Wright, 2000-08-28 This book is the first to engage Zen Buddhism philosophically on crucial issues from a perspective that is informed by the traditions of western philosophy and religion It focuses on one renowned Zen master Huang Po whose recorded sayings exemplify the spirit of the golden age of Zen in medieval China and on the transmission of these writings to the West The author makes a bold attempt to articulate a post romantic understanding of Zen applicable to contemporary world culture While deeply sympathetic to the Zen tradition he raises serious questions about the kinds of claims that can be made on its behalf

**What Is Buddhist Enlightenment?** Dale S. Wright, 2016-09-01 What kind of person should I strive to be What ideals should I pursue in my life These basic human questions and others like them are components of the overall question that guides this book What is enlightenment As Dale Wright argues any serious practitioner of human life religious or not confronts the challenge of living an authentic life of overcoming common human disabilities like greed hatred and delusion that give rise to excessive suffering Why then Wright asks is this essential question often avoided even discouraged among Buddhists One reason frequently cited by Buddhists is that pondering a distant goal might be a waste of energy that would be better applied to practice Quiet the flow of obsessive thinking put yourself in a mindful state of presence and let enlightenment take care of itself In this book however Wright contends that pondering this question is meditative practice that attentive inquiry of this kind is essential as the starting point and guide for any mindful practice of life Meditative reflection on the meaning of enlightenment focuses us on our aim and direction in life It guides us in shaping our practices our ideals and the kinds of lives we will live Asking what enlightenment is as a basic form of meditation helps to activate our lives and get transformative practice underway From Wright s perspective there is no more important question to ask than this one What is Buddhist Enlightenment offers a wide ranging exploration of issues that have a bearing on the contemporary meaning of enlightenment including a concluding section with 10 theses that answer the title s question Written by a leading scholar of Buddhism the book balances deep learning and an accessible style offering valuable insights for students scholars and practitioners alike While he takes an examination of what enlightenment has been in past Buddhist traditions as his point of departure Wright s historical considerations yield to the question that our lives press upon us what kinds of lives should we aspire to live here now and into the future

**A Companion to Buddhist Philosophy** Steven M. Emmanuel, 2015-11-23 A

Companion to Buddhist Philosophy is the most comprehensive single volume on the subject available it offers the very latest scholarship to create a wide ranging survey of the most important ideas problems and debates in the history of Buddhist philosophy Encompasses the broadest treatment of Buddhist philosophy available covering social and political thought meditation ecology and contemporary issues and applications Each section contains overviews and cutting edge scholarship that expands readers understanding of the breadth and diversity of Buddhist thought Broad coverage of topics allows flexibility to instructors in creating a syllabus Essays provide valuable alternative philosophical perspectives on topics to those available in Western traditions      Chinese and Buddhist Philosophy in Early Twentieth-Century German Thought Eric S. Nelson, 2017-08-24 Presenting a comprehensive portrayal of the reading of Chinese and Buddhist philosophy in early twentieth century German thought Chinese and Buddhist Philosophy in Early Twentieth Century German Thought examines the implications of these readings for contemporary issues in comparative and intercultural philosophy Through a series of case studies from the late 19th century and early 20th century Eric Nelson focuses on the reception and uses of Confucianism Daoism and Buddhism in German philosophy covering figures as diverse as Buber Heidegger and Misch He argues that the growing intertextuality between traditions cannot be appropriately interpreted through notions of exclusive identities closed horizons or unitary traditions Providing an account of the context motivations and hermeneutical strategies of early twentieth century European thinkers interpretation of Asian philosophy Nelson also throws new light on the question of the relation between Heidegger and Asian philosophy Reflecting the growing interest in the possibility of intercultural and global philosophy Chinese and Buddhist Philosophy in Early Twentieth Century German Thought opens up the possibility of a more inclusive intercultural conception of philosophy      Zen Pathways Professor of Philosophy Bret W Davis, 2021-12-27 This book offers an in depth introduction to the philosophy and practice of Zen Buddhism Bret Davis explores the philosophical implications of Zen teachings and koans comparing and contrasting these with other Asian as well as Western religions and philosophies He relates traditional Zen teachings and practices to our twenty first century lives In addition to being a scholarly and philosophical introduction to Zen the book provides concrete instructions for beginning a practice of Zen meditation Its twenty four chapters treat such philosophical topics as the self nature art morality and language as well as basic Buddhist teachings such as the middle way and karma Davis introduces the Zen based philosophies of the Kyoto School and also engages in interreligious dialogue with Christianity and other religions as well as with other schools of Buddhism The concluding chapter reviews the path of Zen practice and enlightenment by way of commenting on the beloved Zen classic The Ten Oxherding Pictures The book can be read in its entirety as a coherently organized introduction to the philosophy and practice of Zen or chapters can be read independently according to the reader s specific interests      Relational Hermeneutics Paul Fairfield, Saulius Geniusas, 2018-10-04 Investigating connections between philosophical hermeneutics and neighbouring traditions of thought this volume considers the question of how post Heideggerian

hermeneutics as represented by Gadamer Ricoeur and recent scholars following in their wake relate to these traditions both in general terms and bearing upon specific questions The traditions covered in this volume existentialism pragmatism poststructuralism Eastern philosophy and hermeneutics itself are all characterized by significant internal diversity adding to the difficulty in reaching an interpretation that is at once comparative and critical None of these traditions represent a unified system of belief all are umbrella terms which are at once useful and imprecise and the differences internal to each must not to be understated An innovative work of comparative philosophy this volume avoids oversimplification and offers specific analyses that treat hermeneutics in relation to particular themes and key figures in each of these traditions of thought Philosophical hermeneutics is explicitly dialogical and it is in this spirit that the authors of this book approach their subjects revealing the important affinities and opportunities for mutually enriching conversations which have until now been overlooked

Postmodern Ethics, Emptiness, and Literature Jae-seong Lee, 2015-12-24 This study advances contemporary postmodern poststructural critical theory literary criticism in particular with the help of Mahayana especially Ch'an Seon Chinese and Korean Zen Buddhist thought The quest for the infinity of the Other West and Emptiness or the true I East contributes to the exploration of the contemporary critical issues of ethics and infinity Such an approach will awaken our sense of unrepresented genuine transcendence and immanence The Buddhist Emptiness shows us the absolute Other illuminated on a vaster scale The theory section explores and links Eastern and Western philosophies switching between the two While discussing in depth Hegel Nietzsche Heidegger Derrida Levinas Lacan Deleuze and Nancy this study gradually guides the reader from the contemporary Western thought on the Other and infinity to the Buddhist vision of Emptiness the ultimate reality To overcome the dualistic mode of thought inherent in tradition of Western metaphysics this exploration follows the line that observes Nagarjuna and the imprint of Ch'an teachings that are most prevalent in South Korean Buddhism The last three chapters demonstrate a Levinasian and Seon Buddhist approach to the book of Job part of the Judeo Christian Bible as being a more literary than religious text and the excess of the Gothic mood in the two most distinguished and widely celebrated novels Bram Stoker's Dracula and Mary Shelley's Frankenstein The three texts compel readers to confront the infinity of the absolute Other or Emptiness The Grand Prize Winner of the 7th Wonhyo Academic Awards from the Korean Buddhism Promotion Foundation

Poetics of Emptiness Jonathan Stalling, 2011-10-03 The Poetics of Emptiness uncovers an important untold history by tracing the historically specific intertextual pathways of a single if polyvalent philosophical term emptiness as it is transformed within twentieth century American poetry and poetics This conceptual migration is detailed in two sections The first focuses on transpacific Buddhist poetics while the second maps the less well known terrain of transpacific Daoist poetics In Chapters 1 and 2 the author explores Ernest Fenollosa's The Chinese Written Character as a Medium for Poetry as an expression of Fenollosa's distinctly Buddhist poetics informed by a two decade long encounter with a culturally hybrid form of Buddhism known as

Shin Bukkyo New Buddhism Chapter 2 explores the classical Chinese poetics that undergirds the lost half of Fenellosa's essay Chapter 3 concludes the first half of the book with an exploration of the didactic and soteriological function of emptiness in Gary Snyder's influential poetry and poetics The second half begins with a critical exploration of the three decades long career of the poet translator critic Wai lim Yip whose transpacific Daoist poetics has been an important fixture in American poetic late modernism and has begun to gain wider notoriety in China The last chapter engages the intertextual weave of poststructural thought and Daoist and shamanistic discourses in Theresa Hak Kyung Cha's important body of heterocultural productions By formulating interpretive frames as hybrid as the texts being read this book makes available one of the most important yet still largely unknown stories of American poetry and poetics

*Why Can't Philosophers Laugh?* Katrin Froese, 2017-06-15 This book analyzes Western and Chinese philosophical texts to determine why laughter and the comic have not been a major part of philosophical discourse Katrin Froese maintains that many philosophical accounts of laughter try to unearth laughter's purpose thereby rendering it secondary to the intentional and purposive aspects of human nature that impel us to philosophize Froese also considers texts that take laughter and the comic as starting points attempting to philosophize out of laughter rather than merely trying to unearth reasons for laughter The book proposes that continuously unraveling philosophical assumptions through the comic and laughter may be necessary to live well

develops the hermeneutical foundations of creative practice In doing so he not only uncovers the significance of philosophical hermeneutics for the arts and the humanities but defends the humanities as a whole from the current scepticism inspired by deconstruction and post structuralism Taking Gadamer s language ontology as its cue this pioneering volume not only addresses certain weaknesses that Davey observes in Gadamer s thought but further takes Gadamerian thinking beyond Gadamer himself In particular Davey investigates the productive value of negativity that is central to hermeneutics and to wider spheres of creative learning Advocating a renewed confidence in hermeneutics and the humanities Negative Hermeneutics and the Question of Practice reveals how hermeneutical thinking provides a map of the dynamics within creative practice eliminating the need for an externally imposed theory of the arts
