Parish Churches Of South East Essex:

The Parish Churches of South East Essex Charles Grigg Tait, 1992 The Archaeology of Churches Warwick Rodwell, 2012-05-15 The definitive work on church archaeology **Colchester, Fortress of the War God** David Radford, Adrian Gascoyne, 2013-07-19 This volume is a critical assessment of the current state of archaeological knowledge of the settlement originally called Camulodunon and now known as Colchester The town has been the subject of antiquarian interest since the late 16th century and the first modern archaeological excavations occurred in 1845 close to Colchester Castle the towns most prominent historic site The earliest significant human occupation recorded from Colchester dates to the late Neolithic but it was only towards the end of the 1st century BC that an oppidum was established in the area This was superseded initially by a Roman legionary fortress and then the colonia of Camulodunum on a hilltop bounded on the north and east by the river Colne There is little evidence for continuing occupation here in the early post Roman period but in 917 the town was re established as a burgh and gradually grew in importance After the Norman Conquest a castle was built on the foundations of the ruined Roman Temple of Claudius and a priory and an abbey were established just to the south of the walled town Although the town as elsewhere was affected by the Dissolution of the Monasteries and the English Civil War it remained essentially medieval in character until the 18th century During the 19th century this process of change was accelerated by the arrival of the railway industrialisation and the establishment of the military garrison Since the 1960s Colchester has been subject to recurring phases of re development the most recent having ended only in 2007 which have had a significant impact on the historic environment Fortunately the town is one of the best studied in the country

Lordship and Faith Nigel Saul, 2017 Lordship and Faith takes as its subject the many hundreds of parish churches built in England in the Middle Ages by the gentry the knights and esquires and the lords of country manors Nigel Saul uses lordly engagement with the parish church as a way of opening up the piety and sociability of the gentry focusing on the gentry as founders and builders of churches worshippers in them holders of church advowsons and patrons and sponsors of parish communities Saul also looks at how the gentry's interest in the parish church sat alongside their patronage of the monks and friars and their use of private chapels in their manor houses Lordship and Faith seeks to weave together themes in social religious and architectural history examining in all its richness a subject that has hitherto been considered only in journal articles Written in an accessible way this volume makes a significant contribution not only to the history of the English gentry but also to the history of the rural parish church an institution now in the forefront of medieval historical studies

Southend in 50 Buildings Ian Yearsley, 2016-04-15 A full colour guide to Southend's historical buildings from past to present day *Building*, 1900 Report on the Custody and Condition of the Public Records of Parishes, Towns, and Counties Massachusetts. Record Commission, 1889 **Reports of the Chief Registrar of Friendly Societies, for the Year Ending ...** Friendly Societies' Registry Office (Great Britain), 1928 **Territoriality and the Early Medieval**

Landscape Stephen Rippon, 2022 An exploration of small early folk communities prior to the eleventh century showing their development and sophistication All communities have a strong sense of identity with the area in which they live which for England in the early medieval period manifested itself in a series of territorial entities ranging from large kingdoms down to small districts known as pagi or regiones This book investigates these small early folk territories and the way that they evolved into the administrative units recorded in Domesday across an entire kingdom that of the East Saxons broadly speaking what is now Essex Middlesex most of Hertfordshire and south Suffolk A wide range of evidence is drawn upon including archaeology written documents place names and the early cartographic sources The book looks in particular at the relationship between Saxon immigrants and the native British population and argues that initially these ethnic groups occupied different parts of the landscape until a dynasty which assumed an Anglo Saxon identity achieved political ascendancy its members included the so called Prittlewell Prince buried with spectacular grave good in Prittlewell near Southend on Sea in southern Essex Other significant places discussed include London the seat of the first East Saxon bishopric the possible royal villas at Wicken Bonhunt near Saffron Walden and Maldon and St Peter's Chapel at Bradwell on Sea one of the most important surviving churches from the early Christian period

Earls Colne's Early Modern Landscapes Dolly MacKinnon, 2016-04-29 The Essex village of Earls Colne boasts one of the most comprehensive collections of historical documents in Britain and has been the subject of an intensive and ongoing

research project to collate and computerise the surviving records As such Earls Colne is undoubtedly one of the most studied parishes in England Yet whilst much is now known about the village and its inhabitants little work has been done on the social relationships that bound the community together within its mental and physical landscape As such scholars will welcome Dr MacKinnon s investigation into the social political and cultural world of early modern England as represented by Earls Colne The book provides a fresh approach to the study of the landscape of a seventeenth century village by focussing on the relationships between political power and cultural artefacts It examines how private public and communal spaces within society were generated gendered and governed and how this was recorded and perpetuated in the records names and monuments of the parish and surrounding landscape Yet whilst the elites tried to represent a select social landscape through their control of the local records and documents these attempts were always counterbalanced by the less powerful members of the community who occupied and contested these spaces By reconstructing the dynamics of Earls Colne through a careful reading and cross referencing of the surviving documents buildings and place names this book offers a fascinating insight into how the sights and sounds of early modern society were imbued with the social relations of parish politics As well as deepening our understanding of Earls Colne itself the book offers historians the potential to revisit other local studies from a fresh perspective
