Philosophy and Theosophy Bhikhan Lal Atreya, 194? *The Key to Theosophy* H. P. Blavatsky, 2014-03 This Is A New Release Of The Original 1890 Edition **The Key to Theosophy** Helena Petrovna Blavatsky, 1987 Traces the broad outlines of the Wisdom Religion and explains its fundamental principles meeting at the same time the various objections raised by the average Western inquirer and endeavoring to present unfamiliar concepts in a form as simple and in language as clear as possible That it should succeed in making Theosophy intelligible without mental effort on the part of the reader would be too much to expect but it is hoped that the obscurity still left is of the thought and not of the language is due to depth and not to confusion To the mentally lazy or obtuse Theosophy must remain a riddle for in the world mental as in the world spiritual each man must progress by his own efforts The writer cannot do the reader's thinking for him nor would the latter be any the better off if such vicarious thought were possible **The Key to Theosophy** Helena Petrovna Blavatsky, 1908 **Key to Theosophy** H. P. Blavatsky, 1988 **The Key to THEOSOPHY** H. P. Blavatsky, 2020-12-23 *Philosophy and Theosophy* B. L. Atreya, 2013-10 This is a new release of the original 1939 edition **Theosophia Inner Wisdom** Helena Petrovna Blavatsky, et al., 2019-03-10 Theosophy is the renaissance of ancient spiritualism Theosophy is Archaic Wisdom Religion as taught by Masters and Magi Sages and Hierophants Prophets and Philosophers to the Elect undisguised by symbols It is Spiritual Knowledge reasoned out and corroborated by personal experience Diogenes Laertius traces Theosophy to an epoch antedating the dynasty of the Ptolemies But in fact Theosophy is much older It is the parent stem of Archaic Wisdom The term was revived in the 3rd century AD by Ammonius Saccas the Alexandrian Socrates of Neo Platonism teacher of Plotinus and founder of the Eclectic Theosophical System Briefly Eclectic Theosophy asserts that 1 Humanity is a periodic emanation

from a single noetic essence and 2 When by exertion and merit a mortal soul activates its latent faculties and potencies it can be re connected with its immortal noetic origin and source Hence the Buddhistic Vedantic and Magian or Zoroastrian systems were taught in the Eclectic Theosophical School along with all the philosophies of Greece It was Theosophy which prompted such men as Hegel Fichte and Spinoza to take up the labours of the old Grecian philosophers and speculate upon the One Substance the Deity the Divine All proceeding from Divine Wisdom And it was Theosophy that made it possible for great thinkers such as Plotinus Schelling and Emerson to reflect upon man s divine ancestry What Theosophy is and is not By looking inwards at the noumenal worlds and causes Theosophy is Esoteric Science par excellence Exact Science is only concerned with phenomenal worlds and effects Esoteric Science corroborates Nature s metaphysics and Divine Laws Exact Science Its physics and natural laws In Its fruition Theosophy is Inner Knowledge about the divinity of Cosmos and Man and a noetic progression from the known and knowable to the unknown and otherwise unknowable And as such It lies at the root of every moral philosophy religion and science Theosophy is the world s tree of knowledge and sum total of all sciences Sophia is the accumulated wisdom of Divine Beings from the beginning of time who have willingly accepted the harshness and drudgery of sentient life to help their toiling brothers Theosophy is not a religion It is but an analytical science the ally of every honest religion Being the culmination and practical demonstration of the Truths underlying every creed Theosophy is compatible with every religion It believes in no miracle whether divine or devilish and cherishes no anthropomorphic concepts whether gods or demons Theosophy discriminates between finite animal man and Infinite Divine Man and differs from the Vedantin doctrines It is not even esoteric religion Every old religion is but a chapter or two of the entire volume of archaic primeval mysteries Eastern Occultism alone being able to boast that it is in possession of the full secret with its seven keys In other words Theosophy is Religion itself Loyalty to Truth is Its creed Brotherhood of all beings not just men Its noble aim Theosophy is Inner Wisdom or Divine Knowledge It is at the heart of all religions and philosophies from the earliest time to the present day embracing all domains of mundane knowledge and human endeavour Yet It is a practical and an ethical philosophy ever transcending self imposed boundaries to expand consciousness and to dispel lingering doubts In short Theosophy is Supernal Philosophy Wisdom s True Love not mere verbiage It is a philosophy to live by Metaphysically Theosophy is the accumulated testimony and wisdom of the ages Theosophy is not knowledge of a God It is knowledge of gods Celestial Knowledge a shoreless ocean of Everlasting Truth Love and Impartiality monistic through and through By seeking the One Truth its allied with the ideals of every seeker of Truth To fully define Theosophy we must consider it under all its aspects By means of Its Golden Precepts those who are intellectually and ethically fit might gain insights of the inner world of being There mystics can see past present and future as in a mirror Theosophy wakes up and frees the Heavenly Man from the clutches of Its outer shadow so that He can live for others here on Earth unconstrained by his earthly jailer forgetting himself in the midst of the many selves in the words of a Philaletheian Ethically Theosophy is unconditioned love

for humanity and for all that lives Theosophy is philanthropy par excellence unconditioned and unreserved love for our fellow human beings and for all that lives in thought and deed It alone can restore hope and instil responsibility in a world suffocating from ignorance and its own misdeeds by mediating between egotism and altruism Even the great Law of Harmony depends on altruism Theosophy's aim and noble mission is to establish a community of spiritual thinkers who by studying Its precepts and enriching everyday life with Its exalted ethics can bring about a peaceful realignment of mainstream thought as a matter of urgency Warnings to aspirants Those who do not enter inner life in the Spirit of Brotherhood Those who try to degrade a noble philosophy into a den for immorality Those who are ignorant of the dangers of psychic powers And specially those who have already pledged to live for the World Beware Only purity of deed and thought can raise you to the company of your Divine Self

The Key to Theosophy Helena Petrovna Blavatsky, 1969 **Theosophy** Rudolf Steiner, 2013-05-17 Given his energetic involvement in practical initiatives and extensive lecturing Rudolf Steiner had little time to write books Of those he did write belonging almost entirely to the earlier years of his work four titles form an indispensable introduction to his later teaching Knowledge of the Higher Worlds Occult Science The Philosophy of Freedom and Theosophy Theosophy focuses on a psychology based not on the usual duality of body and mind but on the more ancient division of body soul and spirit Steiner describes in detail the functions and organs of these three aspects of the human being and the objective realms to which they belong Just as the body derives from and belongs to the material world so do the human soul and spirit belong to their own specific realms These are the dimensions through which all human beings travel in the life after death and in which after passing the midnight hour we prepare to seek our destiny or karma in a new life Theosophy features one of the most comprehensive and condensed of all Steiner's accounts of these realms and of the experiences which our immortal being undergoes in passing through them The book ends with a chapter on the modern path of knowledge in which Steiner describes the exercises through which every person may develop the latent powers of perception which are necessary for a knowledge of metaphysical worlds *Fundamentals of the Esoteric Philosophy* Gottfried Purucker, 1979 From 1924 to 1927

Katherine Tingley sponsored a series of private studies in The Secret Doctrine with G de Purucker as lecturer This record of the meetings provides an excellent introduction to H P Blavatsky s masterwork yet it stands on its own as a clear restatement of the philosophy expounded by all great thinkers and sages Beginning with the three fundamental postulates of the SD the presentation moves to cosmic and human evolution with emphasis on the interconnectedness of all beings Other topics include man s nature and destiny avatars and buddhas initiation the Mysteries and ethical values The Key to Theosophy
