

# PHONETIC SPELLING

## English Phonetics

- Phonetics is part of a larger field of study called phonology.
- Phonology studies how words are pronounced in order to determine standardization and how accents vary from region to region.
- Phonology helps to preserve language pronunciation and study how it evolves and varies.

## Types of Phonetic Spelling

- The **Americanist Phonetic Notation** was originally created to transcribe indigenous languages. This alphabet was developed specifically for indigenous peoples of the Americas and Europe, but it has become useful for phoneticians studying languages outside of these areas as well. The symbols in Americanist Phonetic Notation are taken from both Greek and Latin.
- More commonly used than the Americanist Phonetic Notation is the **International Phonetic Alphabet** (IPA). While both systems translate speech sounds into symbols, the IPA only uses Latin symbols. It was first developed in the 19th century and is still used today. Both alphabets, but mainly IPA, are used by phoneticians, as well as by actors, singers, and public speakers to improve their articulation. It is also used in some advanced forms of language teaching to help students with their pronunciation and fluency.

## Examples of Phonetic Spelling

- Take, for example, the word "banana." When written, it may be difficult to know which A to emphasize. With phonetic spelling, the word would be "buh-nAn-uh." This tells you that the emphasis is on the second A, which is pronounced as a hard A, while the first and last are pronounced like the sound "uh."
- Similarly, the word "hog" would be written as "hagh."
- "Potato" would be "puh-tei-tow," "grocery" would be "grow-sr-ee," and "education" would be "eh-juh-kei-shn."

## Benefits of Phonetic Spelling

- One of the benefits of phonetic spelling is that it is easy to use for all levels of learning. New English speakers can benefit from the straightforward breaking down of words into their sounds, and advanced or native speakers can improve their fluency and add new or uncommon vocabulary words.

### Phonetic Spelling & Phonetic Pronunciation

- While phonetic spelling transcribes spoken language into written words, phonetic pronunciation is useful to help remember how to spell difficult words. Phonetic pronunciation is the act of saying words as they are written, not as they should sound. The goal is to teach people learning English how to spell a word that has silent letters. The word "subtle," for example, would be pronounced "sub-" "-tle" in phonetic pronunciation in order to emphasize the silent B.
