Philosophy And Psychology In The Abhidharma:

Philosophy and Psychology in the Abhidharma Herbert V. Guenther, 2011-01-01 The study of the Abhidharma is indispensable for understanding the history of Buddhist philosophy and practice This book gives a synoptic view of the significance of the Abhidharma as presented by the Theravadins and brought to its climax by the Vaibhasikas and Yogacara Vijnanavadins It analyzes the concepts of Mind and its States concerning healthy and unhealthy attitudes towards life and deals with the psychological factors and problems in Meditation which is geared to an individual's capacity and temperament Theories of perception a predominant feature of Indian and Buddhist philosophies are discussed together with the interpretation of the world based on these theories as well as their critiques The discussion of the Path as conceived by the various schools concludes this survey of the Abhidharma Of particular significance are the accompanying tables of the structure of mind in Buddhist philosophy Philosophy and Psychology in the Abhidharma Herbert V. Guenther, 19??

Philosophy and Psychology in Abhidharma Herbert V. Guenther, 1974-05-12 *The Theravada Abhidhamma* Y. Karunadasa, 2019-08-27 A lucid explanation of the basic contours of the Theravada Abhidhamma system for serious students of Buddhist thought The renowned Sri Lankan scholar Y Karunadasa examines Abhidhamma perspectives on the nature of phenomenal existence He begins with a discussion of dhamma theory which describes the bare phenomena that form the world of experience He then explains the Abhidhamma view that only dhammas are real and that anything other than these basic phenomena are conceptual constructs This he argues is Abhidhamma's answer to common sense realism the mistaken view that the world as it appears to us is ultimately real Among the other topics discussed are the theory of double truth ultimate and conceptual truth the analysis of mind the theory of cognition the analysis of matter the nature of time and space the theory of momentary being and conditional relations The volume concludes with an appendix that examines why the Theravada came to be known as Vibhajjavada the doctrine of analysis Not limiting himself to abstract analysis Karunadasa draws out the Abhidhamma's underlying premises and purposes The Abhidhamma provides a detailed description of reality in order to identify the sources of suffering and their antidotes and in doing so to free oneself The Psychological Attitude of Early Buddhist Philosophy and Its Systematic Representation According to the Abhidhamma Tradition Anagarika Brahmacari Govinda, Lama Anagarika Govinda, 1961 *The Embodied Mind, revised edition* Francisco J. Varela, Evan Thompson, Eleanor Rosch, 2017-01-06 A new edition of a classic work that originated the embodied cognition movement and was one of the first to link science and Buddhist practices This classic book first published in 1991 was one of the first to propose the embodied cognition approach in cognitive science It pioneered the connections between phenomenology and science and between Buddhist practices and science claims that have since become highly influential Through this cross fertilization of disparate fields of study The Embodied Mind introduced a new form of cognitive science called enaction in which both the environment and first person experience are aspects of embodiment However enactive embodiment is not the grasping of an independent

outside world by a brain a mind or a self rather it is the bringing forth of an interdependent world in and through embodied action Although enacted cognition lacks an absolute foundation the book shows how that does not lead to either experiential or philosophical nihilism Above all the book s arguments were powered by the conviction that the sciences of mind must encompass lived human experience and the possibilities for transformation inherent in human experience This revised edition includes substantive introductions by Evan Thompson and Eleanor Rosch that clarify central arguments of the work and discuss and evaluate subsequent research that has expanded on the themes of the book including the renewed theoretical and practical interest in Buddhism and mindfulness A preface by Jon Kabat Zinn the originator of the mindfulness based stress reduction program contextualizes the book and describes its influence on his life and work Psychology in the Indian Tradition K. Ramakrishna Rao, Anand C. Paranjpe, 2015-09-03 This authoritative volume written by two well known psychologist philosophers presents a model of the person and its implications for psychological theory and practice Professors Ramakrishna Rao and Anand Paranjpe draw the contours of Indian psychology describe the methods of study explain crucial concepts and discuss the central ideas and their application illustrating them with insightful case studies and judicious reviews of available research data and existing scholarly literature The main theme is organized around the thesis that psychology is the study of the person and that the person is a unique composite of body mind and consciousness The goal of the person is self realization Self realization consists in the realization of one s true self as distinct from the manifest ego and it is facilitated by cultivating consciousness Cultivating consciousness leads to a kind of psycho spiritual symbiosis resulting in personal transformation altruistic value orientation and flowering of the hidden human potential **Studies in the Aṣṭasāhasrikā Prajñāpāramitā and Other Essays** Linnart Mäll, 2005 A considerable part of the book is devoted to the study of the Astasahasrika Prajnaparamita one of the most important scriptures of Mahayana Buddhism This text marks a breakthrough in Buddhism since it provides an explanation for the emergence of written texts which gradually replaced the previously predominant oral tradition The analysis of the text is based on the key terms of the sutra dharma bodhisattva and prajnaparamita Also some non Buddhist texts are treated in the book the Bhagavadgita and the Daodejing are compared as the light path and the dark path respectively the Daodejing is separately analysed as a schematic text what offers new possibilities of translation The three jewels : the central ideals of Buddhism Sangharakshita, 2005-08-15 In the present volume of Yoga Unveiled Part II the author stress upon to think in harmony with modern ideas and to take a fresh rational empirical pragmatic view of different philosophies and different types of Yoga He traces very clearly how science has vindicated vedanta and Jnana Yoga and the Doctrine of Maya of Sanskara In the later part Mysticism and its psychology different schools of Mysticism or Yoga including Buddhist Mysticism and Karma Yoga and Hatha Yoga etc are dealt with The author concludes that Jnana Yoga is Philosophic psychological and psycoomatic Patanjala Astang Yoga is Physic psychological and philosophical Buddhism is pure psychology of conciousness and the Zen is psychoanalytical Language words and

concepts are termed as distorting mechanism

The Psychological Attitude of Early Buddhist Philosophy and Its Systematic Representation According to Abhidhamma Tradition Lama Anagarika Govinda, Anagarika Brahmacari Govinda, 1974

Merleau-Ponty and Buddhism Gereon Kopf, Jin Y. Park, 2009-08-13 Merleau Ponty and Buddhism explores a new mode of philosophizing through a comparative study of Maurice Merleau Ponty's phenomenology and philosophies of major Buddhist thinkers such as Nagarjuna Chinul Dogen Shinran and Nishida Kitaro Challenging the dualistic paradigm of existing philosophical traditions Merleau Ponty proposes a philosophy in which the traditional opposites are encountered through mutual penetration Likewise a Buddhist worldview is articulated in the theory of dependent co arising or the middle path which comprehends the world and beings in the third space where the subject and the object or eternalism and annihilation exist independent of one another The thirteen essays in this volume explore this third space in their discussions of Merleau Ponty's concepts of the intentional arc the flesh of the world and the chiasm of visibility in connection with the Buddhist doctrine of no self and the five aggregates the Tiantai Buddhist concept of threefold truth Zen Buddhist huatou meditation the invocation of the Amida Buddha in True Pure Land Buddhism and Nishida's concept of basho In his philosophical project Merleau Ponty makes vigorous efforts to challenge the boundaries that divide philosophy and non philosophy the East and the West experience and concepts the subject and the object and body and mind Combining the Eastern philosophical tradition of Buddhism with Merleau Ponty's phenomenology Merleau Ponty and Buddhism offers an intercultural philosophy in which opposites intermingle in a chiasmic relationship and which brings new understanding regarding the self and the self's relation with others in a globalized and multicultural world

The Foundations of Buddhism Rupert Gethin, 1998-07-16 In this introduction to the foundations of Buddhism Rupert Gethin concentrates on the ideas and practices which constitute the common heritage of the different traditions of Buddhism Theravada Tibetan and Eastern which exist in the world today

Cetana and the Dynamics of Volition in Theravada Buddhism Nalini Devdas, 2008-01-01

What do the scriptures of Theravada Buddhism have to say about the most basic psychological processes through which alternatives are assessed purposes are developed and goal oriented acts are initiated How can Theravada make volitional endeavour central to Buddhist practice while denying the existence of a self who wills How can the text emphasize ethical striving and yet uphold the principle that all physical and mental acts arise through causes and conditions This book adds another perspective to Theravada scholarship by exploring various subtle Pali terms that seek to display the nuances of human motivation Cetana is shown to be the purposive impetus that links ethically good and bad attitudes of mind with corresponding acts of body speech and mind The argument is made that Theravada does not posit a controlling will but seek to establish the possibility of changing attitudes purposes and acts through holistic methods of training Theravada maintains that changes in attitude are possible because the mind has the capacity to observe its own processes of conditioning and is able to greatly diversify its responses to its own concepts and to factors in its environment

Vasubandhu and His Reaction and Addition to the "Abhidharma". A Historical and Doctrinal Analysis Andrew Baston, 2017-11-22 Essay from the year 2015 in the subject Psychology Psychology of Religion grade A Kathmandu University Rangjung Yeshe Institute course Yogachara Philosophy 300 language English abstract The Abhidharma is a voluminous collection of early Buddhist works written during the 3rd and 4th century The works contain Buddhist fundamental psychology that go into

more detail than any other work on human psychology before its time containing an incredibly detailed analysis of the human mind It is based on the teachings of the Buddha and supports a tremendous hosts of traditions that still base their dogma on it today It was designed to address major doctrinal however fundamental positions held by Buddhist and has been commented on as the basis even authority on a range of topics beyond psychology including dimensions of metaphysics ontology and phenomenology In this essay I will argue that despite the meticulous detail the Abhidharma provides consciousness and causality were left unclear forcing philosophers like Vasubandhu to invent remarkable theories to develop Mahayana consciousness and solve causality
