics of policy formation in Poland and shows how this translated into the final conditions of accession

Analysing the Foreign Policy of Small States in the EU H. Larsen, 2005-08-03 Can a distinct national foreign policy still be identified for small EU member states and what accounts for the balance between national and EU foreign policy Henrik Larsen develops an analytical framework for analyzing these questions and offers solutions through an empirical examination of the foreign policy of a small EU member state in the context of EU foreign policy the case of Denmark The book looks at seven policy areas policy towards other EU member states anti terrorism development the Balkans Africa Latin America and trade On the basis of the empirical study the implications for the theoretical study of national foreign policy in an EU Context are outlined It is suggested that we need a new mixed approach to foreign policy analysis within the EU taking into account the nature of the policy area concerned and national conceptions of actorness

Ethics and Foreign Policy Karen E. Smith, Margot Light, 2001-09-13 Democratic citizenship possible MERVYN FROST

Parliamentary Diplomacy in European and Global Governance Stelios Stavridis, Davor Jancic, 2017-02-06 In Parliamentary Diplomacy in European and Global Governance 27 experts from all over the world analyse the fast expanding phenomenon of parliamentary diplomacy Through a wealth of empirical case studies the book demonstrates that parliamentarians and parliamentary assemblies have an increasingly important international role The volume begins with parliamentary diplomacy in Europe because the European Parliament is one of the strongest autonomous institutional actors in world politics The study then examines parliamentary diplomacy in relations between Europe and third countries or regions Mexico Turkey Russia the Mediterranean before turning attention to the rest of the world North and South America Asia Africa and Australia This pioneering volume confirms the worldwide nature and salience of parliamentary diplomacy in contemporary global politics
