One Nation Under God Orchestration And Score:

One Nation Under God James P. Moore, Jr., 2007-12-18 In this highly original approach to the history of the United States James Moore focuses on the extraordinary role that prayer has played in every area of American life from the time of the first settlers to the present day and beyond A stirring chronicle of the spiritual life of a nation **One Nation Under God** shows how the faith of Americans from the founding fathers to corporate tycoons from composers to social reformers from generals to slaves was an essential ingredient in the formation of American culture character commerce and creed **One Nation Under God** brings together the country's hymns patriotic anthems arts and literature as a framework for telling the story of the innermost thoughts of the people who have shaped the United States we know today Beginning with Native Americans **One Nation Under God** traces the prayer lives of Quakers and Shakers Sikhs and Muslims Catholics and Jews from their earliest days in the United States through the advent of cyberspace the aftermath of 9 11 and the 2004 presidential election It probes the approach to prayer by such diverse individuals as Benjamin Franklin Elvis Presley Frank Lloyd Wright Martha Graham J C Penney Mary Pickford Cesar Chavez P T Barnum Jackie Robinson and Christopher Columbus It includes every president of the United States as well as America's farmers clergy immigrants industrialists miners sports heroes and scientists **One Nation Under God** shows that without prayer the political cultural social and even economic and military history of the United States would be vastly different from what it is today It engages in a thoughtful timely examination of the modern debate over public prayer and how the current approach to prayer bears deep roots in the philosophies of the country's founding fathers a subject which remains distinct from the debate over church and state

Catalog of Copyright Entries Library of Congress. Copyright Office, 1956 *The Instrumentalist*, 1962 **Orchestrating the Nation** Douglas W. Shadle, 2016 During the nineteenth century nearly one hundred symphonies were written by over fifty composers living in the United States With few exceptions this repertoire is virtually forgotten today In **Orchestrating the Nation The Nineteenth Century American Symphonic Enterprise** author Douglas W Shadle explores the stunning stylistic diversity of this substantial repertoire and uncovers why it failed to enter the musical mainstream Throughout the century Americans longed for a distinct national musical identity As the most prestigious of all instrumental genres the symphony proved to be a potent vehicle in this project as composers found inspiration for their works in a dazzling array of subjects including Niagara Falls Hiawatha and Western pioneers With a wealth of musical sources at his disposal including never before examined manuscripts Shadle reveals how each component of the symphonic enterprise from its composition to its performance to its immediate and continued reception by listeners and critics contributed to competing visions of American identity Employing an innovative transnational historical framework Shadle's narrative covers three continents and shows how the music of major European figures such as Beethoven Schumann Wagner Liszt Brahms and Dvorak exerted significant influence over dialogues about the future of American musical culture Shadle demonstrates that the perceived authority of these figures

allowed snobby conductors capricious critics and even orchestral musicians themselves to thwart the efforts of American symphonists despite widespread public support of their music Consequently these works never entered the performing canons of American orchestras An engagingly written account of a largely unknown repertoire *Orchestrating the Nation* shows how artistic and ideological debates from the nineteenth century continue to shape the culture of American orchestral music today
