Middlebrow Literary Cultures E. Brown, M. Grover, 2011-11-30 The literary middle ground once dismissed by academia as insignificant is the site of powerful anxieties about cultural authority that continue to this day In short the middlebrow matters These essays examine the prejudices and aspirations at work in the battle of the brows and show that cultural value is always relative and situational Middlebrow Cinema Sally Faulkner, 2016-03-31 Middlebrow Cinema challenges an often uninterrogated hostility to middlebrow culture that frequently dismisses it as conservative which it often is not and feminized or middle class which it often is The volume defines the term relationally against shifting concepts of high and low and considers its deployment in connection with text audience and institution In exploring the concept of the middlebrow this book recovers films that were widely meaningful to contemporary audiences yet sometimes overlooked by critics interested in popular and arthouse extremes It also addresses the question of socially mobile audiences who might express their aspirations through film watching and traces the cultural consequences of the movement of films across borders and between institutions The first study of its kind the volume comprises 11 original essays that test the purchase of the term middlebrow across cultures including those of Europe Asia and the Americas from the 1930s to the present day Middlebrow Cinema brings into view a popular and aspirational and thus especially relevant and dynamic area of film and film culture Ideal for students and researchers in this area this book Remaps Popular and arthouse approaches Explores British Chinese French Indian Mexican Spanish national cinemas alongside Continental Hollywood Queer Transnational cinemas Analyses Biopic Heritage Historical Film Melodrama Musical Sex Comedy genres *The New Literary Middlebrow* B. **Snapshot Photography** Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private specific and abstract conventional and countercultural Snapshots capture everyday occasions Taken by amateur photographers with simple point and shoot cameras snapshots often commemorate something that is private and personal yet they also reflect widely held cultural conventions The poses may be formulaic but a photograph of loved ones can evoke a deep affective response In *Snapshot Photography* Catherine Zuromskis examines the development of a form of visual expression that is both public and private Scholars of art and culture tend to discount snapshot photography it is too ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating

in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film *One Hour Photo* and in the television crime drama *Law and Order: Special Victims Unit* the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today's digital age snapshot photography has become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography's mythic construction Zuromskis argues is a site of democratic possibility *The Art Institute of Chicago Field Guide to Photography and Media* Antawan I. Byrd, Elizabeth Siegel, 2023-01-01 A roster of prominent artists curators and scholars offers a new entirely contemporary approach to our understanding of photography and media Focusing on the Art Institute of Chicago's deep and varied collection of photographs books and other printed matter installation art photobooks albums and time based media this ambitious wide ranging volume features short essays by prominent artists curators university professors and independent scholars that explore topics essential to understanding photography and media today The essays organized around themes ranging from the expected to the esoteric are paired with key objects from the collection in order to address issues of aesthetics history philosophy power relations production and reception More than 400 high quality reproductions amplify the authors arguments and suggest additional dialogues across conventional divisions of chronology genre geography and technology An introductory essay by Matthew S Witkovsky traces the museum's history of acquisitions and how the evolution of the museum's collection reflects broader changes in the critical reception of the field of photography and media Distributed for the Art Institute of Chicago **The Routledge Companion to Photography and Visual Culture** Moritz Neumüller, 2018-09-21 The Routledge Companion to Photography and Visual Culture is a seminal reference source for the ever changing field of photography Comprising an impressive range of essays and interviews by experts and scholars from across the globe this book examines the medium's history its central issues and emerging trends and its much discussed future The collected essays and interviews explore the current debates surrounding the photograph as object art document propaganda truth selling tool and universal language the perception of photography archives as burdens rather than treasures the continual technological development reshaping the field photography as a tool of representation and control and more One of the most comprehensive volumes of its kind this companion is essential reading for photographers and historians alike *The Five Senses in Nabokov's Works* Marie Bouchet, Julie Loison-Charles, Isabelle Poulin, 2020-06-19 This collection of essays focuses on a subject largely neglected in Nabokovian criticism the importance and significance of the five senses in Vladimir Nabokov's work poetics politics and

aesthetics This text analyzes the crucial role of the author's synesthesia and multilingualism in relation to the five senses as well as the sensual and erotic dimensions of sensoriality in his works Each chapter provides a highly focused and sometimes provocative approach to the unique role that sensory perceptions play in the shaping and narrating of Nabokov's memories and in his creative process

**Visible Borders, Invisible Economies** Kristy L. Ulibarri, 2022-11-22 2023 Outstanding Book Award National Association for Ethnic Studies A thorough examination of the political and economic exploitation of Latinx subjects migrants and workers through the lens of Latinx literature photography and film Globalization in the United States can seem paradoxical free trade coincides with fortification of the southern border while immigration is reimagined as a national security threat US politics turn aggressively against Latinx migrants and subjects even as post NAFTA markets become thoroughly reliant on migrant and racialized workers But in fact there is no incongruity here Rather anti immigrant politics reflect a strategy whereby capital uses specialized forms of violence to create a reserve army of the living laboring dead Visible Borders Invisible Economies turns to Latinx literature photography and films that render this unseen scheme shockingly vivid Works such as Valeria Luiselli's Tell Me How It Ends and Alex Rivera's Sleep Dealer crystallize the experience of Latinx subjects and migrants subjugated to social death their political existence erased by disenfranchisement and racist violence while their bodies still toil in behalf of corporate profits In Kristy L Ulibarri's telling art clarifies what power obscures the national security state performs anti immigrant and xenophobic politics that substitute cathartic nationalism for protections from the free market while ensuring maximal corporate profits through the manufacture of disposable migrant labor

**Making Movies into Art** Kaveh Askari, 2014-12-12 Focusing on early cinema's relationship with the pictorial arts this pioneering study explores how cinema's emergence was grounded in theories of picture composition craft and arts education from magic lantern experiments in 1890s New York through to early Hollywood feature films in the 1920s Challenging received notions that the advent of cinema was a celebration of mechanisation and a radical rejection of nineteenth century traditions of

representation Kaveh Askari instead emphasises the overlap between craft traditions and modernity in early film Opening up valuable new perspectives on the history of film as art Askari links American silent cinema with the practice of teaching the public how to appreciate fine art charts its entrance into arts education via art schools and university film courses shows how concepts of artistic production entered films through a material interest in the studio and examines the way in which Maurice Tourneur and Rex Ingram made early art films by shaping an image of the film director around the idea of the fine artist

*On The Margins Of Art Worlds* Larry Gross, 2019-06-04 During the late 1980s the near worship of artistic genius produced auction sales of works by Vincent Van Gogh and Pablo Picasso for tens of millions of dollars over 15 million for a painting by Jasper Johns and record prices for works by many other deceased and even living masters At the same time it was no longer controversial in academic and intellectual circles to maintain that art works are the products of what Howard Becker has termed collective activity carried out within loosely defined art worlds Works of art from this point of view are not the products of individual makers artists who possess a rare and special gift They are rather joint products of all the people who cooperate via an art world's characteristic conventions to bring works like that into existence Artists are some sub group of the world's participants who by common agreement possess a special gift therefore make a unique and indispensable contribution to the work and thereby make it art 1982 35 The concept of the art world with its central focus on the collective social and conventional nature of artistic production distribution and appreciation confronts and potentially undermines the romantic ideology of art and artists still dominant in Western societies
