

# PHILOSOPHICAL THEORIES OF EDUCATION

The philosophical theories of education are perennialism, essentialism, progressivism and reconstructivism.

These educational theories/philosophies focus heavily on WHAT we should teach, the curriculum aspect.

**(International Library of the Philosophy of Education Volume 1)** Reginald Archambault,2010-02-25 When originally published in 1965 this book reflected some of the new thinking among philosophers regarding the role of the discipline in its investigation of central issues in education The essays are grouped into four major sections The Nature and Function of Educational Theory The Context of Educational Discussion Conceptions of Teaching and The Essence of Education The concepts dealt with are of the first importance to any practical or theoretical discussion in education and the editor provides a generous introduction to the essays to aid the reader in his analysis of the issues      *The Philosophical Basis of Education* Rolland Merritt Shreves,1918      **Philosophy of Education (International Library of the Philosophy of Education**

**Volume 14)** Terence W. Moore,2010-02-25 This volume provides an introduction to the philosophy of education which will enable students meeting the subject for the first time to find their way among the many specialized volumes It deals in a non technical way with the more important issues raised in a philosophical approach to education and gives a clear idea of the scope of the subject After discussing different theories of the aims of education whether mechanistic or organic the author addresses practical issues for example about the curriculum the distinction between education and indoctrination the role of authority and discipline and the place of religious and moral teaching Finally he deals with some important aspects of education and the influence of different political structures on the philosophy of education      *Philosophical and Ideological Perspectives on Education* Gerald Lee Gutek,1997 This second edition continues to examine the major schools of philosophy of education through the systems approach It also considers the relationship of education to major ideologies such as Liberalism Conservatism and Marxism The third section on Educational Theory analyzes the impact of philosophy and ideology on educational theory and practice by examining such theories as Essentialism Perennialism Progressivism and Social Reconstructionism Although focusing on the philosophy of education this book provides a three dimensional introduction to educational ideas First it examines the major philosophical systems and ideologies that have shaped educational thought and practice Second it outlines certain ideas from philosophy and ideology to illustrate how these disciplines contribute to educational theory Third in seeking to provide a context for educational philosophy ideology and theory it includes biographical sketches of principal originators or contributors of leading ideas about education For professionals working in the field of education      *The Nature of Educational Theories* Tone Kvernbekk,2021-06-16 This important book offers a meta theoretical account of educational theories and how they work It offers a classification scheme of distinct types of educational theory in which the account developed can inform the work of educational theorists and practitioners Kvernbekk observes throughout how meta theoretical knowledge of the structure of theory types will improve

the understanding and representation of educational phenomena and enhance theorists and practitioners ability to change those phenomena for the better She explains how philosophical accounts of scientific theories can help us understand the nature of educational theories by applying two influential but different theory conceptions the Received View and the Semantic Conception to the field of education Kvernbekk argues that educational theories like other scientific theories are representational devices that allow us to understand describe and explain phenomena and when desired to change them The classification scheme offered allows us to discriminate distinct types of educational theory goal directed equivalence and interlevel theories Examples of all three types are discussed explaining their structure what they say about the phenomena and how they say it The book also offers a critical overview of different conceptions of practice and different understandings of the theory practice relationship Encouraging a strong understanding of what theories say about the phenomena they represent this book will be of interest to educational researchers and postgraduate students in the fields of philosophy of education education theory and education policy and to philosophers of science and philosophers working on practical philosophical issues

**Philosophy of Educational Knowledge** W. Brezinka,2012-12-06 For two reasons we are particularly proud to include Wolfgang Brezinka s *Philosophy of Educational Knowledge* in this series of books on Philosophy of Education The first is the philosophical interest of the work itself its remarkable scholarship and the importance of the philosophical positions will be obvious to all readers The second is that it brings to the English speaking world a wonderful example of educational philosophy as now being practiced in the German speaking world All too often philosophers in the Anglo American tradition

have not seen the sort of perspective on educational thinking that infuses this work And since this book has been widely read in its original version it has had a considerable impact upon philosophy of educational research and science in the German speaking countries An understanding of this may help in the development of even more cooperative relations among students of education in all countries C 1 B Macmillan D C Phillips PREFACE TO THE ENGLISH EDITION 1 am not unmindful how little can be done in a mere treatise on Logic or how vague and unsatisfactory all precepts of Method must necessarily appear when not practically exemplified in the establishment of a body of doctrine Doubtless the most effectual mode of showing how the sciences may be constructed would be to construct them JOHN STUART MILL 1843 1 Parents have a duty to educate their children teachers to educate their pupils For this reason there is widespread interest in education Knowledge of education has long been offered under names like pedagogics pedagogy or educational theory Originally this meant practical knowledge based on common sense Since the Enlightenment however attempts have been made to acquire scientific knowledge of education      *The Educational Theories of Herbart and Froebel* John Angus Mac Vannel, 1905
