Uden, 2020-04-30 Discovers new connections and cross fertilisations between different cultural linguistic and religious communities in the Roman Empire Collectors, Scholars, and Forgers in the Ancient World Carolyn Higbie, 2017-01-26 Collectors Scholars and Forgers in the Ancient World focuses on the fascination which works of art texts and antiquarian objects inspired in Greeks and Romans in antiquity and draws parallels with other cultures and eras to offer contexts for understanding that fascination Statues bronze weapons books and bones might have been prized for various reasons because they had religious value were the work of highly regarded artists and writers had been possessed by famous mythological figures or were relics of a long disappeared past However attitudes towards these objects also changed over time sculpture which was originally created for a religious purpose became valuable as art and could be removed from its original setting while historians discovered value in inscriptions and other texts for supporting historical arguments and literary scholars sought early manuscripts to establish what authors really wrote As early as the Hellenistic era some Greeks and Romans began to collect objects and might even display them in palaces villas or gardens as these objects acquired value a demand was created for more of them and so copyists and forgers created additional pieces while copyists imitated existing pieces of art sometimes adapting to their new settings forgers created new pieces to complete a collection fill a gap in historical knowledge make some money or to indulge in literary play with knowledgeable readers. The study of forged relics is able to reveal not only what artefacts the Greeks and Romans placed value on but also what they believed they understood about their past and how they interpreted the evidence for it Drawing on the latest scholarship on forgery and fakes as well as a range of examples this book combines stories about frauds with an analysis of their significance and illuminates and explores the link between collectors scholars and forgers in order to offer us a way to better understand the power that objects held Tales of Wonder Matthew Gregory Lewis, 2009-11-13 In the late eighteenth century over the ancient Greeks and Romans Matthew Gregory Monk Lewis a notorious author of lurid Gothic novels and plays began to gather this collection of horror ballads Including original and traditional works translations and adaptations and even burlesques of the Gothic this hobgoblin repast as Lewis called it brings together a fascinating assortment of works Contributors include Lewis the young Walter Scott William Taylor of Norwich John Leyden and Robert Southey Appendices contain selections from Tales of Terror 1801 a text long intertwined with Lewis s collection information on Scott s An Apology for Tales of Terror 1799 and parodies and reviews of Lewis s particular brand of Gothic poetry **Re-Wiring The Ancient Novel, 2 Volume set** Edmund Cueva, Stephen Harrison, Hugh Mason, William Owens, Saundra Schwartz, 2019-02-28 The Fifth International Conference on the Ancient Novel which was held in Houston Texas in the fall of 2015 brought together scholars and students of the ancient novel from all over the world in order to share new and significant developments about this fascinating field of study and its important place in the field of Classical Studies The essays contained in these two volumes are clear evidence that the ancient novel has become a valuable part of the Classics canon and its scholarly attempts to understand the ancient Graeco

Ross Hickling, 2018-07-19 Resurrection Jesus Christ Richard Carrier Evidence Analysis Contradiction Comparison Dying and rising gods Hallucination Making Time for Greek and Roman Literature Kate Gilhuly, Jeffrey P. Ulrich, 2023-12-01 The essays in this collection explore various warious models of representing temporality in ancient Greek and Roman literature to elucidate how structures of time communicate meaning as well as the way that the cultural impact of measured time is reflected in ancient texts This collection serves as a meditation on the different ways that cosmological and experiential time are construed measured and manipulated in Greek and Latin literature It explores both the kinds of time deemed worthy of measurement as well as time that escapes notice Likewise it interrogates how linear time and its representation become politicized and leveraged in the service of emerging and dominant power structures. These essays showcase various contemporary theoretical approaches to temporality in order to build bridges and expose chasms between ancient and modern ideologies of time Some of the areas explored include the philosophical and social implications of time that is not measured the insights and limitations provided by queer theory for an investigation of the way sex and gender relate to time the relationship of time to power the extent to which temporal discourses intersect with spatial constructs and finally an exploration of experiences that exceed the boundaries of time Making Time for Greek and Roman Literature is of interest to scholars of time and temporality in the ancient world as well as those working on time and temporality in English literature comparative literature history sociology and gender and sexuality It is also suitable for those working on Greek and Roman literature and culture more broadly Ghost Stories in Late Renaissance France Timothy Chesters, 2011-01-13 This work describes the ideological intellectual and literary role of ghost stories in late Renaissance France It takes in prominent literary figures as well as lesser known tracts and pamphlets to shed light on the beliefs fears and desires of a period on the threshold of modernity **Greek and Roman Necromancy** Daniel Ogden, 2019-12-31 In classical antiquity there was much interest in necromancy the consultation of the dead for divination People could seek knowledge from the dead by sleeping on tombs visiting oracles and attempting to reanimate corpses and skulls Ranging over many of the lands in which Greek and Roman civilizations flourished including Egypt from the Greek archaic period through the late Roman empire this book is the first comprehensive survey of the subject ever published in any language Daniel Ogden surveys the places performers and techniques of necromancy as well as the reasons for turning to it He investigates the cave based sites of oracles of the dead at Heracleia Pontica and Tainaron as well as the oracles at the Acheron and Avernus which probably consisted of lakeside precincts He argues that the Acheron oracle has been long
