Making A Rose After The Diaspora An Autobiography:

Making a Rose After the Diaspora Eva Ross, 2006 A few days later I was put on the train to join my parents in Vienna Although I had always enjoyed Vienna when my parents used to take me I was frightened and disheartened to see the swastikas everywhere flags on buildings in the streets and on Nazi pins worn by men and women What had happened to the cultured sophisticated Austrians They turned out to be more reactionary and fanatic than the Germans For when the Germans marched into Vienna they were received with flowers and open arms It was no invasion as they claimed later The salute Heil Hitler was on many lips My parents had rented a room in the apartment of another Jewish family It was near where my mother's youngest sister Franzl lived with her husband and her daughter Uti whom I loved dearly Yet I found no joy or peace there Our apartment was situated just below some Nazi offices and I was frightened to death every time I heard the booted steps stomping up and down the stairs I woke up crying out every night

Countdown to Statehood Hillel Frisch, 2012-02-01 Countdown to Statehood based on Arabic English and Hebrew language sources analyzes the form that the Palestinian state is likely to take The book looks at past institution building patterns in the West Bank and Gaza the relationship between the PLO and the local Palestinians and the nature of the conflict with Israel from 1967 through the first year of the Palestinian Authority under Arafat s leadership A major reference point in this analysis is the Zionist experience of state building in Israel s own pre independence era Not only did the Zionist experience serve as a model of a successful protagonist that Palestinians wished to emulate but both also began as diaspora based These similarities and even more so the dissimilarities between these two struggles for national determination allow the reader to assess the potential likenesses and disparities of the future Palestinian state compared to its Israeli counterpart The concluding chapter analyzes the findings in the broader context of third world state building by arguing contrary to the common wisdom that war makes the state that more peaceful routes to statehood lead to better states in the post independence era

Ember,Ian Skoggard,2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world s cultures and provides an overview of important topics in the world s diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies Diasporas, Development and Governance Abel Chikanda,Jonathan Crush,Margaret Walton-Roberts,2015-12-12 Drawing on examples from the global North and South this book examines the relationship between migration development and diaspora engagement from a governance perspective It explores the ways that governments interact with their own extra national diasporic populations in order to boost economic development build global trading and investment networks and increase their political leverage overseas Inside readers will find fifteen essays which highlight such issues as diaspora engagement by governments at different scales the divisions that often exist within diaspora groups diaspora transnationalism and return migration diaspora knowledge networks and higher education capacity building and the neglected issues of South South migration and diasporas as well as North South migration and diasporas The book presents empirical case studies from various geographical contexts including Australia Canada the Philippines India the Caribbean Zimbabwe and the United States Overall this book presents fresh insights into how and why migrant sending countries are increasingly turning to the diaspora option to attempt to benefit from the transfer of knowledge skills

and financial and social capital It provides policy makers researchers and students with new perspectives on governance and the means by which states are attempting to utilize their diaspora resources Diasporas: Revisiting and Discovering,2020-05-18 The present book brings together a collection of key studies from many disciplines all focusing around the diaspora issue The readers will engage on a journey that spans continents populations and time frames **Diasporas and Homeland Conflicts** Bahar Baser,2015-03-28 As violent conflicts become increasingly intra state rather than inter state international migration has rendered them increasingly transnational as protagonists from each side find themselves in new countries of residence In spite of leaving their homeland the grievances and grudges that existed between them are not forgotten and can be passed to the next generation This book explores the extension of homeland conflicts into transnational space amongst diaspora groups with particular attention to the interactions between second generation migrants Comparative in approach *Diasporas and Homeland Conflicts* focuses on the tensions that exist between Kurdish and Turkish populations in Sweden and Germany examining the effects of hostland policies and politics on the construction shaping or elimination of homeland conflicts Drawing on extensive interview material with members of diasporic communities this book sheds fresh light on the influences exercised on conflict dynamics by state policies on migrant incorporation and multiculturalism as well as structures of migrant organizations As such it will be of interest to scholars of sociology political science and international studies with interests in migration and diaspora integration and transnational conflict
