Existentialism From Dostoevsky To Sartre Walter Kaufmann, 2016-03-28 What is Existentialism It is perhaps the most misunderstood of modern philosophic positions misunderstood by reason of its broad popularity and general unfamiliarity with its origins representatives and principles Existential thinking does not originate with Jean Paul Sartre It has prior religious literary and philosophic origins In its narrowest formulation it is a metaphysical doctrine arguing as it does that any definition of man's essence must follow not precede an estimation of his existence In Heidegger it affords a view of Being in its totality in Kierkegaard an approach to that inwardness indispensable to authentic religious experience for Dostoevsky Kafka and Rilke the existential situation bears the stamp of modern man's alienation uprootedness and absurdity to Sartre it has vast ethical and political implications Walter Kaufmann author of Nietzsche is eminently qualified to present and interpret the insights of existentialism as they occur and are deepened by the major thinkers who express them In every case complete selections or entire works have been employed The Wall Existentialism and the complete chapter on Self Deception from *L'etre et le N'ant* by Sartre two lectures from Jaspers book Reason and Existenz original translations of *On My Philosophy* by Jaspers and *The Way Back into the Ground of Metaphysics* by Heidegger There is as well material from Dostoevsky Kierkegaard Nietzsche Rilke and Camus **The Philosophy of Existentialism** Jean-Paul Sartre, 1965 Essays Bibliography p 423 431 **Being and Time** Martin Heidegger, 2025-02-11T00:00:00Z First published in the original German in 1927 this translation first published in the US by Harper and Row Publishers in 1962 public domain What is the

meaning of being This is the central question of Martin Heidegger's profoundly important work in which the great philosopher seeks to explain the basic problems of existence A central influence on later philosophy literature art and criticism as well as existentialism and much of postmodern thought Literature, Philosophy, and the Social Sciences Maurice Natanson, 2012-12-06 A collection of one man's essays in book form tends to be viewed today with some suspicion if not hostility by philosophical critics It would seem that the author is guilty of an academic sin of pride causing or helping to cause separately conceived articles to surpass their original station and assume a new life a grander articulation It can hardly be denied that the essays which follow must face this sullen charge for they were composed at different times for different sorts of audiences and for the most part have already been published Their appearance in a new form will not allay commonplace criticisms there are repetitions certain key terms are defined and defined again in various places a few quotations reappear and beyond this the essays are unequal in range depth and fundamental intent But it is what brings these essays together that constitutes I trust their collective merit Underlying the special arguments that are to be found in each of the chapters is a particular sense of reality not a thesis or a theory but rather a way of seeing the world and of appreciating its texture and design It is that sense of reality that I should like to speak of here Philosophy stands in a paradoxical relationship to mundane existence it is at once its critique and one of its possibilities The Existential and its Exits L. A. C. Dobrez, 2014-01-13 The book fills a significant gap in modern critical studies Hitherto there has been no considered attempt to relate Existentialist thought to contemporary literature and this is precisely what Dr Dobrez achieves taking four leading writers and discussing their work in relation to Husserl Heidegger and Sartre Readers will find this account enlightening in its discussion of Existentialism itself and its application of Existentialist principles in modern literature Thus this book will be of great value to students of both contemporary literature and modern philosophy

Existentialism and Humanism Jean-Paul Sartre, 2007 Over the past sixty years the writings of Jean Paul Sartre have probably been more influential in the West than those of any other philosopher and literary figure In his theoretical writings Sartre laid the foundation for an original doctrine of Existentialism His concern however was to relate his theory to human response and the practical demands of living To achieve this he carried his philosophical concepts into his novels and plays and there subjected them to the test of imagined experience His uniqueness lies in the success with which he demonstrated the utility of Existentialist doctrine while creating at the same time works of the highest literary merit Thus Sartre became the populariser of his own literary thought Originally delivered as a lecture in Paris in 1945 *Existentialism and Humanism* is Jean Paul Sartre s seminal defence of Existentialism as a doctrine true to Humanism as opposed to a purely nihilistic creed and a plan for its practical application to everyday human life This exploration of one of the central tenets of his philosophical thought has become the essential introduction to his work and a fundamental text for all students of philosophy page 4 of cover
