Nurnberg Tribunal Der Sieger:

Reassessing the Nuremberg Military Tribunals Kim C. Priemel, Alexa Stiller, 2012-08-01 For decades the history of the US Military Tribunals at Nuremberg NMT has been eclipsed by the first Nuremberg trial the International Military Tribunal or IMT The dominant interpretation neatly summarized in the ubiquitous formula of Subsequent Trials ignores the unique historical and legal character of the NMT trials which differed significantly from that of their predecessor The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law history and political science exploring the genesis impact and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949

The Frankfurt Auschwitz Trial, 1963-1965 Devin O. Pendas, 2006 Drawing on a wide range of archival sources this book provides a comprehensive history of the Frankfurt Auschwitz trial

The Execution of Illegal Orders and International Criminal Responsibility Hiromi Sato, 2011-02-16 The legal consequence of the superior orders defense has long been debated as one of the major problems in international criminal law Several controversial issues such as the immunity of the state the absolute character of military discipline and immunity on the grounds of mistake of law and or coercion have been complexly interwoven in the debates The Execution of Illegal Orders and International Criminal Responsibility provides a comprehensive portrait of the relevant debates at the international level up to the present analyzes the conflicting views and shows the significance of the development of international rules for the superior orders defense as well as the implication of the fact that issues concerning some detailed or related rules have been left unresolved This study presents to present a new standpoint not only on dealing with the problem of the superior orders defense but also on reconsidering the international stipulation of rulemaking with regard to criminal matters

Democracy, Nazi Trials and Transitional Justice in Germany, 1945-1950 Devin O. Pendas, 2020-09-24 Revising our understanding about how transitional justice works this study analyses and compares Nazi trials in post war East and West Germany from 1945 to 1950 to challenge assumptions about the political outcomes of prosecuting mass atrocities

Genocide on Trial Donald Bloxham, 2001 When the Allies decided to try German war criminals at the end of World War II they were attempting not only to punish the guilty but also to create a record of what had happened in Europe This ground breaking new study shows how Britain and the United States went about inscribing the history of Nazi Germany and the effect their trial and occupation policies had on both long and short term memory in Germany and Britain Donald Bloxham here examines the actions and trials of German soldiers and policemen the use of legal evidence the refractory functions of the courtroom and Allied political and cultural preconceptions of both Germanism and of German criminality His evidence shows conclusively that the trials were a failure the greatest of all crimes against humanity the final solution of the Jewish question was largely written out of history in the post war era and the trials failed to transmit the breadth of German criminality Finally with reference to

the historiography of the Holocaust Genocide on Trial illuminates the function of the trials in perpetuating misleading generalizations about the course of the Holocaust and the nature of Nazism **Truth Claims** Mark Bradley, Patrice Petro, 2002 Exhibiting Terror Lindsay French **The Politics of International Criminal Justice** Ronen Steinke, 2012-05-25 To anyone setting out to explore the entanglement of international criminal justice with the interests of States Germany is a particularly curious exemplary case Although a liberal democracy since 1949 its political position has altered radically in the last 60 years Starting from a position of harsh scepticism in the years following the Nuremberg Trials and opening up to the rationales of international criminal justice only slowly and then mainly in the context of domestic trials against functionaries of the former East German regime after 1990 Germany is today one of the most active supporters of the International Criminal Court The climax of this is its campaigning to make the ICC independent of the UN Security Council a debate in which Germany took a position in stark contrast to the United States This book offers new insight into the debates leading up to such policy shifts Drawing on government documents and interviews with policymakers it enriches a broader debate on the politics of international criminal justice which has to date often been focused primarily on the United States

The Reparation System of the International Criminal Court Eva Dwertmann, 2010-03-02 When the Rome Statute for the International Criminal Court was adopted in 1998 one of its great innovations was that victims were granted an active role in the proceedings In its early jurisprudence on victims rights the International Criminal Court stated that the success of the Court is to some extent linked to the success of its reparation system This book is among the first to focus on the International Criminal Court's power to order reparations to victims It provides a comprehensive analysis of the legal framework of the reparation system taking into account relevant Court decisions Possibilities for its implementation are drawn up providing potential solutions for its multiple challenges including the distinct asymmetry between the individualized responsibility to provide reparations and the collective nature of the crimes and its consequences With its practical approach this book is particularly valuable for practitioners but also for students and researchers Victors' Justice Danilo Zolo, 2020-01-28 Victors Justice is a potent and articulate polemic against the manipulation of international penal law by the West combining historical detail juridical precision and philosophical analysis Zolo's key thesis is that contemporary international law functions as a two track system a made to measure law for the hegemon and their allies on the one hand and a punitive regime for the losers and the disadvantaged on the other Though it constantly advertised its impartiality and universalism international law served to bolster and legitimize ever since the Tokyo and Nuremberg trials a fundamentally unilateral and unequal international order *Himmler's Diary 1945: A Calendar of Events Leading to Suicide* Stephen Tyas, Peter Witte, 2014-03-24 Himmler's Diary 1945 A Calendar of Events Leading to Suicide is an exceptional work with unpublished diary entries made by Himmler that shows in detail how The Third Reich fell to ruin in its final bloody year Reichsfuhrer SS Heinrich Himmler was instigator of the largest programme of racial mass murder in history 1 January 1945

saw Heinrich Himmler at his peak in Nazi Germany controlling the entire German police force including the Gestapo all SS organisations and Nazi Minister of the Interior His powers extended into the German Army and included Commander of the Replacement Army and two Army Groups Two field commands revealed his limitations and failure as army commander Between January and May 1945 Heinrich Himmler vacillated showing a lack of vision action and decision At least he was able to gain control of V 2 rocket production and their launch against Britain He ordered all concentration camp inmates be shot before rescinding the order When his SS generals asked for instructions Himmler ordered them to show backbone as their commands had few bounds The Swedes and Swiss negotiated with Himmler who allowed over 10 000 concentration camp prisoners taken to safety before Hitler intervened Himmler conducted peace feelers via the Swedes before the German surrender in May 1945 while trying to make contact with British Field Marshal Montgomery These contacts went unanswered Himmler was captured by the British and then committed suicide on 23 May 1945
