**Time, Memory, and the Verbal Arts** Dennis L. Weeks, Jane Susan Hoogestraat, 1998 Walter Ong pioneered the study of how orality and literacy mutually enrich each other in the evolution of human consciousness arguing that verbal communication moves from orality to literacy and on to what he has termed the secondary orality of radio and television The original essays in this volume explore the implications of Ong's work across the diverse fields of cultural history literary theory theology philosophy and anthropology These scholars maintain that Ong's view of orality not only changes our readings of ancient and medieval texts but that it also changes our understanding of the differing epistemologies of oral and literate cultures and of the coexistence of the oral and literate within a given culture *Encyclopedia of Rhetoric and Composition* Theresa Enos, 2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informal company

**Re-Figuring Hayden White** Frank Ankersmit, Ewa Domańska, Hans Kellner, 2009-06-24 Produced in honor of White's eightieth birthday *Re Figuring Hayden White* testifies to the lasting importance of White's innovative work which firmly reintegrates historical studies with literature and the humanities The book is a major reconsideration of the historian's contributions and influence by an international group of leading scholars from a variety of disciplines Individual essays address the key concepts of White's intellectual career including tropes narrative figuralism and the historical sublime while exploring the place of White's work in the philosophy of history postmodernism and ethics They also discuss his role as historian and teacher and apply his ideas to specific historical events *The Qualitative Dissertation* Maria Piantanida, Noreen B. Garman, 1999-04-16 This guide is for students working on dissertations that are based on qualitative research The guide attempts to frame the dissertation process as a set of iterative cycles of deliberation which include facing the dissertation moving into the dissertation crafting the research proposal proposing the study living with the study entering into public discourse and adjusting to life after the dissertation The first section consists of 10 chapters focusing on these cycles The second section is comprised of five think pieces more informal and conversational conceptions and misconceptions of deliberation in relation to theoretical perspectives on discourse These pieces are titled What Do We Mean by Deliberation Dissertation Study Groups Cultivating a Community for Discursive Deliberation Knowledge Claims and the Issue of Legitimacy in Educational Research Tuning In to Discourses on Qualitative Inquiry and Text Interpretation Throughout the book insets provide many case examples Contains approximately 250 references DB *Jesus and the Quest for Meaning* Thomas H. West, A new approach to introducing theology As God's self communication to humans Jesus is the key to the human search for meaning argues Thomas West He therefore introduces the practice of theology through Christology From the question of personal meaning and self constitution and their relationship to transcendent meaning and value he proceeds to discuss the figure and import of Jesus and then the ethical imperative engendered through encounter with him Fresh and clear West's book is an invitation to grapple with one's religious commitments especially in light of recent insights in biblical

studies and Continental feminist and liberation theologies This new text will prove an engaging and effective introduction to theological thinking for both undergraduates and Christian adults *Language as Hermeneutic* Walter J. Ong, 2018-01-15 Language in all its modes oral written print electronic claims the central role in Walter J Ong s acclaimed speculations on human culture After his death his archives were found to contain unpublished drafts of a final book manuscript that Ong envisioned as a distillation of his life s work This first publication of *Language as Hermeneutic* reconstructed from Ong s various drafts by Thomas D Zlatich and Sara van den Berg is more than a summation of his thinking It develops new arguments around issues of cognition interpretation and language Digitization he writes is inherent in all forms of writing from its early beginnings in clay tablets As digitization increases in print and now electronic culture there is a corresponding need to counter the fractioning of digitization with the unitive attempts of hermeneutics particularly hermeneutics that are modeled on oral rather than written paradigms In addition to the edited text of *Language as Hermeneutic* this volume includes essays on the reconstruction of Ong s work and its significance within Ong s intellectual project as well as a previously unpublished article by Ong *Time Digitization and Dal s Memory* which further explores language s role in preserving and enhancing our humanity in the digital age **The Poetics of International Politics** Milan Babík, 2018-10-26 A cutting edge contribution to the aesthetic turn in international relations scholarship this book exposes the role of poetic techniques in constituting the reality of international politics It has two symmetrical goals to illuminate the nonempirical fictions of factual international relations literature and to highlight the real factual inspirations and implications of contemporary international relations fiction Employing narrative theory developed by Hayden White the author examines factual and fictional accounts of world affairs ranging from the anarchy narrative central to mainstream international relations research to novels by Don DeLillo and Milan Kundera Chapters analyzing factual literature flesh out its unacknowledged inventions while those dedicated to fiction explain its political roots and agenda Throughout the distinction between factual and fictional representations of international relations breaks down Social scientific narratives emerge as exercises in rhetoric the art and politics of persuasion through language Artistic narratives surface as real pedagogical lessons and exercises in political activism The volume challenges the autonomy of academic international relations as an exclusive purveyor of serious knowledge about world affairs and calls for active engagement with literary art It will be of interest to scholars of International Relations Political Theory Historiography Cultural Theory and Literary Studies and Criticism **Sourcebook on Rhetoric** , *The Oxford Handbook of Pauline Studies* Matthew V. Novenson, R. Barry Matlock, 2022-03-10 *The Oxford Handbook of Pauline Studies* brings together a diverse international group of experts on the apostle Paul It examines the authentic texts from his own hand other ancient texts falsely attributed to him the numerous early Christian legends about him and the many meanings that have been and still are made of these texts to give a twenty first century snapshot of Pauline Studies Divided into five key sections the Handbook begins by examining Paul the person a

largely biographical sketching of the life of Paul himself to the limited extent that it is possible to do so It moves on to explore Paul in context and Pauline Literature looking in detail at the letters manuscripts and canons that constitute most of our extant evidence for the apostle Part Four uses a number of classic motifs to describe what modern experts describe as Pauline Theology and Part Five considers the many productive reading strategies with which recent interpreters have made meaning of the letters of Paul It is demonstrated that reading Paul is not and never has been just one thing It has always been a matter of the particular questions and interests that the reader brings to these very generative texts The Oxford Handbook of Pauline Studies thoroughly surveys the state of Pauline studies today paying particular attention to theory and method in interpretation It considers traditional approaches alongside recent approaches to Paul including gender race and ethnicity and material culture Brought together the chapters are an ideal resource for teachers and students of Paul and his letters

**International Relations and the Challenge of Postmodernism** D. S. L. Jarvis, 2021-11-24 Assesses current poststructural and postmodern theories and defends international relations as a discipline Promising to stimulate discussion among both those who celebrate the arrival of the Third Debate and those who fear its colonialization and spread D S L Jarvis offers an innovative appraisal of the various postmodern and poststructural theories sweeping the discipline of international relations Citing the work of Richard Ashley Jarvis explores the lineage of postmodern theory its importation into international relations and its transformation from critical epistemology to subversive and deconstructive political program Inspired by a deep seated concern that theory in international relations is becoming increasingly abstract and unrelated to the subject matter scholars strive to understand Jarvis argues that much postmodern and poststructural theory has impoverished our theoretical understanding of global political relations embroiling us in incommensurate discourses and research agendas driven by identity politics By developing a series of critical typologies to assess postmodern and poststructural theories Jarvis mount a ringing defense of the discipline s existing research methods and epistemologies and he suggests that more harm than good has come of the epistemological subversion occasioned by the Third Debate

**Subject Guide to Books in Print** ,1997 *The Rhetoricity of Philosophy* Blake D. Scott,2024-08-02 This book aims to recast the way that philosophers understand rhetoric Rather than follow most philosophers in conceiving rhetoric as a specific way of speaking or writing it shows that rhetoric is better understood as a dimension of all human discourse and action what the author calls rhetoricity This book provides the first philosophical treatment of rhetoricity It is motivated by two ongoing developments The first is the debate between Alain Badiou and Barbara Cassin about philosophy's relation to rhetoric Both Badiou and Cassin are critical of rhetoric albeit for different reasons Second there has been a growing resurgence of interest in rhetoric considering the recent rise in authoritarian politics as well as new forms of propaganda

driven by persuasive technologies This book identifies the common target of Badiou's and Cassin's otherwise incompatible critiques rhetoric's conception of audience It offers a fresh take on the new rhetoric project of Cha m Perelman and Lucie Olbrechts Tyteca putting their work into conversation with the Badiou Cassin debate The book then turns to the hermeneutic philosophy of Paul Ricoeur in search of an expanded conception of audience It shows that Ricoeur's hermeneutic philosophy allows us to extend Perelman and Olbrechts Tyteca's psychological notion of audience to texts themselves and to argue that human beings have a rhetorical capacity to reflect on audiences in search of what is potentially persuasive The Rhetoricity of Philosophy will be of interest to scholars and advanced students working in contemporary European philosophy rhetoric argumentation studies and social theory
