## **Philosophy Of Franz Rosenzweig:**

**Franz Rosenzweig** Franz Rosenzweig, Nahum Norbert Glatzer, 1998-01-01 Franz Rosenzweig was a prominent figure in the development of Jewish existentialism and a major influence on the work Emil Fackenheim amongst others This work offers an array of significant texts and presents Rosenzweig's life in an informative way

**The Philosophy of Franz Rosenzweig** Paul R. Mendes-Flohr, 1988 This volume of essays pays tribute to the philosophical legacy of Franz Rosenzweig 1886-1929 a German Jew who is now celebrated as perhaps the most creative Jewish religious thinker of the twentieth century Despite his brief life he died two weeks shy of his forty third birthday after a heroic struggle to overcome a terrible disease Rosenzweig served to inspire a veritable spiritual and religious renaissance of German Jewry From the midst of assimilation and indeed from the threshold of baptism Rosenzweig affirmed Judaism as a living faith that he deemed to be of urgent relevance to the modern individual Based on the centrality of divine revelation as a historical fact and an existential possibility Rosenzweig's theology led him to abandon his erstwhile pursuit of an academic career as he himself put it one perfectly eligible for a university lectureship and devote himself exclusively to the community of his fellow Jews

**Hegel and the State** Franz Rosenzweig, 2023-11-30 Franz Rosenzweig 1886-1929 is one of the most significant German Jewish philosophers of the twentieth century Published in German in 1920 and now finally available in English for the first time *Hegel and the State* is a major contribution to the understanding of Hegel's political and social thought and a profound analysis of the intellectual currents that shaped the German state in the late nineteenth and early twentieth centuries Through careful readings of Hegel's early handwritten manuscripts Rosenzweig shows that Hegel was wrestling with the problem of how to reconcile the subjectivity and freedom of the individual within a community and ultimately the political state According to Rosenzweig the route out of this conundrum chosen by Hegel shaped his mature political philosophy where he saw the relationship between the individual and the state as reciprocal At a deeper level the significance of Hegel and the State lies in the way that Rosenzweig explains the failure of Hegel's quasi communitarian view of the state to emerge due to the authoritarian direction of the newly unified German state under Bismarck Anticipating the political and moral disaster that was to follow Rosenzweig concludes by questioning the very viability of any theory of the state that relies on the pillars of bureaucratic militarism and a government supported capitalist business culture With the inclusion of a Foreword by Myriam Bienenstock and a substantial Afterword by Axel Honneth *Hegel and the State* is a ground breaking work of early twentieth century philosophical and political thought It is essential reading for students of Hegel German Idealism Jewish philosophy and the origins of critical theory It will also be of interest to those in related subjects such as the history of sociology and German and intellectual history

***The Star of Redemption*** Franz Rosenzweig, 2005-03-15 *The Star of Redemption* is essential reading for anyone interested in understanding religion and philosophy in the twentieth century Fusing philosophy and theology the book assigns both Judaism and Christianity distinct but equally important roles in the

spiritual structure of the world Franz Rosenzweig finds in both biblical religions approaches to a comprehension of reality The major themes and motifs of The Star the birth life death and the immortality of the soul Eastern philosophies and Jewish mysticism the relationship between God world and humanity over time and revelation as the real biblical miracle of faith and path to redemption resonate meaningfully System and Revelation Stéphane Mosès,1992 Jewish philosopher Franz Rosenzweig questioned the whole of Western philosophical tradition and tried to found a new thinking based on the Jewish Christian concept of Revelation System and Revelation the first contemporary comprehensive analysis of Rosenzweig s thinking describes his philosophy as it is presented in his major work The Star of Redemption and highlights its relevance to postmodern thinking The Star of Redemption first published in 1921 has as its background World War I and the bloody collapse of traditional Europe and its values In it Rosenzweig attempted to elaborate a vast theoretical construction that was based upon the most specific categories of Judaism but tended nonetheless to universal signification One of the central assertions of the book was that the history of the West a history that is itself the last avatar of universal history unavoidably rests upon violence and war The first part of The Star of Redemption features a critique of Western rationality which Moses analyzes with forcefulness and clarity In the chapters devoted to the second part of The Star Moses describes the coming into relation of the elements God Man World isolated by the breakup of the Hegelian totality The third part of The Star describes Judaism and Christianity in their sociological reality mainly through the analysis of their sacred time Finally the last chapter addresses the one Truth that transcends both Judaism and Christianity Emphasizing the conceptual structures of Rosenzweig s philosophy its references to cultural and historical data as well as the implicit tensions that undermine the systematical coherence of this thinking Moses underlines some of the most fundamental speculative gestures in Rosenzweig s thought System and Revelation is neither Rosenzweig s spiritual biography nor a study of the whole of his work rather it is a look at Rosenzweig s place within the history of contemporary philosophy through an analysis that is part exposition part commentary and part interpretation Franz Rosenzweig's Philosophy of Existence E.R. Freund,2013-04-17 The Star of Redemption which presents Franz Rosenzweig s system of philosophy begins with the sentence from death vom Tode from the fear of death originates all cognition of the All and concludes with the words into life This beginning and this conclusion of the book signify more than the first and last words of philosophical books usually do Taken together from death into life they comprise the entire meaning of Rosenzweig s philosophy The leitmotif of this philosophy is the life and death of the human being and not the I of philosophical idealism where man ultimately signifies for ethics no more than a point to which it ethics relates its problems as for science also he man is only a particular case of its general laws l Rosenzweig deals with the individual s actual existence that which is terminated by death he speaks of the individual s hic et nunc of his actions and decisions in the realm of concrete reality This philosophy is not an exposition of theoretical principles It is not concerned with man in general in abstract time but rather with the individual human being designated by a proper name living in his

particular time Human existence in its finiteness and temporalness forms the focus in which Rosenzweig's motif can be gathered together

**Franz Rosenzweig and the Systematic Task of Philosophy** Benjamin Pollock, 2009-03-23 Benjamin Pollock argues that Franz Rosenzweig's *The Star of Redemption* is devoted to a singularly ambitious philosophical task grasping the All the whole of what is in the form of a system In asserting Rosenzweig's abiding commitment to a systematic conception of philosophy this book breaks rank with the assumptions about Rosenzweig's thought that have dominated recent scholarship Indeed the *Star*'s importance is often claimed to lie precisely in the way it opposes philosophy's traditional drive for systematic knowledge and upholds instead a new thinking attentive to the existential concerns the alterity and even the revelatory dimension of concrete human life Pollock shows that these very innovations in Rosenzweig's thought are in fact to be understood as part and parcel of the *Star*'s systematic program But this is only the case Pollock claims because Rosenzweig approaches philosophy's traditional task of system in a radically original manner

**Franz Rosenzweig's "The New Thinking"** Alan Udoff, Barbara E. Galli, 1999-04-01 Rosenzweig 1886-1929 who collaborated with Martin Buber on a new German translation of the Bible wrote *The New Thinking* as a supplementary guide to *The Star of Redemption* 1921 Udoff philosophy Baltimore Hebrew U and Galli Judaic Studies U of Alabama present for the first time in translation this essay a letter and reviews treating the *Star of Redemption* and situate Rosenzweig's new Jewish thought and the renewed interest in it in the modern postmodern philosophical spectra Annotation copyrighted by Book News Inc Portland OR

**Hegel and the State** Franz Rosenzweig, 2023-11 Franz Rosenzweig 1886-1929 is one of the most significant German Jewish philosophers of the twentieth century Published in German in 1920 and now finally available in English for the first time *Hegel and the State* is a major contribution to the understanding of Hegel's political and social thought and a profound analysis of the intellectual currents that shaped the German state in the late nineteenth and early twentieth centuries Through careful readings of Hegel's early handwritten manuscripts Rosenzweig shows that Hegel was wrestling with the problem of how to reconcile the subjectivity and freedom of the individual within a community and ultimately the political state According to Rosenzweig the route out of this conundrum chosen by Hegel shaped his mature political philosophy where he saw the relationship between the individual and the state as reciprocal At a deeper level the significance of Hegel and the State lies in the way that Rosenzweig explains the failure of Hegel's quasi-communitarian view of the state to emerge due to the authoritarian direction of the newly unified German state under Bismarck Anticipating the political and moral disaster that was to follow Rosenzweig concludes by questioning the very viability of any theory of the state that relies on the pillars of bureaucratic militarism and a government supported capitalist business culture With the inclusion of a Foreword by Myriam Bienenstock and a substantial Afterword by Axel Honneth *Hegel and the State* is a ground-breaking work of early twentieth-century philosophical and political thought It is essential reading for students of Hegel German Idealism Jewish philosophy and the origins of critical theory It will also be of interest to those in related subjects such as the history of

sociology and German and intellectual history      Franz Rosenzweig's Rational Subjective System Alin V. Bontas, 2011 Franz Rosenzweig's *The Star of Redemption* is best understood as a rational subjective system and as such as the redemptive turning point in philosophy and theology in general. In asserting Rosenzweig's essential commitment to a new systematic conception of thinking as the most basic, deepest and comprehensive intellectual procedure, Franz Rosenzweig's *Rational Subjective System* sheds light on the extensive method of the *Star* and shows it to be rooted in a fundamental rethinking of the methodological and logical metaphysical resources of Kant, most especially of the transcendent metaphysics of the psychological, cosmological and theological substances, i.e. the threefold nothing or *entia rationis*. The true radicality and originality of Rosenzweig, Bontas claims, is the exposition of the rational subjective approach to substance and knowledge on the logical form of the hypothetical thought, i.e. the modal relation of logical consequence between original and non-natural ground and phenomenal consequence that positively establishes the wholly final and non-ideal destinations of redemption, which valorizes the alliance between pure reason and revelation disrupted by the Kantian epistemology. The title *The Star of Redemption* indicates exactly this long rational and not exclusively mundane new systematic principle of coherent and reliable knowledge, which is ultimately shown to be true and right from a self-examining subjective perspective and thereby justified.

**Rosenzweig and Heidegger** Peter Eli Gordon, 2005-09-26 With brilliance and considerable daring, Peter Gordon's *Rosenzweig and Heidegger* broaches the possibility of a shared horizon and a promising dialogue between these two seminal figures, these antipodes of twentieth-century thought. It will be the benchmark for future work in the field. Thomas Sheehan, author of *Heidegger: The Man and the Thinker*. In this brilliant book, Peter Gordon sheds light on Rosenzweig's most important philosophical book, *The Star of Redemption*, by means of an unexpected and sure to be controversial comparison with the philosophy of Heidegger's *Being and Time*. The result is a must-read for anyone with a serious interest in either thinker. Hilary Putnam, author of *The Collapse of the Fact/Value Dichotomy and Other Essays*. A major work, Gordon persuasively argues that the true originality of Rosenzweig's achievement, heretofore associated with a distinctively Jewish break with his German philosophical milieu, only becomes intelligible from within that very milieu. Focusing on resemblances between Rosenzweig's and Heidegger's projects, Gordon discerns the contours of a post-Nietzschean religious sensibility condensed into the paradox of a redemption in the world. This book will be valued by readers of both Heidegger and Rosenzweig and by anyone interested in the intersections of philosophy and religion. Eric L. Santner, author of *On the Psychotheology of Everyday Life: Reflections on Freud and Rosenzweig*. A comparative reading of Rosenzweig's *Star of Redemption* and Heidegger's *Being and Time*. Peter Eli Gordon has written a work of exemplary erudition, analytical nuance, philosophical acumen and expository grace. Paul Mendes-Flohr, author of *German Jews: A Dual Identity*.

**On Jewish Learning** Franz Rosenzweig, 2002 Franz Rosenzweig is one of the greatest contributors to Jewish philosophy in the twentieth century and is with Martin Buber and Abraham Heschel one of the Jewish thinkers most widely read by Christians. On Jewish

Learning collects essays speeches and letters that express Rosenzweig's desire to reconnect the profound truths of Judaism with the lives of ordinary people. An assimilated Jew and scholar of German philosophy, Rosenzweig was on the point of conversion to Christianity when the experience of a Yom Kippur service in 1913 brought him back to Judaism and he began to study with philosopher Hermann Cohen. Seeking how to be an observant Jew in the modern world, Rosenzweig refused to characterize the traditions of Jewish law as mere rituals, customs, and folkways. His aim for himself and for others was to find Judaism by living it and to live it by knowing it more deeply. The Wisconsin edition is not for sale in the British

Commonwealth, the Republic of Ireland, or South Africa. *God, Man, and the World* Franz Rosenzweig, 1998-12-01

Translated here for the first time by Barbara E. Galli, these five lectures and writings of Franz Rosenzweig will be welcomed by both the novice and the veteran student of the great philosopher. Based on his lectures at the Jüdisches Freies Lehrhaus, the famous Jewish Institute of Adult Education, the essays include notes for a group of lectures of 1920, Faith and Knowledge, followed by a three-part lecture series of 1922, The Science of God, The Science of Man, and the Science of World. The pieces form a powerful whole. Not only does this book further our understanding of Rosenzweig's daunting work, *The Star of Redemption*, a seemingly inexhaustible text, but of Rosenzweig's primary principles: that of the irreducibility of God, human being, and world, and of the needfulness of relation and of time for the nourishment of truth and cognition. He expounds on his premise that faith and knowledge are interdependent and that knowledge is derivative of faith. **Understanding the Sick**

**and the Healthy** Franz Rosenzweig, 1999. Rosenzweig, one of the century's great Jewish thinkers, wrote his book in 1921 as an accessible preface to his famous *Star of Redemption*. An elegant introduction to Rosenzweig's new thinking, this book puts forth an important critique of the 19th-century German Idealist philosophical tradition and expresses a powerful vision of Jewish religion. **Franz Rosenzweig's Philosophy of Existence** Else Freund, 1979. ["Into Life." Franz Rosenzweig on](#)

[Knowledge, Aesthetics, and Politics](#), 2021-07-26. The articles collected in *Into Life* by Franz Rosenzweig on Knowledge, Aesthetics, and Politics focus on the significance of Franz Rosenzweig's work far beyond the realms of theology and philosophy of religion. They engage with a wide range of issues in philosophy and offer new insights both by presenting an array of unpublished and underestimated sources and by bringing Rosenzweig's thought into dialogue with new approaches and interlocutors such as Stanley Cavell, William Alston, Carl Schmitt, and Martin Heidegger. The result is a refreshing and original perspective on the work of one of the most significant thinkers of the twentieth century. **The Philosophy of**

Leora Faye Batnitzky, 2000. Although Franz Rosenzweig is arguably the most important Jewish philosopher of the twentieth century, his thought remains little understood. Here Leora Batnitzky argues that Rosenzweig's redirection of German Jewish

ethical monotheism anticipates and challenges contemporary trends in religious studies ethics philosophy anthropology theology and biblical studies This text which captures the hermeneutical movement of Rosenzweig s corpus is the first to consider the full import of the cultural criticism articulated in his writings on the modern meanings of art language ethics and national identity In the process the book solves significant conundrums about Rosenzweig s relation to German idealism to other major Jewish thinkers to Jewish political life and to Christianity and brings Rosenzweig into conversation with key contemporary thinkers Drawing on Rosenzweig s view that Judaism s ban on idolatry is the crucial intellectual and spiritual resource available to respond to the social implications of human finitude Batnitzky interrogates idolatry as a modern possibility Her analysis speaks not only to the question of Judaism s relationship to modernity and vice versa but also to the generic question of the present s relationship to the past a subject of great importance to anyone contemplating the modern statuses of religious tradition reason science and historical inquiry By way of Rosenzweig Batnitzky argues that contemporary philosophers and ethicists must relearn their approaches to religious traditions and texts to address today s central ethical problems      *Franz Rosenzweig's Philosophy of Existence* P.
