*Imaging and Imagining Palestine* Karène Sanchez Summerer, Sary Zananiri, 2021-07-05 *Imaging and Imagining Palestine* is the first comprehensive study of photography during the British Mandate period 1918-1948. It addresses well-known archives, photos from private collections never available before, and archives that have until recently remained closed. This interdisciplinary volume argues that photography is central to a different understanding of the social and political complexities of Palestine in this period. While Biblical and Orientalist images abound, the chapters in this book go further by questioning the impact of photography on the social histories of British Mandate Palestine. This book considers the specific archives, the work of individual photographers, methods for reading historical photography from the present, and how we might begin the process of decolonising photography. *Imaging and Imagining Palestine* presents a timely and much-needed critical evaluation of the role of photography in Palestine. Drawing together leading interdisciplinary specialists and engaging a range of innovative methodologies, the volume makes clear the ways in which photography reflects the shifting political, cultural, and economic landscape of the British Mandate period and experiences of modernity in Palestine. Actively problematising conventional understandings of production, circulation, and the instability of the photographic document, *Imaging and Imagining Palestine* provides essential reading for decolonial studies of photography and visual culture studies of Palestine. Chrisoula Lionis, author of *Laughter in Occupied Palestine: Comedy and Identity in Art and Film*. *Imaging and Imagining Palestine* is the first and much-needed overview of photography during the British Mandate period. From well-known and accessible photographic archives to private family albums, it deals with the cultural and political relations of the period, thinking about both the Western perceptions of Palestine as well as its modern social life. This book brings together an impressive array of material and analyses to form an interdisciplinary perspective that considers just how photography shapes our understanding of the past as well as the ways in which the past might be reclaimed. Jack Persekian, Founding Director of Al Ma mal Foundation for Contemporary Art in Jerusalem. *Imaging and Imagining Palestine* draws together a plethora of fresh approaches to the field of photography in Palestine. It considers Palestine as a central node in global photographic production and the ways in which photography shaped the modern imaging and imagining from within a fresh regional theoretical perspective. Salwa Mikdadi, Director al Mawrid Arab Center for the Study of Art, New York University. Abu Dhabi. *Unearthing Jerusalem* Katharina Galor, Gideon Avni, 2011-06-30 On a cold winter morning in January of 1851, a small group of people approached the monumental facade of an ancient rock-cut burial cave located north of the Old City of Jerusalem. The team, consisting of two Europeans and a number of local workers, was led by Louis F. Licien Caignart de Saulcy, descendant of a noble Flemish family who later was to become a distinguished member of the French parliament. As an amateur archaeologist and a devout Catholic, de Saulcy was attracted to the Holy Land and Jerusalem in particular and was obsessed by his desire to uncover some tangible evidence for the city's glorious past. However, unlike numerous other

European pilgrims researchers and adventurers before him de Saulcy was determined to expose the evidence by physically excavating ancient sites His first object of investigation constitutes one of the most attractive and mysterious monumental burial caves within the vicinity of the Old City from then onward to be referred to as the Tomb of the Kings Kubur al Muluk By conducting an archaeological investigation de Saulcy tried to prove that this complex represented no less than the monumental sepulcher of the biblical Davidic Dynasty His brief exploration of the burial complex in 1851 led to the discovery of several ancient artifacts including sizeable marble fragments of one or several sarcophagi It would take him another 13 years to raise the funds for a more comprehensive investigation of the site On November 17 1863 de Saulcy returned to Jerusalem with a larger team to initiate what would later be referred to as the first archaeological excavation to be conducted in the city from the Preface In 2006 some two dozen contemporary archaeologists and historians met at Brown University in Providence RI to present papers and illustrations marking the 150th anniversary of modern archaeological exploration of the Holy City The papers from that conference are published here presented in 5 major sections 1 The History of Research 2 From Early Humans to the Iron Age 3 The Roman Period 4 The Byzantine Period and 5 The Early Islamic and Medieval Periods The volume is heavily illustrated with materials from historical archives as well as from contemporary excavations It provides a helpful and informative introduction to the history of the various national and religious organizations that have sponsored excavations in the Holy Land and Jerusalem in particular as well as a summary of the current status of excavations in Jerusalem
