America's main format for photographic portraiture throughout the last quarter of the nineteenth century. Standardized at 6 x 4 inches, they were just large enough to reveal extensive detail, leading to the incorporation of elaborate poses, backdrops, and props. Inexpensive and sold by the dozen, they transformed getting one's portrait made from a formal event taken up once or twice in a lifetime into a commonplace practice shared with friends. The cards reinforced middle-class Americans' sense of family. They allowed people to show off their material achievements and comforts, and the best cards projected an informal immediacy that encouraged viewers to feel emotionally connected with those portrayed. The experience even led sitters to act out before the camera. By making photographs an easygoing fact of life, the cards forecast the snapshot and today's ubiquitous photo sharing.

Organized by senior curator John Rohrbach, *Acting Out* is the first ever in-depth examination of the cabinet card phenomena. Full-color plates include over 100 cards at full size, providing a highly entertaining collection of these early versions of the selfie and ultimately demonstrating how cabinet cards made photography modern. Published in association with the Amon Carter Museum of American Art. Tentative exhibition dates postponed due to COVID-19. Amon Carter Museum of American Art, August 2020; Los Angeles County Museum of Art (LACMA), 2021. *Jersey Bulletin and Dairy World*, 1912.

Stay Tuned Christopher H. Sterling, John Michael Kittross, 2001-11-01. Since its initial publication in 1978, *Stay Tuned* has been recognized as the most comprehensive and useful single-volume history of American broadcasting and electronic media available. This third edition has been thoroughly revised and updated to bring the story of American broadcasting forward to the 21st century, affording readers not only the history of the most important and pervasive institution affecting our society but also providing a contextual transition to the Internet and other modern media. The enthusiasm of authors Christopher H. Sterling and John Michael Kittross is apparent as they lead readers through the development of American electronic mass media from the first electrical communication telegraph and telephone through radio and television to the present convergence of media business entities, programming, and delivery systems, including the Internet. Their presentation is engaging as well as informative, promoting an interest in history and making the connections between the developments of yesterday and the industry of today. Features of this third edition include chronological and topical tables of contents, new material reflecting modern research in the field, a new chapter describing historical developments from 1988 through to the current day, an expanded bibliography including Web site and museum listings, an updated and expanded glossary and chronology, and extensive statistical data of the development of television and radio stations, networks, advertising, programming, audiences, and other aspects of broadcasting. Designed for use in undergraduate and graduate courses on the history of American mass media, broadcasting, and electronic media, *Stay Tuned* also fits well into mass communication survey courses as an introduction to electronic media topics. As a chronicle of American broadcasting, this volume is also engaging reading for anyone interested in old radio, early television, and the origins and development of
