Nuevas Ideas Republicanas Autogobierno Y Libertad:

Nuevas ideas republicanas Félix Ovejero, Roberto Gargarella, José Luis Martí, 2004 Este libro recoge textos de Michael Sandel, Quentin Skinner, Philip Pettit, Cass R. Sunstein, Jürgen Habermas, Will Kymlicka, Alan Patten y Anne Phillips. Quiz la definición más conocida de democracia sea la que Lincoln contribuyó a popularizar: el gobierno del pueblo por el pueblo y para el pueblo. Sin embargo, esa idea apenas se corresponde con nuestra experiencia. El periódico acto de votación tiene muy poco que ver con cualquier forma de autogobierno colectivo y las decisiones básicas sobre la organización de la vida compartida están lejos de quedar bajo el control de la ciudadanía. En estas circunstancias, no es difícil entender la creciente apatía política de los ciudadanos, quienes perciben que su voz no cuenta y que las decisiones importantes las toman poderes alejados de todo escrutinio político directo o indirecto. Contra estas tendencias han surgido diversas reacciones bajo nuevas formas de intervención política: nuevos movimientos sociales, antiglobalizadores, etc. que no se ajustan a los marcos institucionales heredados. Con sus acciones, incluso con sus torpezas, muestran por una parte una voluntad de no dejar en manos de políticos profesionales la gestión de los problemas y por otra la presencia de importantes y valiosas energías cívicas. En el pensamiento político, estas disposiciones se corresponden con dos conceptos clásicos: autogobierno y virtud, y con una herencia a la que tales principios proporcionan identidad: el republicanismo. Una larga tradición que se ha revitalizado en los últimos años hasta constituir en el presente la filosofía política que con más firmeza y solvencia intelectual se opone al moderno liberalismo conservador. En este libro se reúnen por primera vez en cualquier lengua algunos de los textos fundamentales del nuevo pensamiento republicano en su crítica al liberalismo. Los artículos seleccionados abordan los principales puntos del creciente debate en la teoría política actual: un debate en el que nos jugamos algunos de los problemas centrales de la supervivencia de nuestras sociedades democráticas y de nuestras libertades más básicas.

Podemos and the New Political Cycle Óscar García Agustín, Marco Briziarelli, 2017-11-17 This edited volume explores the context in which the Spanish party Podemos operates as both an agent and product of political cycles. It provides an account of the party's genealogy, ideological environment and relation to other political initiatives in Latin America and Western Europe. The contributors address the multiple dynamics generated by Podemos as a new party developed out of the economic crisis, the structural crisis concerning social democracy and the incarnation of the welfare state project and more generally out of the Left. It will appeal to upper level students and scholars interested in Spanish politics, history, culture and sociology.

The human rights challenge: current controversial issues Ramón Luis Soriano Díaz, Sergio Marín Conejo, 2021-06-24 El reto de los derechos humanos. Cuestiones actuales controvertidas. En efecto, se trata de cuestiones de rabiosa actualidad que además suscitan grandes controversias no solo entre los expertos sino en la opinión pública debido a su trascendencia social. Sociology of Discourse Óscar García Agustín,2015-09-15 Sociology of Discourse takes the perspective that collective actors like social movements are capable of creating social change from below by creating new institutions through alternative discourses Institutionalization becomes a process of moving away from existing institutions towards creating new ones While discourses entail openness and enable the questioning of what is instituted institutions offer continuity and stability to social mobilizations This dual movement of openness and stabilization explains how social struggles ensure their continuity without completely assuming the logic of the dominant order The book proposes an analytical model of social change which is unfolded through three intertwined areas discourse communication and institution Collective experiences of social change from the anti globalization movement to Occupy illustrate the main theoretical points and concepts Through the example of the Platform for People Affected by Mortgages the book concludes by analyzing how social change from below is possible

Politics in the Times of Indignation Daniel Innerarity,2019-02-21 Politics in the Times of Indignation provides a critical look at Western liberal democracies in crisis to provide us with the theoretical tools to make sense of the political disorientation of our times Indispensable for understanding the present state of democratic societies this book is a lens through which we can study numerous contemporary developments He examines the popular indignation that has accompanied the crisis of governmental legitimacy which is aggravated by the economic crisis in various countries and demonstrated by groups such as the Occupy Wall Street Movement in the US Podemos in Spain or La France Insoumise in France At the same time Innerarity endeavors to offer a universal rather than a merely circumstantial interpretation of the transformations that are still ongoing in our political systems as well as of those that need to be put in place in order to satisfy the expectations and rights of democratic citizenship Politics in the Times of Indignation represents a guiding thread through political developments as well as a conceptual tool box for understanding the meaning of the current crisis of representation the fate of political parties the relation between ethics and politics and how politics can become an intelligent enterprise

Ciudadanía digital José Manuel Robles Morales,2011-07-22 Internet se ha convertido en un espacio para la participaci n pol tica el estrechamiento de v nculos personales y la defensa de derechos

sociales Se han transformado en un ámbito para hacer política En este trabajo se introduce el concepto de ciudadano digital reflexionando sobre los riesgos desigualitarios asociados a la evolución de los usos políticos de Internet La república cooperativista Alexander Gourevitch, 2024-04-15 Este libro reconstruye cómo un grupo de reformistas laborales del siglo XIX se apropió y radicalizó la tradición republicana Estos republicanos obreros derivaron su definición de libertad de una larga tradición de teoría política que se remonta a las repúblicas clásicas En esta tradición ser libre es ser independiente de la voluntad de los demás ser dependiente es ser esclavo Tomando prestadas estas ideas los laboristas republicanos argumentaban que los trabajadores asalariados no eran libres debido a su abyecta dependencia de sus empleadores Los trabajadores de una cooperativa en cambio se consideraban libres porque controlaban su trabajo de forma igualitaria y colectiva Aunque estos republicanos del trabajo son relativamente desconocidos este libro detalla su perspectiva nica contemporánea y valiosa tanto de la historia estadounidense como de la organización de la economía

La república por venir José Antonio Pérez Tapias, 2025-04-01 Este ensayo propone un republicanismo que haga frente al populismo y promueva una libertad como no dominación en un Estado plurinacional La democracia se halla en apuros Acosada desde fuera por poderes económicos y desarrollos tecnológicos con incidencia global y afectada desde dentro por prácticas que erosionan sus instituciones así como por corrientes políticas especialmente una ultraderecha que gana adeptos que propugnan una antipolítica que la contradice urge revitalizar la democracia Sobreponiéndose a la melancolía política este libro retoma la tradición republicana para construir alternativas viables Una democracia republicana y un republicanismo en clave socialista se presentan como hilos para tejer un republicanismo cosmopolita mediante una interculturalidad crítica y un humanismo otro que aliente la cultura crítica imprescindible para sostener el compromiso con la república por venir Esta tarea en la realidad política de España ha de tener un perfil propio acorde con nuestra historia y atendiendo a las condiciones de un presente en el que el republicanismo reclama una modulación más clara e intensa

Fundamentos de la República democrática Raul Alfonsín, 2021-04-01 Esta obra propone un desarrollo argumental de los fundamentos de la República Democrática desde una Teoría del Estado A partir de una perspectiva actual plantea una revisión crítica de los tópicos trazados por las diferentes teorías y doctrinas filosóficas teóricas y jurídico políticas acerca de la naturaleza del Estado y sus distintas evoluciones El propósito es realizar un aporte para el debate político argentino y latinoamericano precisado de ideas fuerza que ayuden a superar la desorientación los extravíos y el empobrecimiento intelectual de la vida democrática Estas páginas tienen el valor de exponer las ideas de un político que recorrió todas las instancias escenarios y rincones de las instituciones políticas argentinas

Derechos ambientales en perspectiva de integralidad Gregorio Mesa Cuadros, 2016-04-01 Partiendo de una concepción integral de los derechos humanos sustentada en su interdependencia universalidad globalidad y tratamiento igual y con base en una perspectiva crítica esta tesis da buenas razones y argumentos desde un nuevo ambientalismo popular latinoamericano y alterglobalizador para fundamentar derechos ambientales y su concreción en el

Estado ambiental de derecho a nivel estatal y global hacia la satisfacción de las necesidades humanas básicas de todas las personas. Los conceptos de huella y deuda ambiental, justicia ambiental, solidaridad y responsabilidad e imperativo ambiental, así como los de democracia y ciudadanía ambiental y cosmopolita, son además ideas básicas de límites a las acciones humanas de los poderes que alrededor del globo imponen y ejecutan prácticas culturales, sociales, económicas, políticas y ambientales individuales y grupales de apropiación, depredación, contaminación, exclusión, discriminación, marginación y empobrecimiento. Este debate se hace desde contextos socioculturales, políticos y ambientales concretos y busca diferenciarse de las formas como el capital y el neoliberalismo intentan seguirse de verde tratando de acomodarse a los nuevos tiempos en su idea de dar razones para la apropiación de aquello que todavía no entra en su ámbito propietario para continuar con su espíritu de maximización de las ganancias quitando valor a los bienes y poniéndoles otro valor cuando no solamente un precio. La tesis se apoya en otras disciplinas y hace un ejercicio de inter y transdisciplinariedad en el que además de los enfoques de la teoría crítica de los derechos humanos, la sociología del derecho y la filosofía del derecho, acoge otras disciplinas que la alimentan como la ecología política, la economía ecológica, la filosofía política y la ética, y destaca además la paradoja entre unos derechos consagrados pero muy poco protegidos efectivamente.
