**The Political Philosophy of Poststructuralist Anarchism** Todd May, 1994-07-29 The political writings of the French poststructuralists have eluded articulation in the broader framework of general political philosophy primarily because of the pervasive tendency to define politics along a single parameter the balance between state power and individual rights in liberalism and the focus on economic justice as a goal in Marxism What poststructuralists like Michel Foucault Gilles Deleuze and Jean Fran ois Lyotard offer instead is a political philosophy that can be called tactical it emphasizes that power emerges from many different sources and operates along many different registers This approach has roots in traditional anarchist thought which sees the social and political field as a network of intertwined practices with overlapping political effects The poststructuralist approach however eschews two questionable assumptions of anarchism that human beings have an essentially benign essence and that power is always repressive never productive After positioning poststructuralist political thought against the background of Marxism and the traditional anarchism of Bakunin Kropotkin and Proudhon Todd May shows what a tactical political philosophy like anarchism looks like shorn of its humanist commitments namely a poststructuralist anarchism The book concludes with a defense contra Habermas and Critical Theory of poststructuralist political thought as having a metaethical structure allowing for positive ethical commitments

The Politics of Deconstruction Martin McQuillan, 2007-08-20 In this fine collection a group of distinguished scholars have produced the best book so far about Derrida's politics of the future J Hillis Miller Distinguished Research Professor University of California at Irvine Jacques Derrida has had a huge influence on contemporary political theory and political philosophy Derrida's thinking has inspired Slavoj Zizek Richard Rorty Ernesto Laclau Judith Butler and many more contemporary theorists This book brings

together a first class line up of Derrida scholars to develop a deconstructive approach to politics Deconstruction examines the internal logic of any given text or discourse It helps us analyse the contradictions inherent in all schools of thought and as such it has proved revolutionary in political analysis particularly ideology critique This book is ideal for all students of political theory and anyone looking for an accessible guide to Derrida s thinking and how it can be used as a radical tool for political analysis

European Journal of English Studies      **J.G. Ballard's Politics** Florian Cord, 2017-01-23 This book is the first sustained investigation of the political dimension in the work of J G Ballard A product of and reaction to the cultural socio economic moment commonly designated as the postmodern condition Ballard s oeuvre is read as a continuous and developing meditation on the postmodern examining it specifically as an expression of late capitalism The book shows that at the heart of this meditation lies the question of resistance Drawing on a wide range of concepts and ideas taken from the field of critical theory it argues that in the face of a world marked by an unprecedented expansion of capital in which modernity s grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness Ballard s fiction commits itself to a deliberately irrational and extreme pataphysical thought in order to develop a new discourse of resistance Against past readings that have construed Ballard s writing as non political decadent or quietist the study thus reveals Ballard as a thoroughly political author committed to a subversive politics In this way the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political      *Political Ontology and International Political Thought* Vassilios Paipais, 2016-11-09 This book challenges received notions of ontology in political theory and international relations by offering a psychoanalytically informed critique of depoliticisation in prominent liberal post liberal dialogic and agonistic approaches to pluralism in world politics Paipais locates the temptation of depoliticisation in their labouring under the fundamental fantasy of various guises of foundationalism in the form of either political anthropology or ontology as in the last instance ground or conversely anti foundationalism the denial of all grounds yet still operating within a foundationalist imaginary He argues instead for a formal political ontology of the void against historicism shot through an incarnate messianic nihilism against ethicism and teleological forms of politics In so doing the author offers critical readings of the messianic nihilism of Benjamin Agamben Taubes and i ek by problematising the antinomian tendencies in their respective politicaltheologies The book argues for a version of i ek s Badiouian politics of militancy supplemented by a proper participatory understanding of St Paul s messianic meontology and incarnational Christology as a means to reconceptualise the nexus between subjectivity universality and political action in world politics It will be of interest to students and scholars of International Relations theory political theory critical social theory and political theology

**Immanent Transcendence** Patrice Haynes, 2012-08-23 Over the last twenty years materialist thinkers in the continental tradition have increasingly emphasized the category of immanence Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence but rather its reconfiguration in immanent or materialist terms an immanent transcendence Through an engagement with the work of Deleuze Irigaray and Adorno Patrice Haynes examines how the notion of immanent transcendence can help articulate a non reductive materialism by which to rethink politics ethics and theology in exciting new ways However she argues that contrary to what some might expect immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude Indeed Haynes concludes by suggesting that a

theistic understanding of divine transcendence offers ways to affirm fully material immanence thus pointing towards the idea of a theological materialism

**Writing the Self and Transforming Knowledge in International Relations** Erzsebet Strausz, 2018-03-19 This book emerges from within the everyday knowledge practices of International Relations IR scholarship and explores the potential of experimental writing as an alternative source of knowledge and political imagination within the modern university and the contemporary structures of neoliberal government It unlocks and foregrounds the power of writing as a site of resistance and a vehicle of transformation that is fundamentally grounded in reflexivity self crafting and an ethos of care In an attempt to cultivate new sensibilities to habitual academic practice the project re appropriates the skill of writing for envisioning and enacting what it might mean to be working in the discipline of IR and inhabiting the usual spaces and scenes of academic life differently The practice of experimental writing that intuitively unfolds and develops in the book makes an important methodological intervention into conventional social scientific inquiry both regarding the politics of writing and knowledge production as well as the role and position of the researcher The formal innovations of the book include the actualization and creative remaking of the Foucaultian genre of the experience book which seeks to challenge scholarly routine and offers new experiences and modes of perception as to what it might mean to know and to be a knowing subject in our times The book will be of interest to researchers engaged in critical and creative research methods particularly narrative writing autobiography storytelling experimental and transformational research Foucault studies and philosophy as well as critical approaches to contemporary government and studies of resistance

**Poststructuralism, Philosophy, Pedagogy** J.D. Marshall, 2006-01-18 This book has been quite long in the making In its original format but with some different chapters and with the then publisher it foundered as did other volumes in the planned series At the in press stage when we obviously thought it was going ahead it was suddenly canned Quite distraught I closed it away in a desk drawer for a year or so But then Joy Carp of Kluwer Academic Publishers expressed an interest in it and we were in business again Most of the contributors to the original volume have stayed with it only to be delayed by myself for a variety of reasons but see the dedication I had been writing on Michel Foucault for a number of years but had become concerned about mis appropriations of his ideas and works in educational literature I was also concerned about the increasingly intemperate babble in that literature of the notion of postmodernism Indeed at one major educational conference in North America I listened to a person expounding postmodernism in terms of Destroy Destroy Destroy Like Michel Foucault I am not quite sure what postmodernism is but following Mark Poster s account of poststructuralism as merely a collective term to catch a number of French thinkers I thought that what we had to do in education was to look at what particular thinkers had said and not become involved in vapid discussion at an abstract level on isms Thus the book was conceived

**The Digitized Imagination** Nalini Rajan, 2012-04-27 The work explores the complex and profound implications of digital technology for a stunning variety of spaces ranging from science and cinema to

citizenship and bazaars It maps the multiple ways in which the new media rewrites the old and the dilemmas and issues that they pitch questioning in turn received notions of knowledge legality ethics privacy identity and community The book argues that the old and the new media are neither radically different nor the same while the mutability of a narrative whether on the printed page or on a digitally recorded disk remains there are intrinsic differences between print and digital print

Generational Feminism Iris van der Tuin, 2014-11-12 Iris van der Tuin redirects the notion of generational logic in feminism away from its simplistic conception as conflict Generational logic is said to problematize feminist theory and gender research as it follows a logic of divide and conquer between the old and the young and participates in patriarchal structures and phallogocentrism Examining the continental philosophies of Bergson and Deleuze and French feminisms of sexual difference van der Tuin paves the way for a more complex notion of generationality This new conception of the term views generational cohorts as static measurements that happen in the flow of being Prioritizing this generative flow gives what is measured its proper place as an effect Generational Feminism New Materialist Introduction to a Generative Approach experiments with a previously disregarded methodology s implications as an impetus for a new materialism and advances feminist politics for the twenty first century Space, Geometry and Aesthetics P. Rawes, 2008-04-30 Examining multiple modes of spatio temporal and geometric figurations of life the author explores how relationships between space geometry and aesthetics generate productive expressions of subjectivity developed through Kant s reflective subject and geometric texts by Plato and others towards Deleuze s philosophy of sense **Entangling Forms** Floyd Merrell, 2010-09-27 The volume draws from Charles S Peirce s pragmatic philosophy as well as from diverse areas in contemporary arts and sciences and certain facets of Buddhist philosophy especially regarding notions of interconnectedness self organization and co participation of the knowing subject with her inner world her socio cultural world and her physical environment Contradictory complementary and coalescence are also fundamental watchwords in addition to entanglement Contradictory since conflicts clashes and inconsistencies there will always be in spite attempts to resolve them Complementarity since poles of opposition can at least provisionally be resolved by mediation and moderation however vaguely and ambiguously such that consonance might emerge from dissonance balance from imbalance and accord from discord And coalescence since the union of disparities is an ongoing and always incomplete process it is never fixed product These concepts along with the key word entanglement place Peirce in a new light giving rise to new questions and possible responses from readers who are searching for alternate means of understanding in our increasingly complex rapidly globalizing world
