**The Publishers' Trade List Annual** ,1983      The Rhetoric of RHETORIC Wayne C. Booth,2009-02-09 In this manifesto distinguished critic Wayne Booth claims that communication in every corner of life can be improved if we study rhetoric closely Written by Wayne Booth author of the seminal book *The Rhetoric of Fiction* 1961 Explores the consequences of bad rhetoric in education in politics and in the media Investigates the possibility of reducing harmful conflict by practising a rhetoric that depends on deep listening by both sides      *The Flutist Quarterly* ,1996      Classical Listening Rob Haskins,2015-11-05 The classical record business gained a new lease on life in the 1980s when period instrument performances of baroque and classical music began to assume a place on the stage This return to the past found its complement in the musical ascension of the American minimalists in particular the music of Steve Reich Philip Glass and John Adams and smaller specialty labels that focused on experimental composers like John Cage During this period of change of classical music s transition of looking both forward and back Rob Haskins served as a reviewer for *The American Record Guide* tracing these evolutions while also attending to works emerging from within the mainstream of classical music performance and composition *Classical Listening* Two Decades of Reviews of Reviews from *The American Record Guide* collects the several hundred reviews produced since Rob Haskins s start in the mid 1990s A performer and musicologist Haskins writes delightful cogent reviews that unapologetically reflect his personal experience musical interests and professional background emphasizing the value of subjectivity in music criticism Witty provocative and eloquent Haskins s book reads like a diary of personal experience even as it addresses important topics as diverse as historical performance practice and the aesthetics of contemporary music It is also a perfect guide to buying or listening for the classical music devotee seeking an informed opinion on the breadth of remarkable recordings available Record collectors students and scholars of early and contemporary music and performers professionals and general music lovers will find this collection an invaluable resource as they trace the reception of recordings in the last twenty years of classical music performance      **The Evolution of Verse Structure in Old and Middle English Poetry** Geoffrey Russom,2017-04-07 In this fascinating study Geoffrey Russom traces the evolution of the major English poetic traditions by reference to the evolution of the English language and considers how verse forms are born how they evolve and why they die Using a general theory of poetic form employing universal principles rooted in the human language faculty Russom argues that certain kinds of poetry tend to arise spontaneously in languages with identifiable characteristics Language changes may require modification of metrical rules and may eventually lead to extinction of a meter Russom s theory is applied to explain the development of English meters from the earliest alliterative poems in Old and Middle English and the transition to iambic meter in the Modern English period This thorough yet accessible study provides detailed analyses of form in key poems including *Beowulf* and *Sir Gawain and the Green Knight* and a glossary of technical terms      The Well-Tempered Clavier, Volume I Johann Sebastian

**Topic-Focus Articulation, Tripartite Structures, and Semantic Content** Eva Hajicová, Barbara B.H. Partee, P. Sgall, 2013-03-09 1 1 OBJECTIVES The main objective of this joint work is to bring together some ideas that have played central roles in two disparate theoretical traditions in order to contribute to a better understanding of the relationship between focus and the syntactic and semantic structure of sentences Within the Prague School tradition and the branch of its contemporary development represented by Hajicová and Sgall HS in the sequel topic focus articulation has long been a central object of study and it has long been a tenet of Prague school linguistics that topic focus structure has systematic relevance to meaning Within the formal semantics tradition represented by Partee BHP in the sequel focus has much more recently become an area of concerted investigation but a number of the semantic phenomena to which focus is relevant have been extensively investigated and given explicit compositional semantic analyses The emergence of tripartite structures see Chapter 2 in formal semantics and the partial similarities that can be readily observed between some aspects of tripartite structures and some aspects of Praguian topic focus articulation have led us to expect that a closer investigation of the similarities and differences in these different theoretical constructs would be a rewarding undertaking with mutual benefits for the further development of our respective theories and potential benefit for the study of semantic effects of focus in other theories as well
