Casper, 2018-07-25 Nineteenth century American authors critics and readers believed that biography had the power to shape individuals characters and to

help define the nation's identity. In an age predating radio and television, biography was not simply a genre of writing, says Scott Casper; it was the medium that allowed people to learn about public figures and peer into the lives of strangers. In this pioneering study, Casper examines how Americans wrote, published, and read biographies and how their conceptions of the genre changed over the course of a century. Campaign biographies, memoirs of pious women, patriotic narratives of eminent statesmen, mug books that collected the lives of ordinary midwestern farmers—all were labeled biography, however disparate their contents and the contexts of their creation, publication, and dissemination. Analyzing debates over how these diverse biographies should be written and read, Casper reveals larger disputes over the meaning of character, the definition of American history, and the place of American literary practices in a transatlantic world of letters. As much a personal experience as a literary genre, biography helped Americans imagine their own lives as well as the ones about which they wrote and read. *Analytical and Classified Catalogue of the Library of the Parliament of Queensland*, Queensland.

Parliament. Library, Denis O'Donovan (C.M.G.), 1883. Eanger Irving Couse, Virginia Couse Leavitt, 2019-01-24. Eanger Irving Couse (1866–1936) showed remarkable promise as a young art student. His lifelong interest in Native American cultures also started at an early age, inspired by encounters with Chippewa Indians living near his hometown, Saginaw, Michigan. After studying in Europe, Couse began spending summers in New Mexico, where in 1915 he helped found the famous Taos Society of Artists, serving as its first president and playing a major role in its success. This richly illustrated volume, featuring full-color reproductions of his artwork, is the first scholarly exploration of Couse's noteworthy life and artistic achievements. Drawing on extensive research, Virginia Couse Leavitt gives an intimate account of Couse's experiences, including his early struggles as an art student in the United States and abroad, his study of Native Americans, his winter home and studio in New York City, and his life in New Mexico after he relocated to Taos. In examining Couse's role as one of the original six founders of the Taos Society of Artists, the author provides new information about the art colony's early meetings, original members, and first exhibitions. As a scholar of art history, Leavitt has spent decades researching her subject, who also happens to be her grandfather. Her unique access to the Couse family archives has allowed her to mine correspondence, photographs, sketchbooks, and memorabilia, all of which add fresh insight into the American art scene in the early 1900s. Of particular interest is the correspondence of Couse's wife, Virginia Walker, an art student in Paris when the couple first met. Her letters home to her family in Washington State offer a vivid picture of her husband's student life in Paris, where Couse studied under the famous painter William Bouguereau at the Académie Julian. Whereas many artists of the early twentieth century pursued a radically modern style, Couse held true to his formal academic training throughout his career. He gained renown for his paintings of southwestern landscapes and his respectful portraits of Native peoples. Through his depictions of the domestic and spiritual lives of Pueblo Indians, Couse helped mitigate the prejudices toward Native Americans that persisted during this era. **The People Are Dancing Again**, Charles Wilkinson, 2012-02-01. The history of the Siletz is in many ways the history

of all Indian tribes in America a story of heartache perseverance survival and revival It began in a resource rich homeland thousands of years ago and today finds a vibrant modern community with a deeply held commitment to tradition The Confederated Tribes of Siletz Indians twenty seven tribes speaking at least ten languages were brought together on the Oregon Coast through treaties with the federal government in 1853 55 For decades after the Siletz people lost many traditional customs saw their languages almost wiped out and experienced poverty killing diseases and humiliation Again and again the federal government took great chunks of the magnificent timber rich tribal homeland a reservation of 1 1 million acres reaching a full 100 miles north to south on the Oregon Coast By 1956 the tribe had been terminated under the Western Oregon Indian Termination Act selling off the remaining land cutting off federal health and education benefits and denying tribal status Poverty worsened and the sense of cultural loss deepened The Siletz people refused to give in In 1977 after years of work and appeals to Congress they became the second tribe in the nation to have its federal status its treaty rights and its sovereignty restored Hand in glove with this federal recognition of the tribe has come a recovery of some land several hundred acres near Siletz and 9 000 acres of forest and a profound cultural revival This remarkable account written by one of the nation s most respected experts in tribal law and history is rich in Indian voices and grounded in extensive research that includes oral tradition and personal interviews It is a book that not only provides a deep and beautifully written account of the history of the Siletz but reaches beyond region and tribe to tell a story that will inform the way all of us think about the past Watch the book trailer <https://www.youtube.com/watch?v=NEtAIGxp6pc> Commentary on the Twelve Prophets Saint Cyril (Patriarch of Alexandria),2008 Issued by ebrary Includes bibliographical references Available to patrons connecting from within the Millersville University domain or to patrons connecting from outside the Millersville University domain with a valid Library ID number *The Chief Justiceship of Melville W.
