John Stuart Mill, 1867      **Philosophy of Sir William Hamilton, Bart** Sir William Hamilton (bart.), 1866      **Sir William Hamilton: the philosophy of perception** James Hutchison Stirling, 1865      *An Examination of Sir William Hamilton's Philosophy* John Stuart Mill, 1979-12-15 An Examination of Sir William Hamilton's Philosophy first published in 1865 with a second edition in the same year and third and fourth editions in 1867 and 1872 has long been out of print The Examination was for his contemporaries a most significant and popular work presenting an extended treatment of some matters central to empiricism that found little space in Mill's Logic the best known being his treatment of matter and mind from a psychological viewpoint Appearing just before

his successful parliamentary candidature the Examination with its deliberate and explicit onslaught on the intuitionists who were in Mill's view allied with anti progressive political and religious forces brought his beliefs into the public arena in a new way. Some of those who supported him politically found themselves viciously attacked because they had associated themselves with one who assailed settled religious beliefs. Other religionists who rejected many of Mill's attitudes strongly expressed their admiration of the Examination because of its exposure to what they with him saw as dangerous theological and moral positions. Alan Ryan's analytical and historical introduction dwells on the most significant philosophical elements in the work placing them in perspective and showing their relations to other aspects of Mill's thought. The textual introduction by John M. Robson examines the treatise in context of Mill's life in the 1860s outlines its composition and discusses among other matters the importance of the extensive revisions Mill made mostly in response to critics. These revisions appear in full in the textual apparatus. Also provided are a bibliographical index which gives a guide to the literature on the subject and a collation of Mill's quotations an analytical index and appendices giving the reading of manuscript fragments and listing textual emendations.
