

WHAT IS HUMANISM?

Humanism is a Renaissance cultural movement which turned away from medieval scholasticism and revived interest in ancient Greek and Roman thought.

Humanism is an approach to life based on reason and our common humanity, recognizing that moral values are properly founded on human nature and experience alone.

Humanists reject the idea or belief in a supernatural being such as God. This means that humanists class themselves as agnostic or atheist.

Rhetoric and Philosophy in Renaissance Humanism Jerrold E. Seigel, 2015-12-08 The combination of rhetoric and philosophy appeared in the ancient world through Cicero and revived as an ideal in the Renaissance By a careful and precise analysis of the views of four major humanists Petrarch Salutati Bruni and Valla Professor Seigel seeks to establish that they were first of all professional rhetoricians completely committed to the relation between philosophy and rhetoric He then explores the broader problem of the external history of humanism and reopens basic questions about Renaissance culture He departs from the views held by such scholars as Hans Baron and Lauro Martines and expands the conclusions suggested by Paul Oskar Kristeller The result is a stimulating controversial study that rejects some of the claims made for the humanists and indicates achievements and limitations Originally published in 1968 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The**

The Philosophy of Humanism Viscount Haldane,2017-09-15 Excerpt from The Philosophy of Humanism And of Other Subjects IN an early passage in his Metaphysics Aristotle pro nounces the views of his predecessors to be tainted with an artificial character Of this he sets himself to get rid in his own View of the object world Surely he says it is not likely either that fire or earth or any such element should be the reason why things manifest goodness and beauty both in their being and their coming to be or that those thinkers should have supposed it was nor again could it be right to ascribe so great a matter to spontaneity and luck When one man declared then that reason was present as in animals so throughout nature being the cause of the world and of all its order he seemed like a sober man in contrast with the random talk of his predecessors Those who thought thus stated that there is a principle of things which is at the same time the cause of beauty and that sort of cause from which things acquire movement It is more than two thousand years since Aristotle said this In the interval there has been enormous progress in knowledge of certain orders Turning to facts and applying methods for exact observation and measurement the science of to day has grown About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
