Making Of The Roman Catholic Church In Ireland 1850 1860:

The Making of the Roman Catholic Church in Ireland, 1850-1860 Emmet J. Larkin, 1980 *The Irish Question* Lawrence J. McCaffrey, 2021-05-11 From 1800 to 1922 the Irish Question was the most emotional and divisive issue in British politics. It pitted Westminster politicians, anti-Catholic British public opinion, and Irish Protestant and Presbyterian champions of the Union against the determination of Ireland's large Catholic majority to obtain civil rights, economic justice, and cultural and political independence. In this completely revised and updated edition of *The Irish Question*, Lawrence J. McCaffrey extends his classic analysis of Irish nationalism to the present day. He makes clear the tortured history of British-Irish relations and offers insight into the difficulties now facing those who hope to create a permanent peace in Northern Ireland.

Irish women and the creation of modern Catholicism, 1850-1950 Cara Delay, 2019-03-26 This is the first book-length study to investigate the place of lay Catholic women in modern Irish history. It analyses the intersections of gender, class, and religion by exploring the roles that middle-class, working-class, and rural poor women played in the evolution of Irish Catholicism and thus the creation of modern Irish identities. The book demonstrates that in an age of Church growth and renewal stretching from the aftermath of the Great Famine through the Free State years, lay women were essential to all aspects of Catholic devotional life, including both home-based religion and public rituals. It also reveals that women, by rejecting, negotiating, and reworking Church dictates, complicated Church and clerical authority. Irish women and the creation of modern Catholicism re-evaluates the relationship between the institutional Church, the clergy, and women, positioning lay Catholic women as central actors in the making of modern Ireland.

The History of Christianity in Britain and Ireland Gerald Bray, 2021-06-17 The history of Britain and Ireland is incomprehensible without an understanding of the Christian faith that has shaped it. Introduced when the nations of these islands were still in their infancy, Christianity has provided the framework for their development from the beginning. Gerald Bray's comprehensive overview demonstrates the remarkable creativity and resilience of Christianity in Britain and Ireland. Through the ages, it has adapted to the challenges of presenting the gospel of Christ to different generations in a variety of circumstances. As a result, it is at once a recognizable offshoot of the universal church and a world of its own. It has also profoundly affected the notable spread of Christianity worldwide in recent times. Although historians have done much to explain the details of how the church has evolved separately in England, Ireland, Scotland, and Wales, a synthesis of the whole has rarely been attempted. Yet the story of one nation cannot be understood properly without involving the others, so Gerald Bray sets individual narratives in an overarching framework. Accessible to a general readership, *The History of Christianity in Britain and Ireland* draws on current scholarship to serve as a reference work for students of both history and theology.

Kinzer,Ann Provost Robson,John Mercel Robson,John M. Robson,1992-01-01 This detailed study places the political and personal beliefs and behaviour of Britain s leading philosopher in the context of the crucial changes resulting from the growing democratization of society and culture in Britain The Path of Mercy Mary C. Sullivan,2012-02-07 Mary C Sullivan R S M is Professor Emerita of Language and Literature and Dean Emerita of the College of Liberal Arts at the Rochester Institute of Technology She is the author of numerous works including *The Correspondence of Catherine McAuley 1818 1841* CUA Press and *Catherine McAuley and the Tradition of Mercy* **Paul Cullen, John Henry Newman, and the Catholic University of Ireland, 1845-1865** Colin Barr,2003 *Paul Cardinal Cullen and the Shaping of Modern Irish Catholicism* Desmond Bowen,2006-01-01 Paul Cullen 1803 78 was the outstanding figure in Irish history between the death of Daniel O Connell and the rise of Charles Stewart Parnell Yet this powerful prelate remains an enigmatic figure This new study of his career sets out to reveal the real nature of his achievements in putting his stamp so indelibly on the Irish Catholic Church After several years spent in Rome at a time when the papal states were under constant

attack Cullen was sent back to Ireland as Archbishop of Armagh and subsequently of Dublin. He had been charged with reorganizing the Catholic Church in his native country, a task which brought him into conflict with the authorities, many of his fellow bishops, and frequently nationalist opinion. The first Irishman to be made a cardinal, he played a leading part in securing the declaration of papal infallibility from the First Vatican Council 1870. Cardinal Cullen has not generally been well treated by historians. A brilliant scholar whose intelligence was never underestimated by contemporaries, he has been dismissed as an industrious mediocrity. A tough-minded indefatigable political tactician, he has nevertheless been described as a world-denying spiritual leader. Cullen was the most devoted of papal servants, yet he was accused of preferring the principles of Irish nationalism to the opinions of his friend Pius IX. Generations of Irish nationalist historians, however, have taken a different view, seeing the leading Irish churchman of the nineteenth century as a tool of the British government. In *Paul Cardinal Cullen and the Shaping of Modern Irish Catholicism*, Desmond Bowen shows the true purpose of Cullen's mission. An Ultramontanist of the most uncompromising type, a Roman of the Romans, neither the aspirations of the Irish nationalists nor the concerns of British governments were of primary importance to him. The mind and accomplishments of this most reserved and complex of men can be understood only in his total dedication to the mission of the papacy, as he interpreted it during a time of crisis for the Catholic Church throughout Europe.

Miracles and Sacrilege William Bruce Johnson, 2008-01-05 *Miracles and Sacrilege* is the story of the epochal conflict between censorship and freedom in film, recounted through an in-depth analysis of the U.S. Supreme Court's decision striking down a government ban on Roberto Rossellini's film *The Miracle* 1950. In this extraordinary case, the Court ultimately chose to abandon its own longstanding determination that film comprised a mere business, unworthy of free speech rights, declaring for the first time that the First Amendment barred government from banning any film as sacrilegious. Using legal briefs, affidavits, and other court records, as well as letters, memoranda, and other archival materials, to elucidate what was at issue in the case, William Bruce Johnson also analyzes the social, cultural, and religious elements that form the background of this complex and hard-fought controversy, focusing particularly on the fundamental role played by the Catholic Church in the history of film censorship. Tracing the development of the Church in the United States, Johnson discusses the reasons it found *The Miracle* sacrilegious and how it attained the power to persuade civil authorities to ban it. The Court's decision was not only a milestone in the law of church-state relations, but it paved the way for a succession of later decisions which gradually established a firm legal basis for freedom of expression in the arts.

[Queen Victoria](#) Michael Ledger-Lomas, 2021-04-08 This biography evokes the pervasive importance of religion to Queen Victoria's life, but also that life's centrality to the religion of Victorians around the globe. The first comprehensive exploration of Victoria's religiosity, it shows how moments in her life, from her accession to her marriage and her successive bereavements, enlarged how she defined and lived her faith. It portrays a woman who had simple convictions but a complex identity that suited her multinational Kingdom: a determined Anglican who preferred Presbyterian

Scotland an ardent Protestant who revered her husband's Lutheran homeland but became sympathetic towards Roman Catholicism and Islam a moralizing believer in the religion of the home who scorned Sabbatarianism Drawing on a systematic reading of her journals and a rich selection of manuscripts from British and German archives Michael Ledger Lomas sheds new light not just on Victoria's private beliefs but also on her activity as a monarch who wielded her powers energetically in questions of church and state Unlike a conventional biography this book interweaves its account of Victoria's life with a panoramic survey of what religious communities made of it It shows how different churches and world religions expressed an emotional identification with their Queen and Empress turning her into an embodiment of their different and often rival conceptions of what her Empire ought to be The result is a fresh vision of a familiar life which also explains why monarchy and religion remained close allies in the nineteenth century British world
