Philosophy And The Visual Arts A Journal:

Journal of Philosophy and the Visual Arts, 1989 *Philosophy and the Visual Arts*, 1990 **Journal of Philosophy and the Visual Arts**, 1989 *Journal of Philosophy and the Visual Arts* No. 5: "abstraction", 1995 **Philosophy & the Visual Arts** Andrew Benjamin, JD, PhD, 1989-01-15 **The Double Content Of Art** John Dilworth, 2004-12 In this original work on aesthetics philosopher John Dilworth offers an unusual theory of the nature of artworks The Double Content DC view is the first comprehensive theory of art that is able to satisfactorily explain the nature of all kinds of artworks in a unified way whether paintings novels or musical and theatrical performances Dilworth's basic thesis is that all such representational artworks involve two levels or kinds of representation a first stage in which a concrete artifact represents an artwork and a second stage in which that artwork in turn represents its subject matter Thus Dilworth describes his approach as a double content DC theory since arguably all content is the content of some representation or other This fresh even revolutionary approach to art meets strong initial opposition from other current theories of art for example those that treat paintings as physical objects or novels and other works of fiction as types that have copies or performances as instances **The Visual Arts in Post-Historical Perspective** Arthur C. Danto, 1998-11-03 This essay explores how conceptions of art and resulting historical narratives differ according to culture **The Aesthetics of Design** Jane Forsey, 2013-02-14 The Aesthetics of Design offers the first full treatment of design in the field of philosophical aesthetics challenging the discipline to broaden its scope to include the quotidian objects and experiences of our everyday lives and concerns In doing so it contributes to the growing field of Everyday Aesthetics *The Uselessness of Art* Peter Lamarque, 2019-10-10 Oscar Wilde's famous quip All art is quite useless might not be as outrageous or demonstrably false as is often supposed No one denies that much art begins life with practical aims in mind religious moral political propagandistic or the aggrandising of its subjects But those works that survive the test of time will move into contexts where for new audiences any initial instrumental values recede and the works come to be valued for their own sake The book explores this idea and its ramifications The glorious Palaeolithic paintings on the walls of the Chauvet Cave present a stark example In spite of total ignorance of their original purposes we irresistibly describe the paintings as works of art and value them as such Here we are at the very limits of what is meant by art and aesthetic appreciation Are we misusing these terms in such an application The question goes to the heart of the scope and ambition of aesthetics Must aesthetics in its pursuit of art and beauty inevitably be culture bound Or can it transcend cultural differences and speak meaningfully of universal values timelessly human not merely historically relative The case of literature or film puts further pressure on the idea of art valued for its own sake Characters in works of literature and film or finely honed emotions in poetry often give pleasure precisely because they resonate with our own lives and seem in the great works to say something profound about human existence Is not this kind of insight why we value such works Yet the conclusion is not quite as clear cut as it might seem and the idea of valuing something for its own sake never quite goes
