Onrust Aan Het Spaarne Haarlem In De Jaren 1747-1751 Hollandse Historische Reeks:

The Political Economy of the Dutch Republic Oscar Gelderblom, 2016-02-24 In the first half of the seventeenth century the Dutch Republic emerged as one of Europe's leading maritime powers. The political and military leadership of this small country was based on large scale borrowing from an increasingly wealthy middle class of merchants, manufacturers and regents. This volume presents the first comprehensive account of the political economy of the Dutch republic from the sixteenth to the early nineteenth century. Building on earlier scholarship and extensive new evidence it tackles two main issues: the effect of political revolution on property rights and public finance and the ability of the nation to renegotiate issues of taxation and government borrowing in changing political circumstances. The essays in this volume chart the Republic's rise during the seventeenth century and its subsequent decline as other European nations adopted the Dutch financial model and warfare bankrupted the state in the eighteenth century. By following the United Provinces's financial ability to respond to the changing national and international circumstances across a three hundred year period much can be learned not only about the Dutch experience but the wider European implications as well.

The Rise and Decline of Dutch Technological Leadership (2 Vols) Karel Davids, 2008-09-17 This book provides a wide ranging overview of Dutch technological leadership in the early modern Europe: it explains whence this leadership came about and why it ended and it explores to what extent the Dutch case illuminates the evolution of technological leadership in general.

Citizens without Nations Maarten Prak, 2018-08-16 Examines how urban citizenship gave many people a real stake in their own communities even before the rise of modern democracy.

The Republican Alternative André Holenstein, Thomas Maissen, Maarten Roy Prak, 2008 The Republican Alternative seeks to move beyond the mere notion of scholarly inquiry into the republic: the subject of recent rediscovery by political historians interested in Europe's intellectual heritage by investigating the practical similarities and differences between two early modern republics as well as their self images and interactions during the turbulent seventeenth and eighteenth centuries. Among the world's most economically successful societies Switzerland and the Netherlands laid much of the foundation for their prosperity during the early modern period discussed here. This volume attempts to clarify the special character of these two countries as they developed including issues of religious plurality, the republican form of government and an increasingly commercially driven agrarian society.

One key aspect that has been identified in recent historical research to explain the survival of the guilds for such a long time is the guilds continued adaptability to changing circumstances. This idea of flexibility is the point of departure for the essays in this volume.

which sheds new light on the corporate system and identifies its various features and regional variances The contributors explore the interrelations between economic organisations and political power in late medieval and early modern towns and address issues of gender religion and social welfare in the context of the guilds This cohesive and focussed volume will provide a stimulus for renewed interest and further research in this area It will appeal to scholars and students with an interest in early modern economic social and cultural history in particular but will also be valuable to those researching into political religious and gender history

Weldenkende burgers en Oranjeliefhebbers Erik Halbe de Jong, 2014 De Patriotten en Prinsgezinden in Leiden hadden aan het eind van de achttiende eeuw een belangrijk aandeel in de politieke onrust die was ontstaan na de verloren Vierde Engelse Oorlog Deze politieke stromingen verschilden diepgaand van mening over maatschappelijke kwesties Ook onder de aanhangers van deze stromingen was er vaak sprake van onenigheid De strijd werd vooral met woorden uitgevochten al kwamen er uiteindelijk ook wapens aan te pas Gebruikmakend van de theorie van de collectieve actie van de Amerikaanse socioloog Tilly onderzocht Erik de Jong welke groeperingen en organisaties bij deze conflicten waren betrokken welke doeleinden zij nastreefden en wat de redenen waren waarom zij in actie kwamen Die acties bestonden voornamelijk uit het indienen van verzoekschriften bij de autoriteiten en het organiseren van demonstraties En van de gevolgen was dat op den duur meer groepen uit de stedelijke samenleving betrokken raakten bij de politieke besluitvorming

Redefining William III David Onnekink, Esther Mijers, 2016-04-08 William III 1650 1702 was Stadholder in the United Provinces and King of England Scotland and Ireland His reign has always intrigued historians as it encompassed such defining events as the Dutch year of Disaster 1672 the Glorious Revolution 1688 and the ensuing wars against France Although William has played a pivotal role in the political and religious history of his countries the significance and international impact of his reign is still not very well understood This volume contains a number of innovative essays from specialists in the field which have evolved from papers delivered to an international conference held at the University of Utrecht in December 2002 By focusing on the entire period 1650 1702 from an international perspective the volume moves historical discussion away from the traditional analysis of single events to encompass William's entire reign from a variety of political religious intellectual and cultural positions In so doing it offers a new perspective on the British and Dutch reigns of William III as well as the wider European milieu

Betrokken burgers Carolien Boender, 2024-04-30 Aan de Nederlandse revolutietijd 1780 1813 schrijven historici grote impact toe Maar wat merkten de burgers van Haarlem en Groningen eigenlijk van alle veranderingen Betrokken burgers vormden de ruggengraat van de Republiek Het dagelijks leven draaide voor een groot deel op buurtorganisaties gilden en schutterijen en dat waren juist de stedelijke instituties waar zij deel van uitmaakten In 1796 kondigden de Bataafse revolutionairen het einde van sommige van deze instellingen af en introduceerden zij het staatsburgerschap Maar was

daarmee de rol van de stedelijke burger ook uitgespeeld Dat komen we te weten als we luisteren naar de stadsbewoners zelf Aan de hand van de levens van Haarlemmers en Groningers tussen 1747 en 1848 illustreert dit boek het voortbestaan van lokaal burgerschap Zij komen aan het woord via verzoekschriften kronieken gelegenheidsgedichten vergadernotulen en mondelinge klachten op de burgemeesterskamer Hoe zag de ideale stedelijke gemeenschap er volgens hen uit Welke rechten en plichten had een burger in hun ogen En wat waren de dure plichten van een stadsbestuurder Voor dit burgerschap putten stadsbewoners met souplesse uit traditionele en revolutionaire idealen en praktijken Carolien Boender 1989 is historicus Zij promoveerde aan de Universiteit Leiden Haar expertise ligt bij stadsgeschiedenis en de politieke en culturele geschiedenis van Nederland in de achttiende en negentiende eeuw **Nassau en de macht van Oranje** Marijke Bruggeman, 2006
