Making Of The Pre By Francis Ponge:

The Making of the Pre by Francis Ponge Francis Ponge, 1982-10-01 La Fabrique Du Pré Francis Ponge, 1979 The making of the Pr is the culmination of Francis Ponge's loving struggle with language To say that this work is just a text with illustrations or simply a notebook of preliminary sketches leading to a final poem or to call it merely a self-demonstrating development of a thought process a hymn of praise or an essay on the way that language represents objects and emotions would be insufficient Introduction *Francis Ponge and the Nature of Things* Patrick Alan Meadows, 1997 One of the most significant French poets of the twentieth century Francis Ponge is treated in this study The fundamental role of atomistic philosophy in Ponge's writings especially as expressed in Lucretius's *De Rerum Natura* is discussed Meadows is the first author to examine Ponge's writings in a book-length study **The Yale Anthology of Twentieth-century French Poetry** Mary Ann Caws, 2004-01-01 An influential social thinker the late Richard Harvey Brown was professor of sociology at the University of Maryland and the author of *Toward a Democratic Science Scientific Narration and Civic Communication* published by Yale University Press Merleau-Ponty's Poetic of the World Galen A. Johnson, Mauro Carbone, Emmanuel de Saint Aubert, 2020-08-04 Merleau-Ponty has long been known as one of the most important philosophers of aesthetics yet most discussions of his aesthetics focus on visual art This book corrects that balance by turning to Merleau-Ponty's extensive engagement with literature From Proust Merleau-Ponty developed his conception of sensible ideas from Claudel his conjoining of birth and knowledge as co-naisance from Valéry came implex or the animal of words and the chiasma of two destinies Literature also provokes the questions of expression metaphor and truth and the meaning of a Merleau-Pontian poetics The poetic of Merleau-Ponty is the book argues a poetic of the flesh a poetic of mystery and a poetic of the visible in its relation to the invisible Ultimately theoretical figures or figuratives that appear at the threshold between philosophy and literature enable the possibility of a new ontology What is at stake is the very meaning of philosophy itself and its mode of expression *Philosophy and Poetry* Ranjan Ghosh, 2019-06-04 Ever since Plato's Socrates exiled the poets from the ideal city in *The Republic* Western thought has insisted on a strict demarcation between philosophy and poetry Yet might their long-standing quarrel hide deeper affinities This book explores the distinctive ways in which twentieth-century and contemporary continental thinkers have engaged with poetry and its contribution to philosophical meaning-making challenging us to rethink how philosophy has been changed through its encounters with poetry In wide-ranging reflections on thinkers such as Heidegger Gadamer Arendt Lacan Merleau-Ponty Deleuze Irigaray Badiou Kristeva and Agamben among others distinguished contributors consider how different philosophers encountered the force and intensity of poetry and the negotiations that took place as they sought resolutions of the quarrel Instead of a clash between competing worldviews they figured the relationship between philosophy and poetry as one of productive mutuality leading toward new modes of thinking and understanding Spanning a range of issues with nuance and rigor this compelling and comprehensive book opens new

possibilities for philosophical poetry and the poetics of philosophy

European Literature from Romanticism to Postmodernism

Martin Travers,2006-06-15 European Literature from Romanticism to Postmodernism is an anthology of key theoretical writings by the major representatives of the schools and movements of recent European literature Each chapter is devoted to one particular school of movement from within the broad body of literature from romanticism realism and modernism though to the literature of political engagement of the 1920s and 1930s and the more recent initiative of postmodernism These texts are approached both on their own terms as individual formulations of the goals and procedures literary aesthetic and

political that characterized the work of these writers and as key documents of the literary school or movement to which these writers belonged

Circling the Canon, Volume I Marjorie Perloff, 2019-11-15 One of our most important contemporary critics Marjorie Perloff has been a widely published and influential reviewer especially of poetry and poetics for over fifty years *Circling the Canon Volume I* covers roughly the first half of Perloff's career beginning with her first ever review on Anthony Hecht's *The Hard Hours* The reviews in this volume culled from a wide range of scholarly journals literary reviews and national magazines trace the evolution of poetry in the mid to late twentieth century as well as the evolution of Perloff as a critic Many of the authors whose works are reviewed in this volume are major figures such as W B Yeats Ezra Pound Sylvia Plath and Frank O'Hara Others including Mona Van Duyn and Richard Hugo were widely praised in their day but are now all but forgotten Still others David Antin Edward Dorn or the Language poets exemplify an avant garde that was to come into its own

Radium of the Word Craig Dworkin, 2020-12-09 With fresh insight and contemporary relevance *Radium of the Word* argues that a study of the form of language yields meanings otherwise inaccessible through ordinary reading strategies Attending to the forms of words rather than to their denotations Craig Dworkin traces hidden networks across the surface of texts examining how typography and even individual letters and marks of punctuation can reveal patterns that are significant without being symbolic fully meaningful without communicating any preordained message *Radium of the Word* takes its title from Mina Loy's poem for Gertrude Stein which hails her as the Madame Curie of the laboratory of vocabulary In this spirit Dworkin considers prose as a dynamic literary form characterized by experimentation Dworkin draws on examples from writers as diverse as Lyn Hejinian William Faulkner and Joseph Roth He takes up the status of the proper name in Modernism with examples from Stein Loy and Guillaume Apollinaire and he offers in depth analyses of individual authors from the counter canon of the avant garde including P Inman Russell Atkins N H Pritchard and Andy Warhol The result is an inspiring intervention in contemporary poetics

The Storm of Creativity Kyna Leski, 2020-08-11 The stages of the creative process from unlearning to beginning again seen through examples from the practice of artists architects poets and others Although each instance of creativity is singular and specific Kyna Leski tells us the creative process is universal Artists architects poets inventors scientists and others all navigate the same stages of the process in order to discover something that does not yet exist All of us must work our way through the empty page the blank screen writer's block confusion chaos and doubt In this book Leski draws from her observations and experiences as a teacher student maker writer and architect to describe the workings of the creative process Leski sees the creative process as being like a storm it slowly begins to gather and take form until it overtakes us if we are willing to let it It is dynamic continually in motion it starts stops rages and abates ebbs and flows In illustrations that accompany each chapter she maps the arc of the creative process by tracing the path of water droplets traveling the stages of a storm Leski describes unlearning ridding ourselves of preconceptions only when we realize what we don't know can we pose the problem that we need to solve We gather evidence with notebook

jottings research the collection of objects propelling the process We perceive and conceive we look ahead without knowing where we are going we make connections We pause retreat and stop only to start again To illustrate these stages of the process Leski draws on examples of creative practice that range from Paul Klee to Steve Jobs from the discovery of continental drift to the design of Antoni Gaudí's Sagrada Família Creativity Leski tells us is a path with no beginning or end it is ongoing This revelatory view of the creative process will be an essential guide for anyone engaged in creative discovery
