Covered Wagon Women, Volume 11 Kenneth L. Holmes, David Duniway, Katherine Morrissey, 1995-01-01 The stories seem simple they left they traveled they settled yet the restless westering impulse of Americans created one of the most enduring figures in our frontier pantheon the hardy pioneer persevering against all odds Undeterred by storms ruthless bandits towering mountains and raging epidemics the women in these volumes suggest why the pioneer represented the highest ideals and aspirations of a young nation In this concluding volume of the Covered Wagon Women series we see the final animal powered overland migrations that were even then yielding to railroad travel and in a few short years to the automobile The diaries and letters resonate with the vigor and spirit that made possible the settling and community building of the American West

Kentucky Countryside in Transition Stephanie Bower, 2024-01-12 Kentucky Countryside in Transition charts the rise of the American middle class at the turn of the twentieth century by examining the migration from the Kentucky countryside to the city and subsequently the suburbs of Louisville The formation of the middle class in Louisville was fostered by two factors a boom in white collar employment and the electric streetcar an innovation that fundamentally changed the urban landscape Ultimately a narrative of industrialization and modernity this study focuses on a group of forty two families who lived at the end of the Broadway Trolley line in an area that came to be known as the Cherokee Triangle This suburban neighborhood was dominated by white collar commuters who were driven to Louisville by a desire to get ahead but continued to embrace a nostalgia for country life In this meticulous three generation study Stephanie Bower follows this group of families as they make the transition from rural farmers and cultivators to city laborers and white collar workers By mining census records city directories and county records Bower carefully reconstructs the biographical details of residents in an effort to paint a picture of life in this streetcar suburb during this important period of transformation Regional studies of the middle class during this pivotal era are often overlooked in contemporary scholarship Consequently this analysis will be of interest to those researching Louisville middle class formation and suburbanization as well as to local genealogists tracing their family histories Stephanie Bower is professor emeritus of history at the University of Indiana Southeast She is the author of *Famism The Impact of Demographic Factors on Family Structure* and her articles have appeared in *Hispanic American History Review* *The Americas* *LOCUS* and *Historical Methods*
