Philosophical Reflections on Black Mirror Dan Shaw, Kingsley Marshall, James Rocha, 2021-12-16 Black Mirror is a cultural phenomenon It is a creative and sometimes shocking examination of modern society and the improbable consequences of technological progress The episodes typically set in an alternative present or the near future usually have a dark and satirical twist that provokes intense question both of the self and society at large These kind of philosophical provocations are at the very heart of the show Philosophical reflections on Black Mirror draws upon thinkers such as Friedrich Nietzsche Pierre Hadot and Michel Foucault to uncover how Black Mirror acts as philosophical television questioning human morality and humanity's vulnerability when faced with the inexorable advance of technology

Philosophical Reflections on Disability D. Christopher Ralston, Justin Ho, 2009-09-19 This project draws together the diverse strands of the debate regarding disability in a way never before combined in a single volume After providing a representative sampling of competing philosophical approaches to the conceptualization of disability as such the volume goes on to address such themes as the complex interplay between disability and quality of life questions of social justice as it relates to disability and the personal dimensions of the disability experience By explicitly locating the discussion of various applied ethical questions within the broader theoretical context of how disability is best conceptualized the volume seeks to bridge the gap between abstract philosophical musings about the nature of disease illness and disability found in much of the philosophy of medicine literature on the one hand and the comparatively concrete but less philosophical discourse frequently encountered in much of the disability studies literature It also critically examines various claims advanced by disability advocates as well as those of their critics In bringing together leading scholars in the fields of moral theory bioethics and disability studies this volume makes a unique contribution to the scholarly literature while also offering a valuable resource to instructors and students interested in a text that critically examines and assesses various approaches to some of the most vexing problems in contemporary social and political philosophy *Philosophical Reflections on Antiquity* Paul

Fairfield, 2020-09-02 *Philosophical Reflections on Antiquity* Historical Change addresses the question of whether there is a logic of historical change and whether the collapse of teleology should deter us from inquiring anew whether any recurring patterns and themes show themselves amid the complexity of historical life Paul Fairfield argues that if any conception of universal history remains possible it is one that rejects teleology and causal laws while identifying thematic tendencies that

afford some semblance of unity including the enduring phenomena that are interlocution the struggle for predominance and the endless back and forth that play out between them This book examines the transitional periods of archaic Greece and late antiquity the ostensible birth and death of the ancient west Fairfield argues that an interpretation of the social political and intellectual history of these important turning points brings to light some philosophical understanding of the dynamics of change itself observing that the transition from archaic to classical Greece was no miracle while the end of the Roman era can no longer be conceived as a story of decline and fall Rather Fairfield posits these were not complete breaks but relative beginnings and endings in narratives that are ongoing Scholars of philosophy history and anthropology will find this book particularly useful

PHILOSOPHICAL REFLECTIONS ABOUT WINE DAVID SANDUA,2024-01-06 This book invites the reader on an intellectual and sensory

journey through the world of wine It explores how something as common as a glass of wine can open doors to profound philosophical reflections Throughout its pages it discusses how wine beyond being a simple beverage with aesthetic and hedonistic qualities can be a catalyst for questioning our subjective experiences investigating the nature of pleasure and discovering the complexities of perception and aesthetics The book seeks to demonstrate that even the most everyday aspects of life are deeply intertwined with significant philosophical questions thus offering a new perspective on wine and its place in our understanding of the world

The Dark Side: Philosophical Reflections on the “Negative Emotions” Paola Giacomoni, Nicolò Valentini, Sara Dellantonio, 2021-04-02 This book takes the reader on a philosophical quest to understand the dark side of emotions The chapters are devoted to the analysis of negative emotions and are organized in a historical manner spanning the period from ancient Greece to the present time Each chapter addresses analytical questions about specific emotions generally considered to be unfavorable and classified as negative The general aim of the volume is to describe the polymorphous and context sensitive nature of negative emotions as well as changes in the ways people have interpreted these emotions across different epochs The editors speak of the dark side of the emotions because their goal is to capture the ambivalent unstable and shadowy aspects of emotions A number of studies have taken the categorial distinction between positive and negative emotions for granted suggesting that negative emotions are especially significant for our psychological experience because they signal difficult situations For this reason the editors stress the importance of raising analytical questions about the valence of particular emotions and focussing on the features that make these emotions ambivalent how despite their negativity such emotions may turn out to be positive This opens up a perspective in which each emotion can be understood as a complex interlacing of negative and positive properties The collection presents a thoughtful dialogue between philosophy and contemporary scientific research It offers the reader insight by illuminating the dark side of the emotions

Philosophical Reflections on Neuroscience and Education William H. Kitchen, 2017-11-16 Philosophical Reflections on Neuroscience and Education explores conceptual and normative questions about the recent programme which aims to underpin education with neuroscientific principles By invoking philosophical ideas such as Bennett and Hacker s mereological fallacy Wittgenstein s the first person third person asymmetry principle and the notion of irreducible constitutive uncertainty William H Kitchen offers a critique of the whole sale adoption of neuroscience to education He explores and reviews the role that neuroscience has started to play in educational policy and practice and whether or not such a role is founded in coherent conceptual reasoning Kitchen critically analyses the role which neuroscience can possibly play within educational discussions and offers paradigmatic examples of how neuroscientific approaches have already found their way into educational practice and policy documents By invoking the philosophical work primarily of Wittgenstein he argues against the surge of neuroscientism within educational discourse and offers to clarify and elucidate core concepts in this area which are often misunderstood

Aesthetic and Philosophical Reflections on Mood Birgit

Breidenbach,2020-04-19 This study explores the concept of Stimmung in literary and philosophical texts of the modern age Signifying both mood and attunement Stimmung speaks to the categories of affective experience and aesthetic design alike The study locates itself in the nexus between discourses on modernity existentialism and aesthetics and uncovers the pivotal role of Stimmung in 19th and 20th century European narrative fiction and continental philosophy The study first explores the philosophical and aesthetic origins and implications of Stimmung to then discuss its role in the narrative fiction of three key authors of modern literature Fyodor Dostoevsky Samuel Beckett and Thomas Bernhard These readings demonstrate a significant shift towards an aesthetic of affective intensity and immediacy in which the experience of the reading process takes centre stage as each author develops an aesthetic philosophy of Stimmung in their own right Through its focus on the concept of Stimmung the study thus unearths a fundamental link between existentialist concerns and narrative practice in modern literature

Wishful Thinking And Other Philosophical Reflections Nicholas Rescher,2013-05-02 During 2007 2008 Nicholas Rescher continued his longstanding practice of writing occasional studies on philosophical topics both for formal presentation and for informal discussion with colleagues While his forays of this kind have usually been issued in journal publications this has not been so in the present case so that the studies offered here encompass substantially new material Notwithstanding their thematic variation these exemplify a problem oriented method in the treatment of philosophical issues that is characteristic of Rescher s philosophical modus operandi and inherent in its endeavors to treat classical issues from novel points of view For Rescher usually more concerned with what should be said about a philosophical question than with what X Y and Z have said about it and he inclined to address issues of the latter sort primarily as a means for addressing the former

Philosophical Reflections on Mothering in Trauma Melissa Burchard,2018-07-20 *Philosophical Reflections on Mothering in Trauma* examines the lived experience of mothering children who have been seriously harmed by others Using an interdisciplinary approach that employs a feminist phenomenology and an emphasis on narrative theory this ground

breaking work gives voice to experiences of trauma and of mothering not ordinarily heard in philosophical discourses With a philosophical lens Melissa Burchard examines the challenges faced by families during the adoption and parenting of abused children In doing so Burchard argues that the investigation of traumatic experience poses questions that philosophers must address if we are to improve collective understanding of the human condition These questions centre around the epistemological implications of traumatic experience the role of power and privilege in abusive relationships and the interconnected issues of morality and moral agency in trauma problematic desires engendered in traumatic circumstances and therapeutic responses to trauma The book expresses ways in which mothering wounded children can if we are deeply engaged and reflective shift our understandings of what it means to be parents to be children to love to know to construct a self to feel desire to nurture to coerce and to live in the ambiguity of not knowing which decisions are right and which are wrong

Process Philosophical Reflections on the Whiteheadian Intellectual Heritage Vesselin Petrov, 2025-09-09 A N Whitehead 1861 1947 is widely regarded as one of the most significant scientists philosophers and thinkers of the 20th century His philosophical work has had a profound impact on the development of philosophy in almost all of its areas Actually the sheer breadth and influence of his philosophical contributions is such that it is almost impossible to enumerate all the areas of philosophy that have been influenced by him His concepts possess a historical evolution and are in a perpetual state of development particularly within the context of contemporary Whiteheadian scholarship Whiteheadian philosophers do of course investigate and develop further Whitehead s legacy and it is thus advisable to probe these contemporary assessments of Whitehead The present volume aims to do just that In order to do so the book is divided into four parts 1 General concepts and basic skills in education 2 The future of education 3 Arts and ethics 4 Community medicine psychology AI

Philosophical Dimensions in Mathematics Education Karen Francois, Jean Paul Van Bendegem, 2007-11-15 This book brings together diverse recent developments exploring philosophy of mathematics in education The unique combination of ethnomathematics philosophy history education statistics and mathematics offers a variety of different perspectives from which existing boundaries in mathematics education can be extended The ten chapters in this book offer a balance between philosophy of and philosophy in mathematics education Attention is paid to the implementation of a philosophy of mathematics within the mathematics curriculum to become a philosophy in mathematics education In doing so many chapters provide ideas for actual practice and some practical examples directly usable in teacher training and in mathematics classrooms *Authenticities* Peter Kivy, 2018-09-05 In his latest book on the aesthetics of music Peter Kivy presents an argument not for authenticity but for authenticities of performance including authenticities of intention sound practice and the authenticity of personal interpretation in performance As usual Kivy's work is beautifully written well argued and provocative Notes Kivy has provided a sorely needed framework for all future discussion of the authenticity matter This is his best book a major contribution to performance studies and to musical aesthetics likely it will be studied and cited for generations Choice Written in lively prose with a keen sense of reality this volume ought to be of interest not only to philosophers and musicologists but to all serious lovers of music Roger Scruton Times Literary Supplement The consistent theme running through Kivy's book is the need for interpretation as the personal authenticity and authority of the performer against the ideology both of the composer as genius and of the puritanical devotion to the authority of the text of the early music devotees This is a most valuable book one which constantly surprises and delights through its philosophical insights and informed musical understanding British Journal of Aesthetics *Happiness and Goodness* Steven M. Cahn, Christine Vitrano, 2015 How should we evaluate the success of each person's life Steven M Cahn and Christine Vitrano maintain that our well being is dependent not on particular activities accomplishments or awards but on finding personal satisfaction while treating others with due concern Cahn and Vitrano link their position to elements within both the Hellenistic and Hebraic traditions particularly the views of Epicurus and lessons from the Book of Ecclesiastes
