Fundamental Phonics with Hyper-Vowels[Doris L. Murray,2009-01-01 After thirty years of teaching and working through various materials in order to insure that my students received the very best programs that a teacher could provide I found that I had put together a program that would enable not only children but older non readers to read in a very short period of time I had never thought of myself as a writer of text books but I realized that I had put together a program that would guarantee the student success in reading spelling and writing This current text is the second book completed and prepared for non readers those who are just beginning and those who began and then slipped through the educational cracks It is my desire to see our children and those who have arrived in this country seeking freedom and a new life become good readers It is on this very principle that our nation became one of the most literate societies in the 19th and 20th centuries Phonics
