Panchayati Raj & Municipal Administration in Jammu & Kashmir Dr. M. Shafi Bhat, 2018-04-11

In the modern world democracy has come to stay and it has been accepted that democratic form of government is the best instrument of governing a society There are variations in the forms of democracy but it is an acknowledged fact that there should be maximum involvement of masses in the decision making process While at the provincial and national level elections are held at regular intervals to know the views of the people about the policies Act 2000 to replace the existing Municipal Act of 1951 and the Jammu and Kashmir Municipal Corporation Act 2000 The primary objective of these two legislations is to reorganize the municipal set up so as to make the urban local bodies dynamic organs of power for better management of self governance of urban areas Specific stipulations aimed at strengthening the financial domain of the restructured local bodies have been made in the two enactments so as to make local bodies vibrant and self sustaining for better management of civic affairs Following these two enactments and in order to restore their representative character elections to the local bodies Notified Area Committee now renamed as Municipal Committees Town Area Committees now called as Municipal Councils and Municipalities of Srinagar and Jammu now upgraded to the status of so many corporations were held after a gap of twenty six years Democratization of civic bodies was a historic event in the history of municipal government in the state of Jammu and Kashmir and Kashmir This has given a fillip to the decision making process Besides it also makes the administration in the state directly responsible to the common man The councilors representing different wards are in a best position to identify and address people's problems Municipal government in Jammu and Kashmir covers three distinct types of urban local authorities viz The Municipal Corporation for the cities of Jammu and Srinagar The Municipal Council for

medium town and the Municipal Committee for a small town There are seventy one urban local bodies in the state of Jammu and Kashmir which consists of two Municipal Corporations Six Municipal Councils and Sixty Three Municipal Committees Local self government in the form of Municipalities and District Councils have been working since long in India In this book an in depth attempt has been made to trace the origin and functioning of local self governments in Jammu Kashmir I am thankful of publishing house Book Bazooka Publication for guidance and support in conceptualizing this book I am also grateful to entire team for book bazooka for their tireless and painstaking effort of shaping this book in its present form through their minute editing Dr M Shafi Bhat

Developmental Local Government Jaap De Visser, 2005 This book concerns the role of the state in achieving development In many developing countries conventional wisdom concluded that development is best achieved through a centralised development strategy The failure of this centralised development strategy has brought about the emergence of decentralisation to local government as one of the means to turn the tide of underdevelopment This book presents decentralisation not only as a manifestation of good governance but also as an indispensable tool towards development The central question however is the following how should the transitional state convert this into constitutional and legal arrangements The author proposes a model for capturing the developmental role of local government in institutional arrangements The new design for local government put forward in South Africas 1997 Constitution is based on the notion that local government should be the epicentre of development This has prompted the author to use this South African concept as well as the first experiences with the implementation of the new local government dispensation as a case study The importance of the book thus lies in the fact that it produces an institutional model for developmental local government that is not only based on development and decentralisation theories but is also

tested in practice It is hoped that those with an interest in the role of the state in development will find the arguments and conclusions useful The book also provides a comprehensive overview of the South African design for local government which is of interest to lawyers policy makers and other parties involved in the implementation of the South African decentralisation strategy Jaap de Visser teaches public law at the Law Faculty of Utrecht University in the Netherlands Until the end of 2002 he worked as a researcher for the Community Law Centre University of the Western Cape specialising in local government law
