Deibert, 2017-01-30 How does Paul s bodily mortality both collapse his apostolic authority in Corinth and yet confirm his gospel Richard I Deibert explores the vital relationship between Paul s experience of death and his theology of death Back cover **Complete Poems** A. M. Klein, 1990-01-01 This collection includes all Klein s poetry both original works and translations from Hebrew Yiddish Aramaic and Latin Many of them coming from all periods of his careers have never been published *Walt Whitman, Philosopher Poet* John W. McDonald, 2007-03-06 Was Walt Whitman celebrated poet of freedom and democracy a determinist at heart A close study of *Leaves of Grass* shows that Whitman consistently acknowledges the inevitability of all things As John McDonald argues this seeming contradiction lies at the heart of Whitman s poetry a fact continually

overlooked in the more than 100 years that critics have written about the poet and his magnum opus This volume contains an extensive study of Walt Whitman s poetry that explores both Whitman s guiding philosophy and its uses to unlock meaning within Leaves of Grass Beginning with a detailed explanation of determinism the author examines Whitman s use of indirection which the poet referred to at times as a game played to evade the reader s comprehension The work seeks to define a philosophy which was in the author s opinion the most significant influence in Whitman s thought and in his art Various poems are examined in depth including Song of Myself Passage to India and the particularly significant With Antecedents Gathered here will be evidence from Whitman s poems and prose and from his notes and quoted remarks enough evidence to show beyond doubt that determinism was indeed his most significant influence An innovative look at one of America s greatest poets

The Role of God in Spinoza's Metaphysics Sherry Deveaux,2007-02-26 Baruch Spinoza began his studies learning Hebrew and the Talmud only to be excommunicated at the age of twenty four for supposed heresy Throughout his life Spinoza was simultaneously accused of being an atheist and a God intoxicated man Bertrand Russell said that compared to others Spinoza is ethically supreme the noblest and most lovable of the great philosophers This book is an exploration of a what Spinoza understood God to be b how for him the infinite and eternal power of God is expressed and c how finite human beings can have a true idea of this greatest of all entities Sherry Deveaux begins with an analytic discussion of these three questions and an explication of three different views held by contemporary commentators on Spinoza She then shows that the commonly held views about Spinoza are inconsistent with Spinoza s texts especially his magnum opus the Ethics Next comes an analysis of topics in Spinoza that must be understood in order correctly to answer the three questions For example the notions of power and true idea are discussed along with Spinoza s definition of the essence of a thing which is shown to be central to the discussion of Spinoza s God Deveaux then claims that Spinoza defines God s essence as absolutely infinite and eternal power and that contrary to the commonly held view that God s essence is identical with the attributes e g thought and extension God s essence or power is expressed through the attributes

remembered This collection includes all Klein s poetry both original works and translations from Hebrew Yiddish Aramaic and Latin Many of them coming from all periods of his careers have never been published The poems are arranged chronologically according to date of composition This makes possible for the first time an appreciation of Klein s poetic development The editor s introduction places this development in the perspective of Klein s life and time and in particular explores Klein s lifelong struggle to reconcile his dual vocations as both a Jewish and a modernist writer The textual apparatus identifies all authoritative versions for each poem and lists all emendations and all substantive variants in both published and manuscript versions The explanatory notes gloss obscure terms and references They also provide a rich context for appreciation and interpretation by drawing connections with Klein s life his wide reading and his work as a whole Wherever possible Klein s own numerous but scattered comments on his poems have been cited

Deleuze and Philosophy Keith Ansell-Pearson,Keith Ansell Pearson,2002-03-11 The work of Gilles Deleuze has had an impact far beyond philosophy He is among Foucault and Derrida as one of the most cited of all contemporary French thinkers Never a student of philosophy Deleuze was always philosophical and many influential poststructuralist and postmodernist texts can be traced to his celebrated resurrection of Nietzsche against Hegel in his *Nietzsche and Philosophy* from which this collection draws its title This searching new collection considers Deleuze s relation to the philosophical tradition and beyond to the future of philosophy science and technology In addition to considering Deleuze s imaginative readings of classic figures such as Spinoza and Kant the essays also point to the meaning of Deleuze on monstrous and machinic thinking on philosophy and engineering on philosophy and biology on modern painting and literature Deleuze and Philosophy continues the spirit of experimentation and invention that features in Deleuze s work and will appeal to those studying across philosophy social theory literature and cultural studies who themselves are seeking new paradigms of thought
