Oakley, 2019-03-15 In the late eighties and early nineties driven by the post Cold War environment and lessons learned during military operations United States policy makers made intelligence support to the military the Intelligence Community's top priority In response to this demand the CIA and DoD instituted policy and organizational changes that altered their relationship with one another While debates over the future of the Intelligence Community were occurring on Capitol Hill the CIA and DoD were expanding their

relationship in peacekeeping and nation building operations in Somalia and the Balkans By the late 1990s some policy makers and national security professionals became concerned that intelligence support to military operations had gone too far In Subordinating Intelligence The DoD CIA Post Cold War Relationship David P Oakley reveals that despite these concerns no major changes to national intelligence or its priorities were implemented These concerns were forgotten after 9 11 as the United States fought two wars and policy makers increasingly focused on tactical and operational actions As policy makers became fixated with terrorism and the United States fought in Iraq and Afghanistan the CIA directed a significant amount of its resources toward global counterterrorism efforts and in support of military operations **American**

Exceptionalism Hilde Eliassen Restad,2014-12-17 How does American exceptionalism shape American foreign policy Conventional wisdom states that American exceptionalism comes in two variations the exemplary version and the missionary version Being exceptional experts in U S foreign policy argue means that you either withdraw from the world like an isolated but inspiring city upon a hill or that you are called upon to actively lead the rest of the world to a better future In her book Hilde Eliassen Restad challenges this assumption arguing that U S history has displayed a remarkably constant foreign policy tradition which she labels unilateral internationalism The United States Restad argues has not vacillated between an exemplary and a missionary identity Instead the United States developed an exceptionalist identity that while idealizing the United States as an exemplary city upon a hill more often than not errs on the side of the missionary crusade in its foreign policy Utilizing the latest historiography in the study of U S foreign relations the book updates political science scholarship and sheds new light on the role American exceptionalism has played and continues to play in shaping America s role in the world This work will be of great interest to students and scholars of US foreign policy security studies and American politics

While America Sleeps Donald Kagan,Frederick Kagan,2014-09-30 In While England Slept Winston Churchill revealed in 1938 how the inadequacy of Britain s military forces to cope with worldwide responsibilities in a peaceful but tense era crippled its ability to deter or even adequately prepare for World War II In While America Sleeps historians Donald and Frederick Kagan retrace Britain s international and defense policies during the years after World War I leading up to World War II showing in persuasive detail how self delusion and an unwillingness to face the inescapable responsibilities on which their security and the peace of the world depended cost the British dearly The Kagans then turn their attention to America and argue that our nation finds itself in a position similar to that of Britain in the 1920s For all its emergency interventions the U S has not yet accepted its unique responsibility to take the lead in preserving the peace Years of military cutbacks the peace dividend following the buildup and triumph over Communism of the Reagan years have weakened our armed forces and left us with too few armed forces to cover too many possible threats This has caused us to bank everything on high tech smart weapons some of which have not yet been invented and others that we are not acquiring or deploying as opposed to the long term commitment of money fighting men and women and planning that the deterrence of a major war would require

This failure to shape a policy and to commit the resources needed to maintain peace has cost valuable time in shaping a peaceful world and has placed America's long term security in danger. The policies of the Bush and Clinton administrations have left us in a position where we cannot avoid war and keep the peace in areas vital to our security. Neither have the post Cold War policies sent clear signals to would be aggressors that the U S can and will resist them. Tensions in the Middle East, instability in eastern Europe and the former Soviet Union, the nuclear confrontation between India and Pakistan, the development of nuclear weapons and missiles by North Korea and the menacing threats and actions of China with its immense population, resentful sense of grievance and years of military buildup all hint that the current peaceful era will not last forever. Can we make it last as long as possible? Are we prepared to face its collapse? While America Sleeps is a sobering, fascinating work of history that poses a thoughtful challenge to policy makers and will interest military buffs as well as readers interested in history and international relations. The United States, NATO, and a New Multilateral Relationship

Frank R. Douglas, 2007-11-30. Formed in the aftermath of WWII and in the face of the emerging threat posed by the Soviet Union, the transformation that has taken place in recent years within NATO has been neither natural nor easy for the multinational organization or the United States. When the Soviet Union ceased to exist, it seemed NATO would disappear too. The rationale for a large American military deployment in Europe, described by President Eisenhower as a temporary move, no longer could be supported. This work documents the transition of the United States relationship with NATO from a focus on the defense of Western Europe to an inclusive military and political organization concerned with the security of all of Europe, with the real potential for employment of its military power beyond the European continent. Despite budgeting and economic concerns raised by key members of the U S Congress, President George H W Bush supported the status quo and was caught completely off guard when the Berlin Wall fell. He and Defense Secretary Dick Cheney had not fully understood the changed strategic environment in Europe, but the U S Congress did and offered many suggestions. NATO was saved. President Bill Clinton continued to promote the validity of NATO, expanded NATO eastwards, reduced the U S troop level in Europe to 100 000 and gave NATO a mission beyond warfare with the peacekeeping task in Bosnia. A new Atlantic relationship had been forged for the post Cold War period. **Weapons Proliferation in the 1990s**

Brad Roberts, 1995. The proliferation of weapons of mass destruction has emerged as a major topic of international security in the post Cold War world. This compendium of articles published in The Washington Quarterly between 1991 and 1995 describes the changing nature of the problem, discusses new trends in nonproliferation and counterproliferation policy, identifies new arms control challenges at the regional and global levels and concludes by addressing the global politics of proliferation. **Energy and US Foreign Policy**

Ahmed Mahdi, 2012-01-30. The quest for oil can be seen as a defining principle of global US foreign policy, an imperative which has shaped and redefined the practice of American diplomacy, especially in the wake of 9 11 which raised questions about the stability of global oil resources. In Energy and US Foreign Policy, Ahmed Mahdi relates the military

expansion of the world's biggest superpower to its quest to gain guaranteed and secure access to the world's most important commodity. Examining the foreign policy of George Bush Sr, Bill Clinton and George W Bush culminating in the unprecedented military campaigns of the latter, Mahdi demonstrates how and why oil has played a central role in US relations with the wider world. By dissecting the failures of the US to secure its own economic and energy interests and by demonstrating the devastating impact this has had on the rest of the world, especially in the Middle East, Mahdi offers vital analysis for researchers and students of International Relations, Diplomacy, Security and Energy Studies.

The Indispensable Force Kathryn Roe Coker, 2013. The history of how the operational Army Reserve concept developed over the twenty years from 1990 through 2010 is a story of revolutionary change for the citizen soldier. In the past, the part-time citizen army was by national policy and doctrine not as prepared as the professional Army for war. During the twentieth century, militia or reserve soldiers required months, sometimes a year, of pre-deployment training before being committed to the battlefield. The new operational concept for the twenty-first century arose to solve a problem for the Army's global peacekeeping mission: How could the Army accomplish this task during times of relative peace with reduced budgets and less full-time manpower? Congress answered the challenge by more effectively utilizing the Army Reserve and new technologies. Army Reserve units were maintained at comparable readiness levels and standards with active Army units. The Army Reserve and the active Army now deploy together and function as one team on the modern battlefield. Using the Gulf War of 1990-1991 as the catalyst for change, this volume tells the story of the transformation of the Army Reserve from an organization held in strategic reserve to an operational expeditionary reserve force.

Canadian Defence Industry in the New Global Environment Alistair D. Edgar, David G. Haglund, 1995. The defence industry in Canada is facing serious challenges. Declining defence expenditures, protectionism in Canada's principal markets, political resistance and escalating costs of weapons technology all threaten it. *The Canadian Defence Industry in the New Global Environment* is a thorough examination and assessment of the problems and prospects of the industry given the recent dramatic changes that have transformed the international security environment.
