Haas, Margaret Wessling, 2018 This is a book about Edward Weston His early years in the field coincided exactly with the height of the Pictorialist movement in America and while he was never a typical practitioner he did make photographs that borrowed themes from paintings and other media and experimented with soft focused imagery that sometimes look more like graphite drawings or inky dark prints than photographs He would later disavow the gauzy painterly experiments of his early years Introducing rare surviving prints from the unplumbed holdings of the Lane Collection at the Museum of Fine Arts Boston this book offers new insights into Weston's working methods and his evolution as a photographer Beautifully reproduced examples of Weston's most important early work essays explaining their place in his oeuvre and a section dedicated to the variety of Weston's early materials and techniques make this book a must have resource Provided by publisher      **Edward Weston** Edward Weston, 1995-10-30 This new book surveys Edward Weston's work more comprehensively and exhaustively than any previous work A combination of biography and critical analysis it offers more than 320 meticulously reproduced duotone images nearly a quarter of which have never been reproduced in books before The selected photographs trace Weston's career from his early days through formative years in Mexico and on through the balance of his career which ended because of the onset of Parkinson's disease ten years prior to his death in 1958 Treated chronologically and emphasizing

Weston's creative preoccupations in each period the book includes work that he created in 1938 and 1939 with funds from the first two Guggenheim Foundation grants ever awarded to a photographer To illustrate the book vintage prints have been selected from the copious Weston Archives at the Center for Creative Photography in Tucson Arizona and the highly important Lane Collection at the Boston Museum of Fine Arts Nearly 10 000 photographs have been examined in order to select those reproduced in the book

**Portraits** Edward Weston, 1995 Weston seized the photographic moment through a shrewd and unusual technique by only pretending to shoot film for a period of time before actually taking the photograph and then flashing the lens cap without the subjects knowing he cleverly guided them beyond the pose even allowing his sitters to wander freely about the studio
