Global Fortune Ian Vasquez,2000-06-01 After two world wars the Great Depression and experiments with socialism interrupted the liberal economic order that began in the 19th century the world economy has recently returned to the level of globalization that it previously enjoyed Peruvian novelist Mario Vargas Llosa embraces that development saying It is liberalism more than any other doctrine that symbolizes the extraordinary advances that liberty has made in the long course of human civilization In Global Fortune experts from four continents examine the financial turmoil that has accompanied the return to a global economy and address the accusation of its critics that markets spread instability

and poverty The contributors also explore the role of the International Monetary Fund show that close ties between business and government in South Korea Thailand and Indonesia have led to massive malinvestments and assess Russia s record of reforms which according to Andrei Illarionov President Putin s chief economic advisor has been dismal The notion that capitalism has somehow failed is regrettable because the welfare of humanity is largely tied to the fortune of capitalism itself Capitalism Prof Rudiger Dornbusch says made the 20th century one of unrivaled prosperity enabling unprecedented improvements in the living standards of billions of people around the world Vargas Llosa sums up the sentiments of the authors in this collection when he says We should celebrate the achievements of liberalism with joy and serenity but without triumphalist hubris That which remains to be done is more important still *Our Third Century, Directions* United States. The Choices and Consequences of Our Age Dean Gualco,2012-03 There are winners and losers in a capitalistic society but capitalism does not choose who is a winner and who is a loser The winners are those who have the right idea sacrifice their time and money take risks work hard and have a little luck and help along the way The losers are those who rarely dream of the impossible waste their time spend their money foolishly lack the courage to take risks and fail to dedicate themselves to achieving the rewards of their efforts Winners should receive the greatest returns for their investments and the greatest of rewards for their endeavors While wealth may be distributed unequally it results more from an unequal dedication to acquire this wealth That is not only right but it is fair At the heart of capitalism is choice one of success or failure saving or spending and work or recreation Capitalism is a system that allows a person to choose whether he or she wants to be a winner or a loser Today too many have chosen the latter and display the unbecoming traits of greed jealousy and envy toward those who have chosen the former While insecurity and instability may pervade this country s economic political and societal institutions success can still be achieved by those who look forward rather than backward who avoid the disadvantages of the past to take advantage of the future In *The Choices and Consequences of Our Age* you ll learn that it s still possible to achieve success through hard work sacrifice and self reliance
