Philosophical Investigations German Text W Rev Etc:

The Functions of Law Kenneth M. Ehrenberg, 2016 This book seeks to contribute to a legal positivist picture of law by defending two metaphysical claims about law and investigating their methodological implications One claim is that the law is a kind of artifact a thoroughgoing human creation for performing certain tasks or accomplishing certain goals That is artifacts are generally understood in terms of their functions When discussing artifacts the notion of function need not be as mysterious or problematic as might be the case with biological functions The other claim is that the law is an institution a specific kind of artifact that creates artificial roles which allow for the establishment and manipulation of rights and duties among those subject to the institution The methodological implication of this picture of law is that it is best understood in terms of the social functions that it performs and that the job of the legal philosopher is to investigate those functions This position is advanced against non positivist theories of law that nonetheless rely upon notions of law's function and is also advanced against positivist pictures that tend to de-emphasize or overlook the central role that function must play to understand the nature of law One key implication of this picture is that it can help explain how law might give people reasons to act beyond its use of force to do

When Texts Are Canonized Timothy H. Lim, 2017-05-05 How did canonization take place and what difference does it make Essays in this collection probe the canonical process Why were certain books but not others included in the canon What criteria were used to select the books of the canon Was canonization a divine fiat or human act What was the nature of the authority of the laws and narratives of the Torah How did prophecy come to be included in the canon Others reflect on the consequences of canonization What are the effects in elevating certain writings to the status of Holy Scriptures What happens when a text is included in an official list What theological and hermeneutical questions are at stake in the fact of the canon Should the canon be unsealed or reopened to include other writings Features Essays that contribute to our understanding of the complex processes of canonization Exploration of early concepts of canonicity Discussion of reopening the New Testament canon

Philosophical Investigations Ludwig Wittgenstein, 2003 **Reading 1922** Michael North, 2001-12-20 This engaging study returns to a truly remarkable year the year in which both *Ulysses* and *The Waste Land* were published in which *The Great Gatsby* was set and during which the Fascists took over in Italy the Irish Free State was born the Harlem Renaissance reached its peak Charlie Chaplin's popularity crested and King Tutankhamen's tomb was discovered In short the year which not only in hindsight became the primal scene of literary modernism but which served as the cradle for a host of major political and aesthetic transformations resonating around the globe In his previous study the acclaimed *Dialect of Modernism* OUP 1994 Michael North looked at the racial and linguistic struggles over the English language which gave birth to the many strains of modernism Here he expands his vision to encompass the global stage and tells the story of how books changed the future of the world as we know it in one unforgettable year *Fictional Realities* J. J. A. Mooij, 1993 This book is a study of the role of the imagination It focuses on the imaginative use of language in literature poetry and narrative prose but it also touches on some more comprehensive issues for the questions it discusses are questions regarding the relationship between mind reality and unreality The first two chapters survey the thinking about the imagination in the history of philosophy The main trends and the main problems are discussed particularly in respect of the positive or negative evaluation of imagination The subsequent chapters investigate the role of the imagination from a closer point of view How is it that imagination appears in literary art Central topics of discussion are the nature of narrativity of fictional discourse and fictional objects of realistic fiction of symbolism and metaphor Moreover the similarities both real and imagined between literature and the other arts are explored In all chapters attention is paid to the problem of the value of art and literary imagination The last chapter addresses this issue head on In particular it attempts to define the value of literature in relation to science **The Serials Directory**, 1987 **Hints to Travellers in Portugal, Etc** Portugal.
