Marxism, Morality, and Social Justice Rodney G. Peffer, 2014-07-14 The interpreter of Marx's writings faces the task of reconciling on the one hand Marx's frequent explicit condemnations and criticisms of morality and on the other the obvious way in which his world view reflects substantive moral judgments In this book R G Peffer tackles the challenges of finding in Marx's work an implicit moral theory of answering claims that Marxism is incompatible with morality and of developing the outlines of an adequate Marxist moral and social theory Peffer analyzes the moral components of Marx's thought and considers all the major interpretations of his moral perspective he concludes that Marx is a mixed deontologist who is most committed to a maximum system of equal freedoms both positive and negative He then utilizes contemporary metaethical theory to show that Marxism is compatible with morality in general and with the concepts of justice and rights in particular Peffer proposes a radically egalitarian theory of social justice which subsumes Marx's own moral theory and a minimal set of Marxist empirical theses which together entail the Marxist's basic normative political positions This book demonstrates that contemporary analytic political philosophy is invaluable for coming to terms with Marxism and that it is only Marx's less abstract empirical theories about classes and class struggle the dysfunctions of capitalism and the possibility of creating democratic self managing postcapitalist societies that are needed for the development of an adequate Marxist moral and social theory Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Fundamentals of Sentencing Theory* Andrew Ashworth, Martin Wasik, 1998 The Oxford Monographs On Criminal Law And Justice series aims to cover all aspects of criminal law and procedure including criminal evidence the scope of the series is wide encompassing both practical and theoretical works Series Editor Professor Andrew Ashworth Vinerian Professor of English Law All Souls College Oxford This volume is a thematic collection of essays on sentencing theory by leading writers The essays fall into three

groups Part I considers the underlying justifications for the imposition of punishment by the State and examines the relationship between victims offenders and the State Part II addresses a number of areas of sentencing policy that have given rise to particular difficulty such as the sentencing of drug offenders the rationale for discounting sentences for multiple offenders the existence of special sentencing for young offenders and cases where the injury done to the victim is of a different magnitude from what might have been expected Part III raises various questions about the unequal impact on offenders of different sentencing measures and examines the extent to which sentences should be adjusted to take account of these different impacts and of broader social inequalities This volume is dedicated to Professor Andrew von Hirsch whose continuing work on sentencing theory provided the stimulus for the collection
