Philosophy Of Religion A Universalist Perspective:

Philosophy of Religion Marvin C. Sterling, 1993 *Philosophy of Religion* seeks to clarify and evaluate the key concepts of religion as well as those which are uniquely characteristic of particular religious traditions *The Essentials of Universalism* Nicholas Hagger, 2024-10-29 In *A Baroque Vision* Nicholas Hagger chose key passages from his verse that convey the thread of his Baroque vision In its companion volume *The Essentials of Universalism* he chooses key passages from his prose works that convey the thread of his Universalism which grew out of his Baroque perspective Hagger's literary mystical religious philosophical historical cultural and political Universalist writings are innovatory In 60 books he has set out a new approach to literature and identified its fundamental theme as a quest for the One an infinite Reality perceived as Light that alternates with condemnation of social follies and vices presented many mystics illuminations seen the Light as the common essence of all religions created a new philosophy of Universalism that restates the unity of the universe and challenges modern philosophy charted the history of the rise and fall of civilisations reconciled the divisions within world culture and proposed a democratic World State with limited supranational power to abolish war and bring in a Golden Age of peace and prosperity *The Essentials of Universalism* is a stunning anthology of his writings that covers all aspects of his thinking and range Chosen by the author himself the excerpts include the most important passages in the Hagger canon and are representative of his vast output Since the book was completed Hagger has brought out *The Algorithm of Creation* the first ever statement of a Theory of Everything and a further development of his Universalism This anthology makes clear the main thrust of his life's work and is required reading for all interested in seeing how his many innovations connect *Why Religion? Towards a Critical Philosophy of Law, Peace and God* Dawid Bunikowski, Alberto Puppo, 2020-02-11 This book examines the relation between religion and jurisprudence God and peace respectively It argues that in order to elucidate the possible role religion can play in the contemporary world it is useful to analyse religion by associating it with other concepts Why peace Because peace is probably the greatest promise made by religions and the greatest concern in the contemporary world Why jurisprudence Because quoting Kelsen's famous book *Peace through Law* peace is usually understood as something achievable by international legal instruments But what if we replace *Peace through Law* with *Peace through Religion* Does law as an instrument for achieving peace incorporate a religious dimension Is law ultimately a religious and normative construction oriented to peace to the protection of humanity in order to keep humans from the violence of nature Is the hope for peace rational or just a question of faith Is religion itself a question of faith or a rational choice Is the relatively recent legal concept of responsibility to protect a secular expression of the oldest duty of humankind The book follows the structure of interdisciplinary research in which the international legal scholar the moral philosopher the philosopher of religion the theologian and the political scientist contribute to the construction of the necessary bridges Moreover it gives voice to different monotheistic traditions and more importantly it analyses religion in the various dimensions in which it determines

the authors cultures as a set of rituals as a source of moral norms as a universal project for peace and as a political discourse

The Evangelical Universalist Gregory MacDonald, Robin A. Parry, 2012-05-11 Can an orthodox Christian committed to the historic faith of the church and the authority of the Bible be a universalist Is it possible to believe that salvation is found only by grace through faith in Christ and yet to maintain that in the end all people will be saved Can one believe passionately in mission if one does not think that anyone will be lost forever Could universalism be consistent with the teachings of the Bible Gregory MacDonald argues that the answer is yes to all of these questions Weaving together philosophical theological and biblical considerations MacDonald seeks to show that being a committed universalist is consistent with the central teachings of the biblical texts and of historic Christian theology This second edition contains a new preface providing the backstory of the book two extensive new appendices a study guide and a Scripture index *Orientalism and Religion* Richard

King, 2013-04-03 *Orientalism and Religion* offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology *Consolationism and*

Comparative African Philosophy Ada Agada, 2021-11-18 In a major challenge to African philosophy this book demonstrates the importance of the universalisation question for every committed African philosopher Rooted in Africa s colonial legacy the universalisation question challenges the African thinker to show how authentically African philosophical concepts and phenomena can be universally applicable in a globalising world In this highly original book the author inserts the philosophy of consolationism into African philosophical discourse constructing a unique philosophical system that is at once African and universally relevant The book engages major African and Western philosophers of diverse ideological leanings in a compelling dialogue that announces the future of world philosophy as one of interculturality in which a common philosophical horizon is forged out of the cultural diversities of the world for the edification of humanity in a continually changing world This book will be an important read for researchers in the fields of African Studies intercultural philosophy philosophy of mind and existentialism *Ernst Bloch and His Contemporaries* Ivan Boldyrev, 2014-02-27 Ernst Bloch and His

Contemporaries is a much needed concise yet comprehensive overview of Ernst Bloch s early and later thought It fills an important gap in research on the history of German thought in the 20th century by reconstructing the contexts of Bloch s philosophy while focusing on his contemporaries Georg Luk cs Walter Benjamin and Theodor Adorno Ernst Bloch s influential ideas include his theory of utopian consciousness his resolute inclination to merge aesthetics and politics rehabilitation of hope and atheistic conception of Christianity Although Bloch s major early texts *Spirit of Utopia* and *Traces* have recently been translated into English and there has been renewed interest in Bloch over the last 15 years he is still relatively unknown

compared to other left German Jewish intellectuals Ivan Boldyrev places Bloch's often enigmatic prose within contexts more familiar to English speaking readers and outlines the most important messages in Bloch's legacy still relevant today to European intellectual discourse in particular aesthetics and philosophy of history *Collected Prefaces* Nicholas Hagger, 2022-04-29 Nicholas Hagger's 55 books include innovative works on literature history philosophy and international politics In his first published literary work he revived the Preface which had fallen into disuse after Wordsworth and Shelley He went on to write Prefaces sometimes called Prologues Introductions or Introductory Notes for all his subsequent books *Collected Prefaces* a collection of 55 Prefaces excluding the Preface to this book sets out his thinking and the reader can follow the development of his philosophy of Universalism of which he is the main exponent his literary approach particularly his combination of Romanticism and Classicism which he calls neo Baroque and his metaphysical thinking His Prefaces can be read as essays and as in T S Eliot's *Selected Essays* there is an interaction between adjacent Prefaces that brings an entirely new perspective to Hagger's works These Prefaces cover an enormous range Nicholas Hagger is a Renaissance man at home in many disciplines His Universalism focuses on humankind's relationship to the whole universe as reflected in seven key disciplines seen as wholes the whole of literature history philosophy and the sciences mysticism religion international politics and statecraft and world culture Behind all the Prefaces is Hagger's fundamental perception of the unity of the universe as the One and of humankind's position in it These Prefaces complement his *Selected Letters* a companion volume also published by O Books and contain startling insights that illumine and send readers to the works the Prefaces introduce

Multicultural Education in Glocal Perspectives Yun-Kyung Cha, Jagdish Gundara, Seung-Hwan Ham, Moosung Lee, 2016-11-15 This conceptually rich and empirically grounded book draws upon expertise from a panel of emerging and established international scholars to explore the institutionalization and effect of multicultural education on a global scale Previous studies of multicultural education have largely ignored the significance of understanding the combination of multiple sociopolitical influences on multicultural education in both policy and practice Filling this void this book sheds light on the two main reasons for taking a glocal perspective on multicultural education First children should be provided with meaningful learning opportunities to acquire the knowledge skills and attitudes necessary to live in a culturally and ethno linguistically diverse society where the distinction between the local and the global is becoming blurred Second understanding both the global grammar and the local semantics of multicultural education helps researchers and policy makers grasp the whole picture of multicultural education as an evolving social construct and phenomenon This new book provokes a new round of discussion and research to expand and enrich our inquiry into cultural diversity and educational inclusion *Critical Perspectives on Christian Education* Jeff Astley, Leslie J. Francis, 1994 *Faith in the Enlightenment?* Lieven Boeve, 2006 One of the urgent tasks of modern philosophy is to find a path between the rationalism of the Enlightenment and the relativism of postmodernism Rationalism alone cannot suffice to solve today's problems but neither

can we dispense with reasonable critique The task is to find ways to broaden the scope of rational thought without losing its critical power The first part of this volume explores the ideas of Enlightenment philosophers and shows nuances often absent from the common view of the Enlightenment The second part deals with some of the modern heirs of Enlightenment such as Durkheim Habermas and Derrida In the third part this volume looks at alternatives to Enlightenment thought in West European Russian and Buddhist philosophy Part four provides over against the Enlightenment a new starting point for the philosophy of religion in thinking about human beings God and the description of phenomena

Rethinking Ibn 'Arabi
Gregory A. Lipton, 2018-04-02 The thirteenth century mystic Ibn Arabi was the foremost Sufi theorist of the premodern era For more than a century Western scholars and esotericists have heralded his universalism arguing that he saw all contemporaneous religions as equally valid In Rethinking Ibn Arabi Gregory Lipton calls this image into question and throws into relief how Ibn Arabi's discourse is inseparably intertwined with the absolutist vision of his own religious milieu that is the triumphant claim that Islam fulfilled superseded and therefore abrogated all previous revealed religions Lipton juxtaposes Ibn Arabi's absolutist conception with the later reception of his ideas exploring how they have been read appropriated and universalized within the reigning interpretive field of Perennial Philosophy in the study of Sufism The contours that surface through this comparative analysis trace the discursive practices that inform Ibn Arabi's Western reception back to the eighteenth and nineteenth century study of authentic religion where European ethno racial superiority was wielded against the Semitic Other both Jewish and Muslim Lipton argues that supersessionist models of exclusivism are buried under contemporary Western constructions of religious authenticity in ways that ironically mirror Ibn Arabi's medieval absolutism

African Church Fathers - Ancient and Modern
Hans S. A. Engdahl, 2021-01-26 This critical and close reading of two African theologians Origen 185-254 and Mbiti 1931-2019 focuses on the following areas philosophy African philosophy and religion and Platonic cosmology ecclesiology and eschatology a parallel presentation of these three themes leads to a fourth theme that of the resurrection where it is argued that there exists a consensus and a convergence between the two This reading also highlights two convictions that partly have caused strong criticism Mbiti has suggested that African philosophy and religion have a conception of time of their own Origen that all and everything is gradually moving towards an apokatastasis at which point all will be saved Yet the contention is that even more important to both Mbiti and Origen is the resurrection of Jesus Christ In order to establish the impact of the resurrection on their lives as Christians and as theologians a contrast reading has been undertaken i.e. texts are identified which underline the need to forge a link between the resurrection and the earthly ministry of Jesus These texts also underwrite the conviction of Mbiti as well as Origen of the resurrection as something which must be lived in church and society corporately as well as in personal devotion The fact of resurrection creates a new mode of life

Intercultural Hermeneutics - Understanding Culture and Religion
Chibueze Udeani, 2021-01-10 New hermeneutical challenges abound within the process of globalisation

especially as they pertain to culture and religion. Consequently a new form of hermeneutics approached from an intercultural perspective is needed. This requires if not a new set of hermeneutical tools then at least a serious profound and critical analysis and constructive adaptation of the already available set of hermeneutical tools. Intercultural hermeneutics in the understanding of religion and culture and among cultures and religions is being proposed here as this new form of art or science of understanding.

Chibueze C Udeani is of Igbo origin and currently professor of missiology and dialogue of religions at Julius Maximilian's university Würzburg, Germany.

Unitarian-Universalist Views on Issues in Human Sexuality Paul H. Landen, 1992

The Secret American Destiny Nicholas Hagger, 2016-11-15. In this final work of his American trilogy, Nicholas Hagger focuses on the unified World State, it is America's secret destiny to create and on the world's divided culture that impedes its creation. Throughout world culture, there are conflicting and entrenched metaphysical and secular approaches that permeate all its main disciplines including history, philosophy, and science literature and comparative religion. In each discipline, there is a tussle between the traditional religious view which is supported by the 4.6 billion of the world's 7.3 billion population that follow a religion and the secular and social approach associated with humanism and the scientific reductionism of Hawking and Dawkins which sees the universe as a random accident. Hagger argues that it is America's secret destiny to bring in a democratic UN-based partly federal World State that can unify humankind. The conflict between metaphysical and secular approaches can be healed within a new reconciling philosophy that unites both outlooks. Universalism, which is already making an impact in the US, is the key to this reconciliation, focusing on the scientific view of the order in the universe and on the experience of the common essence which resides in all religions: the belief in the ordering Light and on the traditional view of order in the seven disciplines of world culture. This reconciliation can reunify each discipline and therefore world culture and create world unity. Restoring the metaphysical vision of order in world culture can strengthen America's harmonizing of humankind within a World State based on political Universalism.

The Universalist Leader, 1925

Swinburne's Hell and Hick's Universalism Lindsey Hall, 2017-11-01. This title was first published in 2003. This book seeks to establish whether a Christian position must entail a belief in hell or whether Christians can hold a coherent theory of universal salvation. Richard Swinburne's defence of hell depends on the argument that hell is necessary if humans are to be genuinely free. It becomes clear that the contemporary discussion of hell and universalism cannot be separated from the issues of human freedom and God's knowledge, and so Hall centres the discussion round the question: Are we free to reject God? John Hick argues that although we are free to reject God, there will eventually be a universalist outcome. Having examined the contrasting arguments of Hick and Swinburne, Hall builds on Hick's position to develop an argument for Christian universal salvation which holds in balance our freedom in relation to God and the assurance that all will finally be saved.

Jewish Theology and World Religions Alon Goshen-Gottstein, Eugene Korn, 2012-04-05. The contributors to this volume represent a range of disciplines and denominations within Judaism and

share the conviction that articulating contemporary Jewish views of other world religions is an urgent objective for Judaism. Their essays show why a Jewish theology of world religions is a priority for Jewish thinkers and educators concerned with reinvigorating Judaism's contribution to the contemporary world and maintaining Jewish identity and continuity. Of Heretics and Martyrs in Meiji Japan James Edward Ketelaar, 2020-12-08. How did Buddhism so prominent in Japanese life for over a thousand years become the target of severe persecution in the social and political turmoil of the early Meiji era? How did it survive attacks against it and reconstitute itself as an increasingly articulate and coherent belief system and a bastion of the Japanese national heritage? Here James Ketelaar elucidates not only the development of Buddhism in the late nineteenth century but also the strategies of the Meiji state.
