Fishkin, 1979 Proceedings of the British Academy Volume 130, Biographical Memoirs of Fellows, IV, 2005-12-22 Eleven obituaries of recently deceased Fellows of the British Academy Isaiah Berlin Christopher Hill Rodney Hilton Keith Hopkins Peter Laslett Geoffrey Marshall John Roskell Isaac Schapera Ben Segal John Cyril Smith and Richard Wollheim **Political Theory Without Borders** Robert E. Goodin, James S. Fishkin, 2015-12-14 POLITICAL THEORY WITHOUT BORDERS Political theory has traditionally focused on governance within the confines of a specific polity but with the recent proliferation of environmental realities and national decisions that have global repercussions political theory must now be re imagined to confront globalization head on Political Theory Without Borders presents a collection scholarship that does just that Each chapter focuses on answering specific questions that have arisen from issues of global spillover like climate change and pollution and the increasingly unrestricted flow of people products and financial capital across borders With contributions from emerging scholars alongside key texts from some of the most well known theorists of previous generations this collection illustrates how the classic concerns of political theory justice and equality liberty and oppression have re emerged with a renewed significance at the global level Population and Political Theory James S. Fishkin, Robert E. Goodin, 2010-03-08 Part of the acclaimed Politics and Society series Population and Political Theory brings together leading thinkers in the fields of philosophy political science economics and social policy to address issues at the convergence of population policy and political theory Offers a single volume systematic overview of philosophical issues relating to population Represents a unique merging of discussions of population policy with political theory Broad in scope the diverse discussions will appeal to political philosophers population specialists and public policy makers *Natural Moral Law in Contemporary Society* Holger Zaborowski, 2010-08 Natural law is a controversial subject but one of great significance in the ongoing and increasingly important discussion about the foundations of moral reasoning The essays of this volume examine natural moral law different natural law theories and the role that natural law can and should play in our contemporary society While some essays explore systematically the metaphysical and moral foundations of natural law others focus on questions related to the application of natural law in the political medical or legal realm or discuss historical questions that are closely related to the crisis and defense of natural law All contributors agree that natural law is a concept that cannot and must not be dismissed and that is in need of a careful retrieval While there are clearly differences in emphasis among the contributors most of them also agree that the defense of natural law the critique of the modern dismissal of natural law and of a modern non teleological understanding of nature and the proper use of philosophical reasoning are all closely related The book continues the ongoing Studies in Philosophy and the History of Philosophy series ABOUT THE EDITOR Holger

Zaborowski is assistant professor of philosophy at the Catholic University of America He is the author of Robert Spaemann's Philosophy of the Human Person Nature Freedom and the Critique of Modernity and Eine Frage von Irre und Schuld Martin Heidegger und der Nationalsozialismus CONTRIBUTORS Joseph Cardinal Ratzinger Benedict XVI J Budziszewski Jean De Groot Jorge L A Garcia Luke Gormally Mary M Keys V Bradley Lewis Nelson Lund David S Oderberg John Rist Francis Slade and Robert Sokolowski *The Recent Work of Jürgen Habermas* Stephen K. White, 1989-08-25 Jürgen Habermas is one of the foremost philosophers and social theorists in the world today But the complexity and breadth of his thought make him often difficult to understand In this book Stephen White offers a clear accessible and reliable introduction to Habermas's work particularly that which he has written since the publication of Knowledge and human interest produced in English in 1971 During this period new themes and directions have emerged in Habermas's thought which culminated in The Theory of Communicative Action a massive work that has not hitherto been the subject of extended commentary and analysis This book is the first to provide a full length study of Habermas's mature thought Locating the latter in the context of contemporary debates White explains Habermas's ideas about action rationality communicative ethics contemporary capitalism and new social movements which characterize his later work He also examines Habermas's interpretation of modernity showing that although like his forerunners in the Frankfurt School Habermas maintains a critical stance towards modernity's instrumentalization of reason he nonetheless offers a sophisticated defense of the universal significance of other aspects of modern consciousness that are too often forgotten by many recent radical critics of modernity Throughout White presents Habermas's work in such a way as to emphasize its coherence and to demonstrate how it constitutes the beginnings of a distinctive new research program in the social sciences As a well researched and lucid account of Habermas's thought this book will appeal to readers wanting an introduction to the complexity of his ideas as well as to those already conversant with them It will also interest social and political theorists concerned with the general theoretical issues that it covers

*Autonomy, Freedom and Rights* Emilio Santoro, 2013-03-09 For the author freedom is not a fixed measure It is not the container of powers and rights defining an individual's role and identity It is rather the outcome of a process whereby individuals continuously re define the shape of their individuality Freedom is everything that each of us manages to be in his or her active and uncertain opposition to external pressures **A Radical Green Political Theory** Alan Carter, 2013-12-16 This volume is the first systematic comprehensive and cogent environmental political philosophy It exposes the relationships between the ever worsening environmental crises the nature of prevailing economic structures and the role of the modern state and concludes that the combination of these factors is driving humanity towards destruction Innovative provocative and cutting edge A Radical Green Political Theory will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy **Making Citizens** Zev M. Trachtenberg, 2013-01-11 By analysing Rousseau's conception of the general will Zev Trachtenberg characterises the attitude of civic virtue Rousseau believes

individuals must have to cooperate successfully in society Rousseau holds that culture affects political life by either fostering or discouraging civic virtue However while the cultural institutions Rousseau endorses would motivate citizens to obey the law they would not prepare citizens to help frame it Rousseau s view of culture thus works against his account of legitimacy and Trachtenberg concludes that Rousseau s political theory as a whole is inconsistent

**John Rawls, A Theory of Justice** Otfried Höffe,2013-07-25 Essential reading for all who are interested in mid century western political philosophy and the philosophy of John Rawls especially his seminal text A Theory of Justice An Introduction to Modern Political Theory Norman P. **Political Obligation in Its Historical Context** John Dunn,2002-04-11 Mr Dunn addresses the central questions of political philosophy from an unusually broad variety of perspectives Democracy and Democratization Michael Moran,Geraint Parry,2015-04-29 Following the collapse of the former regimes of Eastern and Central Europe and Latin America the choice of all of the democratising countries was to move towards liberal democracy Likewise in Africa many authoriatarian regimes seem to be in retreat perhaps most significantly in South Africa Democracy seems to be the only valued political system of the late twentieth century so that

even China for example describes itself as the people's democratic dictatorship So have we really as Francis Fukuyama suggested reached the end of history Should we not look seriously at the tension between liberalism and democracy which have led to dissatisfaction with the liberal model in countries such as Britain and France Is it not important to discuss the real problems of stabilisation and survival which the democratising countries are experiencing This timely collection examines questions of central concern to scholars and practitioners of politics It looks at both the concept of democracy and the process of democratisation combining theoretical chapters by historians of ideas and political theorists with empirical chapters on the process of democratisation in Eastern Europe China The Middle East and Latin America as well as in established democracies such as Britain and France

**A Theory of Freedom** Stanley I. Benn, 1988 A radically unorthodox theory of rational action is the central idea in a reformulation of Kant's ethical and political thought wherein rational action can be determined simply by principles regardless of consequences

*The Aesthetic State* Josef Chytrý, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytrý concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytrý indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was
