**The End of Literary Theory** Stein Haugom Olsen,1987-03-19 The essays in this collection are concerned with the philosophical problems that arise in connection with the understanding and evaluation of literature such problems as the relationship between the work and the author authorial intention between the work and the world reference and truth the definition of a literary work and the nature of literary theory itself Professor Olsen attacks many of the orthodoxies of modern literary theory in particular the enterprise to build a comprehensive systematic literary theory His own work is informed by a consistent perspective the assumption that literature is a social institution governed by conventions and that answers to problems of interpretation and appreciation can be found only through an analysis of these conventions This is an important book for scholars and students of literary theory and philosophy especially for those who see an ever increasing cross fertilization between the two disciplines

**Literary Theory** Clare Connors, 2010-05-01 Rescuing the subject from deadly dry theorists and isms Clare Connors focuses on the real questions that emerge when we read and study literature such as how we find meaning and how literature relates to its historical context before exploring the response of theorists Using selections from works including poetry by Christina Rossetti and Annie Proulx's *Brokeback Mountain* Connors unites theory with practice revealing how enjoyable it is to think about reading

**Modern Criticism and Theory** Nigel Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories *Modern Criticism and Theory* has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

**The Smart Student's Guide to Modern Literary Theory** Martin Asiner, 2014-01-24

Understanding modern literary theory is a challenge even for the erudite individual. *The Smart Student's Guide to Modern Literary Theory* will clear away most of the jargon and convoluted prose found in essays and texts on theory. If you need detailed help on theories like deconstruction, Marxism, feminism, Russian Formalism, structuralism, archetypal criticism, postmodernism, New Criticism, phenomenology, and Reader Response criticism, this book will prove invaluable to literature majors, especially those taking a course in Literary Theory, and students of history and philosophy. More than thirty theorists are covered, including but not limited to T. Adorno, L. Althusser, M. Bakhtin, R. Barthes, J. Baudrillard, M. Beardsley, W. Benjamin, H. Cixous, S. de Beauvoir, P. de Man, J. Derrida, F. de Saussure, S. Fish, M. Foucault, N. Frye, H. Gadamer, M. Heidegger, E. Husserl, L. Irigaray, W. Iser, J. Kristeva, J. Lacan, C. L. Strauss, J. F. Lyotard, K. Marx, and V. Shklovsky. Each of these theorists is introduced in a context that places him/her in a continuum of history, philosophy, literature, and politics. A summary of chosen well-anthologized essays and excerpted chapters follows, that highlights the text on a near-paragraph-by-paragraph basis. Next is an analysis that provides a full linguistic, stylistic, and logical interpretation; this is the part that your professors will be surprised that you know. Finally, there is a wrap-up essay/question of the type that you might find on an exam or can use as a starting point for a research project. And of course, there is a lengthy multi-paragraph response. The prose style is suitable for both undergraduate and graduate students. High school and college/university instructors will find this book a useful aid for lesson planning. Finally, you need not even be a student enrolled in a formal course to benefit. For those who are out of school and have an intellectual bent, you will discover just what all the hoopla is about the next time someone else starts discussing theory, and you want to join in. Now you can. *The Smart Student's Guide to Modern Literary Theory* is no easy read. It is indeed a challenge, but the knowledge contained herein is part of what it means to know why and how literature affects us the way it does.

**Theory Into Practice** K. M. Newton, 1992. This book brings together essays by major critics to help a general literary readership gain a better understanding of the various types of theory/criticism, see theory being applied to practice powerfully and persuasively, and encourage students to use theory in their own critical writing. Essays by Victor Shklovsky, David Lodge, Stanley Fish, and Catherine Belsey are included.

**The Emergence of Literature** Jacob Bittner, 2020-01-23. *The Emergence of Literature* is an extension and reworking of a series of significant propositions in philosophy and literary theory: Jean-Luc Nancy and Philippe Lacoue-Labarthe's examination of the concept of the literary absolute; Martin Heidegger's destruction; Giorgio Agamben's archaeology of the metaphysics of will; Maurice Blanchot's delimitation of the space of literature; and Michel Foucault's archaeology of literature. Its core contribution to the history of theory is to understand the literary absolute not simply as a philosophical concept but as a paradigm that delimits the horizon for currents of literary theory through the course of the 20th century, where the literary criteria change from the theme of sincerity to the theme of the death of the author. Stretching from Kant to Hegel, from Herder to the Early German Romantics, from John Stuart Mill to New Criticism, from Benjamin to Barthes, *The Emergence of Literature* examines the relation

between continental philosophy and literature in the post Kantian era      **Literary Criticism from Plato to the Present** M. A. R. Habib, 2011-01-31 *Literary Criticism from Plato to the Present* provides a concise and authoritative overview of the development of Western literary criticism and theory from the Classical period to the present day An indispensable and intellectually stimulating introduction to the history of literary criticism and theory Introduces the major movements figures and texts of literary criticism Provides historical context and shows the interconnections between various theories An ideal text for all students of literature and criticism      **Theory That Matters** Kacper Bartczak, Małgorzata Myk, 2014-08-11 Covering an impressive scope of subjects in literary and cultural theory from Freud Heidegger and Barthes to Fish Rorty and Bhabha *Theory That Matters* offers a welcome up to date assessment of the state of the discipline Such a recapitulation serves as a point of departure for the examinations of the new practices across the arts and media and of the innovative interpretative tools suggested by these practices The contributors take their examples from an amazing variety of contexts and thus prove that the very dynamics of theory is a fascinating phenomenon Succeeding several recent anthologies that have cast doubt on the aims of theory the present volume launches its defence and at the same time demonstrates that this is not to be achieved at the expense of praxis The book clearly shows that theory owes its currency to its multiple functions among others as a procedure of interpretation a vehicle for philosophical reflection and a formulation of an ideological stance Marek Paryz Associate Professor Institute of English Studies University of Warsaw Editor of the Polish Journal for American Studies      **From Romanticism to Critical Theory** Andrew Bowie, 2012-10-12 *From Romanticism to Critical Theory* explores the philosophical origins of literary theory via the tradition of German philosophy that began with the Romantic reaction to Kant It traces the continuation of the Romantic tradition of Novalis Friedrich Schlegel and Schleiermacher in Heidegger's approaches to art and truth and in the Critical Theory of Benjamin and Adorno Andrew Bowie argues against many current assumptions that the key aspect of literary theory is not the demonstration of how meaning can be deconstructed but rather the revelation of how questions of language and literature change modern philosophical conceptions of truth He shows how the dialogue between literary theory hermeneutics and analytical philosophy can profit from a re-examination of the understanding of language truth and literature in modern German philosophy *From Romanticism to Critical Theory* will provide a vital new introduction to central theoretical questions for students of philosophy literature German studies cultural and social theory      **Hope and Feminist Theory** Rebecca Coleman, Debra Ferreday, 2013-12-16 Hope is central to marginal politics which speak of desires for equality or simply for a better life Feminism might be characterised as a politics of hope a movement underpinned by a utopian drive for equality This version of hope has been used for example in Barack Obama's phrase the audacity of hope a mobilisation of an affirmative politics which nevertheless implies that we are living in hopeless times Similarly in recent years feminism has seen the production of a prevailing mood of hopelessness around a generational model of progress which is widely imagined to have failed However

as a number of feminist theorists have pointed out the temporality of feminism cannot be conceived as straightforwardly linear feminism can only be imagined as having failed if it is understood as a particular set of relations and things This collection grapples with the question of hope how it figures and structures feminist theory as both a movement towards certain goals and as inherently hopeful Questions addressed include Does hope necessarily imply a fantasy of perfectibility a progression to a utopian future Might it also be conceived in other ways as an attachment A lure Does life tend towards hope happiness optimism And if so what are the consequences when hope fails Who decides which hopes are false What is the cost of giving up hope This book was published as a special issue of the Journal for Cultural Research

**Interpreting New Testament Narratives** Eric J. Douglass, 2018-10-02 Narratives are the concrete manifestation of an author's subjectivity They function as that person's voice and should be treated with the same respect that is granted to all voices In *Interpreting New Testament Narratives* Eric Douglass develops this ethical perspective so that narratives are treated as communication and the author's voice is regarded as a valued perspective Employing a cross disciplinary approach Douglass shows how readers engage narratives as mental simulations creating a temporary possible world that readers enter and experience To recover communication readers locate the events of this world in the culture of the intended audience and translate this meaning into the modern reader's worldview Using a staged reading design this initial reading is followed by readings of critique
