**Jewish Education and History** Moshe Aberbach, 2009-06-02 Education is at the centre of Jewish life and this book charts that development from the earliest periods through to the present. Modern Gnosis and Zionism Yotam Hotam, 2013-05-20 In the late nineteenth and early twentieth century the German intellectual world was challenged by a growing distrust in the rational ideals of the enlightenment and consequently by a belief in the existence of a radical cultural crisis. One response to this crisis was the emergence of Life Philosophy which celebrated the irrational, expressive, instinctive and spontaneous while rejecting the rational, conscious and logical. Around the same time and place Zionist thought crystallized. It discussed issues like the Jewish essence, the creation of a new Jewish person and a new Jewish community, return to the Jewish homeland and the negation of the diasporic way of life. This book explores the connections between Zionism and Life Philosophy and argues that Life Philosophy represents a modern secularized version of gnostic dualism between God and world and that this was a particular secular impulse that lay at the core of the Zionist political mission. Consisting of two main sections, the book first shows the manner in which Life Philosophy should be understood as a modern secularized gnostic theology before concluding by discussing its political Zionist interpretation. Drawing on published works of a wide range of thinkers and intellectuals alongside a variety of unpublished materials, this book will be welcomed by students and scholars of Jewish studies, the philosophy of Judaism and religion and philosophy more generally.

**Jews and India**, Muscular Judaism Todd Samuel Presner, 2007-04-30 Providing valuable insights into an element of European nationalism and modernist culture, this book explores the development of the Zionist body as opposed to the traditional stereotype of the physically weak intellectual Jew. It charts the cultural and intellectual history showing how the Muscle Jew developed as a political symbol of national regeneration.

Obadiah Sforno: Light of the Nations, 2024-10-02 Light of the Nations is a philosophical work written by the Jewish intellectual and eminent biblical commentator Obadiah Sforno (ca. 1475–1550). His treatise, an apology for both Jewish and universal monotheistic beliefs, was published in Hebrew in 1537 under the

title *Or Ammim* and was translated by the author into Latin as *Lumen Gentium* in 1548 Written in the style of a classical medieval Scholastic summa the treatise's multilingual and multicultural dimensions reveal key humanist ideas that prevailed in the cities of northern Italy during the early modern period while also speaking to its author's abiding exegetical rationality

*Rabbinic Judaism* David Kraemer, 2015-09-07 In the aftermath of the conquest of the Holy Land by the Romans and their destruction of the Jerusalem Temple in 70 CE Jews were faced with a world in existential chaos both they and their God were rendered homeless In a religious tradition that had equated Divine approval with peaceful dwelling on the Land this situation was intolerable So the rabbis aspirants for leadership of the post destruction Jewish community appropriated inherited traditions and used them as building blocks for a new religious structure Not unexpectedly given the circumstances this new rabbinic formation devoted considerable attention to matters of space and place *Rabbinic Judaism Space and Place* offers the first comprehensive study of spatiality in Rabbinic Judaism of late antiquity exploring how the rabbis reoriented the Jewish relationship with space and place following the destruction of the Jerusalem temple Drawing upon the insights of theorists such as Tuan and LeFebvre who define the crisis that homelessness represents and argue for the deep relationship of human societies to their places the book examines the compositions of the rabbis and discovers both a surprisingly aggressive rabbinic spatial imagination as well as places most notably the synagogue where rabbinic attention to space and place is suppressed or absent It concludes that these represent two different but simultaneous rabbinic strategies for re placing God and Israel strategies that at the same time allow God and Israel to find a place anywhere This study offers new insight into the centrality of space and place to rabbinic religion after the destruction of the Temple and as such would be a key resource to students and scholars interested in rabbinic and ancient Judaism as well as providing a major new case study for anthropologists interested in the study of space

**Judaism in Contemporary Thought** Agata Bielik-Robson, Adam Lipszyc, 2014-04-03 The central aim of this collection is to trace the presence of Jewish tradition in contemporary philosophy This presence is on the one hand undeniable manifesting itself in manifold allusions and influences on the other hand difficult to define rarely referring to openly revealed Judaic sources Following the recent tradition of Levinas and Derrida this book tentatively refers to this mode of presence in terms of traces of Judaism and the contributors grapple with the following questions What are these traces and how can we track them down Is there such a thing as Jewish difference that truly makes a difference in philosophy And if so how can we define it The additional working hypothesis accepted by some and challenged by other contributors is that Jewish thought draws explicitly or implicitly on three main concepts of Jewish theology creation revelation and redemption If this is the case then the specificity of the Jewish contribution to modern philosophy and the theoretical humanities should be found in sometimes open sometimes hidden fidelity to these three categories Offering a new understanding of the relationship between philosophy and theology this book is an important contribution to the fields of Theology Philosophy and Jewish Studies

**Israeli Holocaust Research** Boaz Cohen, 2013 An exploration of the

development of Holocaust research in Israel this book ranges from the consolidation of Holocaust research as an academic subject in the late 1940s to the establishment of Yad Vashem and beyond Research on the story of historiography is often a work on books on the final products that fill academic bookshelves yet in Israeli Holocaust Research Boaz Cohen illustrates that the evolution of holocaust research in Israel has a more human element to it Drawing on knowledge gained through seven years of work in ten major archives in Israel the author reveals a previously unseen picture of the development of Israeli Holocaust research from below and of the social and cultural forces influencing its character In doing so a new facet to the picture emerges of the story beyond the archive and the people who see Holocaust research as their mission and responsibility This book will be a fascinating addition to the study of Holocaust research and will be of particular interest to students of history historiography and Jewish studies      **Hebrew Language and Jewish Thought** David Patterson, 2004-09 This book explores the idea that Jewish thought is distinguished by concepts and categories rooted in Hebrew
